## 1. PARTIES

1.01 This Agreement is between Abitibi-Consolidated Inc. referred to *herein* as the Company, and the Communications, Energy and Paperworkers' Union, C.L.C. and its Local 90, referred to herein as the Union, covering the mill of the Company located at Iroquois Falls, Ontario

### 2.01 PURPOSE

(a) The general purpose of this agreement is to establish mutually satisfactory relations between the company and its employees, to provide machinery for the prompt and equitable disposition of grievances, to establish and maintain satisfactory working conditions, hours and wages for the employees who are subject to the provisions of the agreement.

(b) The mutual interest of employer and employee is recognized by this Agreement for the operation of the entire Plant under methods that will promote to the fullest extent, safety to the employee, economy of operation, quality and quantity of output, cleanliness of plant and protection of property; and it is recognized by this Agreement to be the duty of the parties to this agreement and of all employees to cooperate fully, individually and collectively for the advancement of these conditions.

## 3. UNION RECOGNITION

3.01 Abitibi-Consolidated Inc., recognizes the Communications, Energy and Paperworkers' Union, as

the exclusive bargaining agent for the employees under its jurisdiction at the Company's Iroquois Falls Division.

3.02 The Company recognizes the Union as the sole bargaining agent for all employees under their jurisdiction engaged in the operation, maintenance, repair and installation of electronic, hydraulic and metering equipment. Should any disagreement arise, it will be discussed with Management and the Union concerned.

#### 4. UNIONSECURITY

4.01 The Company when hiring new employees, shall give preference to members of the Unions.

4.02 All employees whose rates are fixed by this Agreement shall make application to become members of their respective local union within fifteen (15) days after entering the Company's employ and shall be so instructed by their foreman and shall maintain membership in good standing, and shall upon hiring sign a Union deduction card for monthly dues at the Employee Relations Office for the respective Union concerned. The payroll deduction authorization for monthly dues will become effective fifteen (15) days after the employee starts to work. The amount of union dues deducted in each taxation year will be shown on employee's T-4 slips.

4.03 In consideration of this deduction and forwarding service by the Company, the Union agrees to save the Company harmless against any claim or liability arising out of or resulting from the collection and forwarding of these dues.

4.04 All new employees shall serve a probationary period of two hundred and forty (240) hours worked during which period the Union shall represent such employees in every capacity; however it is understood and agreed that the company may terminate a probationary employee in its discretion provided only that such discretion shall not be exercised in such a manner that is discriminatory or in bad faith.

## 5. JURISDICTION

5.01 No employee is to be required to become a member of more than one Union. Questions of jurisdiction shall conform to the regulations covering such matters as fixed by the Canadian Labour Congress and the Company will not be asked to act upon any matters of jurisdiction between Unions. However, when the respective organizations are unable to agree on the Union a man is required to join, then the Company will specify the Union in which they will recognize him, and shall consider him a member of that Union until such time as the respective organizations agree.

5.02 It is understood the Company will continue to recognize lines of demarcation of individual local jurisdictions that have been established over the years until notified in writing by the Local concerned there has been a change.

## 6. CONTRACTING OUT

6.01 The Company will not contract out repair and maintenance work which is regularly performed by the repair crew for which the mill concerned is equipped:

for which crews are available and which employees are capable of doing. The Company will advise the Unions of its intentions to contract out prior to the final agreement being reached with a contractor.

## 7. INTERRUPTION OF WORK

7.01 No strikes or lockouts shall occur during the life of this agreement.

7.02 Prior to a legal strike, or lockout, the parties shall meet to discuss procedures to ensure the essential services and complete security of the mill property and facilities. With implementation and continuance of the above, insurance benefits, excluding Weekly Indemnity and Long Term Disability Benefits, will be maintained subject to the employees or the Union paying the full cost of such coverage upon return to work. Weekly Indemnity and Long Term Disability Benefits being paid at the commencement of a strike, supported by proper medical evidence when requested, will be continued.

## 8. PROMOTIONS & TRANSFERS

8.01 Whenever it becomes necessary to fill a regular, permanent position within a given line of progression, this will be accomplished by promoting employees belonging to that given line from one step to another until the bottom job in the line of progression is open.

8.02 If, for any reason, it is impossible to fill a job opening through advancement of an employee in a line of progression, and for all bottom jobs the Company

shall post on bulletin boards throughout the mill a notice concerning the job in the department affected. Such notice shall indicate the qualifications essential to promotion within the department. Such posting shall be for a period of ten (10) working days and the Company shall have the right to make temporary appointment without penalty. In all cases of promotions flowing from job postings, the Company will give consideration to seniority, ability and qualifications. When the last two factors are relatively equal, seniority will apply.

8.03 It is understood that an employee who has been selected to fill a posted position, will have the right to return to his former position without loss of seniority within two-hundred and forty (240) hours.

8.04 Job freezing will not be allowed in lines of progression except as mutually agreed by the Company and the Union.

8.05 The Company will train employees to minimize the hiring of skilled men from outside the mill.

## 9. LAY-OFFS

9.01 In the case of layoff, union members will be given preference in employment, among equally efficient employees, the older in point of service being given preference of employment (the same principles to govern as in the case of promotion).

9.02 In cases of lay-offs, plant wide seniority with due regard to jurisdiction of each of the signatory unions shall apply. In making transfers under this rule it

is understood and agreed that in moving between departments, the senior man must have the necessary qualifications to enter the department and shall have access only to the bottom job in the line of progression in the department to which he is being transferred. If the number of senior employees involved in a permanent lay-off exceeds the number of junior employees holding bottom jobs in the lines of progression, the Company, if requested by the Union, will locate other job openings in jobs held by junior employees above the bottom jobs so as to assure continued employment for senior employees. Training will be given if necessary to the senior employees.

9.03 When employees are laid off they shall be recalled in reverse order of their lay-off.

#### 10. SEVERANCEPAY

10.01 A permanent employee with at least one year's continuous service who is laid off due to job elimination by Management decision for such causes as more efficient operation, change or elimination of a process, lack of orders, shall be paid Severance Pay. Severance Pay shall not be paid due to job elimination for such causes as fire, flood, explosion, or "Act of God". Severance Pay shall be paid in accordance with the following:

(a) Severance Pay shall be one week's pay for each year of an employee's last full period of service without interruption due to lack of work. Severance Pay will not be paid to employees who resign or are discharged. One-half of this severance pay is payable after the employee has been laid off due to job

elimination for a period of six (6) weeks. The second half of the severance pay is payable after the employee has been laid off a total of three (3) months.

(b) If recalled to work before the Severance Pay payment is payable, no such payment will be made. Any employee refusing a recall shall forfeit his right to Severance Pay.

(c) If an employee is recalled after having received all of the Severance Pay due him, he will, as of the date of return, commence a new period of accumulation which will be credited toward any future lay-off.

(d) If an employee is recalled after having received half of the Severance Pay due him, he will, upon return to work retain the right to the unpaid portion which will be added to any new accumulation of Severance Pay.

## 11. TECHNOLOGICAL CHANGE

11.01 The Company undertakes to advise and to discuss with the Union in advance as far as is possible (minimum three (3) months) of any technological changes which the Company has decided to introduce which will result in significant changes in the employment status of employees.

11.02 The Company agrees to discuss with the Union the effect of such technological changes on the employment status of employees and to consider practical ways and means of minimizing the adverse effect on employees displaced by such changes. Such

measures as early retirement, retraining and transfers to other existing jobs will be considered.

11.03 If a permanent employee with one year's continuous employment is set back to a lower paid job due to job elimination under conditions set forth above he shall retain the rate of the permanent payroll position for an initial period of six (6) months. For an additional period of six (6) months an adjusted rate will be established midway between this rate and the rate for his new job for each work week. At the end of the twelve (12) month period the rate for the job to which he is assigned will apply. Seasonal or temporary employees are not covered by this clause.

11.04 A permanent employee with one year's continuous service who will be laid off due to job elimination under conditions set forth above will be given notice of the impending change in employment status at the earliest possible time in keeping with the notification of the Union as set forth in 11.01 above.

mutually agreed. Changing of wires and machine clothing on Sunday shall, however, be permitted as provided for in Article 18 of this Agreement.

12.03 In order that the paper machines may produce paper as nearly as possible for 144 hours per week, it is hereby understood and agreed that the minimum necessary number of employees may be required to come on duty early on Monday to help prepare the machine to make paper at 8:00 a.m. This principle shall also apply for start-up after a Statutory Holiday, it being understood that no employee will be required to report for work more than three hours prior to the end of the statutory holiday shutdown period.

### 13. PULP MILL SCHEDULE

13.01 Operation of pulp mills shall be a standard week of not more than six (6) days per week. When deemed necessary by the Company to provide stock to keep the paper mill running six (6) days per week, or to provide experimental pulps for use in our mills, or to provide pulp for other divisions in order to maintain full production of machines in our mills, pulp mills shall operate on Sunday.

13.02 The Company will take effective measures to reduce hours required for maintenance and other work on Sundays and paid statutory holidays by improved planning and scheduling.

13.03 Except in unforeseen emergency conditions, when matters will be discussed with the Unions concerned, no production worker will be required to come in during a statutory holiday except for the early

start-up. It is understood that no employee will be required to report to work more than three (3) hours prior to the end of the statutory holiday shutdown period to prepare for the start-up.

If upon completion of the emergency work that necessitated the call-in, the employee is required by the Company to perform any subsequent additional work, it shall be treated as an added call-in. The employee shall clock out and clock back in between such call-ins. When a Day Worker is called in on a breakdown before 7:00 a.m. and continues to work on that breakdown after his normal starting time, the time and one-half rate will apply to the completion of the job. If called in between 7:00 a.m. and 8:00 a.m., he shall receive time and one-half for the period worked.

15.04 A Day Worker called in on his designated day off shall receive time and one-half for the hours

worked with a minimum of four (4) hours' pay for each call.

15.05 On emergency call-ins men will be contacted by their supervisory personnel, if available, or other designated supervisory personnel.

- (b) Overtime work by special arrangement between a tour worker and his mate to exchange shifts with the approval of his supervisor and when this can be accomplished without additional cost or penalty to the Company.
- (c) When required to replace an employee for tardiness up to two (2) hours.

16.03 Employees who fail to report for work or who in any way penalize their mates or the Company under this overtime arrangement will be subject to the applicable mill rules. Disciplinary action under these rules and regulations shall be subject to grievance procedure.

16.04 Except as noted above tour workers called on duty after regular working hours or prior to the commencement of a regular shift (except when reporting early as scheduled for start-up), or on their scheduled days off shall receive time and one-half for all overtime work and in no case shall they receive less than four (4) hours pay at regular rates for the work performed on each call. The above will apply to the Occupational Health and Safety Committee members if called in by the Company to investigate accidents or unsafe working conditions.

16.05 Overtime shall not be pyramided nor shall more than one basis of calculating overtime be used to cover the same hours.

18.02 All workers engaged in putting on wires at a time other than their regular shifts are to receive six (6) hours pay or time and one-half whichever is greater. If workers commence to put on a wire before their shift or day begins or continue such work after their tour or day ends, they shall receive six (6) hours pay or time and one-half whichever is greater. Men putting on wires on their regular shift shall not receive such extra pay. The Company will start a wire change when sufficient number of the crew is available.

18.03 When for maintenance reasons or reconditioning for reuse, a wire is removed and re-installed on the wire string equipment or repacked in its transporting container, the crew involved in this work will receive the same Wire Time as now paid for installing a wire.

19.02 When an employee wishes to change his scheduled or designated days off, he will notify his supervisor at least twenty-four (24) hours in advance and if such a change is mutually agreed upon by the employee and his supervisor, then the employee will work at straight time rates on the day or days originally scheduled as his scheduled or recognized days. On the other hand, if he is required to work on the alternate days mutually agreed upon as his days off, he shall be paid at the overtime rate.

19.03 In the event of a major breakdown an employee may be required to work on his scheduled or designated day or days off for which he will be paid at straight time rates provided he has been given at least twenty-four (24) hours advance notice and granted another day or days off as mutually agreed upon for which he will be paid at the overtime rate if required to work on these days.

19.04 Any worker called in on Sunday who works eight (8) hours or more and was not scheduled to work on that day, shall not have to take a designated day off during the week, and shall work on his 5th scheduled working day at time and one-half if he so desires.

19.05 When a Statutory Holiday falls on an employee's scheduled day off, it will not be necessary for the employee to take another day off in addition to the Statutory Holiday, unless he prefers to do so, in which case the day off in lieu will be scheduled at a mutually acceptable time.

19.06 When a statutory holiday falls into a given week, a mechanic who worked the previous Sunday, shall consider the statutory holiday as his day off and will not be required to take an additional day off in lieu of Sunday, unless, of course, he prefers to do so.

19.07 Where shift men work on a Sunday preceding a Statutory Holiday and where a swing man is provided, the regular man will continue to take his designated day off and will be replaced by the swing man.

## 20. REST PAY

20.01 A day worker working in excess of sixteen (16) hours, lunch time included, in any twenty-four (24) hour period, provided he is scheduled to work the following day, shall receive time off with pay to the extent that such work exceeds sixteen (16) hours. 23.03 Employees with nine (9) years or more of continuous service shall be entitled to four (4) weeks vacation with pay in each calendar year.

23.04 Employees with twenty (20) years or more of continuous service shall be entitled to five (5) weeks vacation with pay in each calendar year. Effective January 1, 2000, employees with eighteen (18) years or more of continuous service shall be entitled to five (5) weeks vacation with pay in each calendar year.

23.05 Employees with twenty-five (25) years or more of continuous service shall be entitled to six (6) weeks vacation with pay in each calendar year. Effective January 1, 2000, employees with twenty-three (23) years or more of continuous service shall be entitled to six (6) weeks vacation with pay in each calendar year.

23.06 Supplementary Plan

Employees with twenty-five (25) years or more of continuous service shall receive the following additional vacation in the calendar year in which they attain:

Age 60 - Additional one week's vacation

Age **61** - Additional two weeks' vacation  
Age **62** - Additional three weeks' vacation  
Age **63** - Additional four weeks' vacation  
Age **64** - Additional five weeks' vacation

23.07

(a) If three, four, five and/or six weeks are taken at one time they must be taken within the period from September 15th to June 15th.

(b) Vacations taken during the summer months, June 16th to September 14th will be limited to two (2) weeks, with the third, fourth, fifth and/or sixth weeks to be taken in the period September 15th to June 15th as agreed between the employee and the Company.

(c) Necessities of operation must be given full consideration.

23.08

(a) Each week of vacation pay will be calculated at 2.4% of gross earnings in the previous calendar year, or forty (40) hours' pay at the employee's regular rate, whichever is the greater.

(b) An employee shall receive an additional four (4) hours' pay at his regular rate for each week of vacation entitlement taken during the period January 1 to April 30.

23.09 The Unions agree to cooperate with Management in scheduling vacations in such a manner that maximum production may be maintained.

23.10 Vacations with pay are intended to enable each employee to enjoy a respite from routine duty with no financial worry to distract from their benefits. Vacations are in no way considered a bonus.

23.11 The privilege of taking vacations must be confined to permanent employees employed upon standard payroll positions.

23.12 In drawing up the vacation schedule, the management will endeavour to meet the wishes of the individual employee. It must be understood, however, that the necessities of operation must be given full consideration. In cases where vacation periods requested conflict, preference will be given to the older employees in point of service and within departments.

23.13 Working on long shifts while men are away on vacation is to be avoided whenever possible.

23.14 Not later than February 1st of each year, each employee entitled or expected to become entitled to have vacation time off in that vacation year, will be requested to specify in writing, on a form provided by the Company, the vacation period he desires. These forms must be completed and returned to the employee's foreman no later than March 1st of each year.

23.15 Taking vacations is to be compulsory. Vacations cannot be accumulated but must be taken in the year when they are due.

23.16

(a) To be eligible for vacations, employees must have worked at least two-thirds of the available time during the qualifying year, except that time lost due to mill accidents or sickness (such sickness to be limited to four (4) months in any one year) does not count against employees' working time credits in the qualifying year.

(b) If an employee works a minimum of four (4) months in a calendar year and is sick for four (4) months or more in the same year, the employee is considered to have completed the minimum qualifying period to be eligible for vacation in the following year. If an employee works less than four (4) months in any one calendar year in the following year his vacation pay will be calculated on the appropriate percentage of his earnings for the year in which the sickness occurred.

(c) If an employee works less than four (4) months, due to an illness, and has holidays remaining, these holidays shall be considered time worked.

23.17 The qualifying year in determining eligibility for vacations in the first year shall be the twelve (12) month period beginning with the date of employment; in subsequent years the qualifying year may be the calendar year. The main purpose in making the calendar year the qualifying year for the employee's second vacation is to enable an employee whose anniversary date of employment comes in the late fall to have his vacation during the desirable vacation period, that is, during the summer months.

23.18 Tour and shift workers shall not be entitled to the night shift differential while absent on vacation.

23.19 Employees with more than one year's service who are laid off due to lack of work, or who leave the Company's employ in good standing shall be entitled to vacation pay based on the following formulae:

- (a) Full vacation credit based on service in the preceding calendar year, plus
- (b) 4.8%, 7.2%, 9.6%, 12% or 14.4% of gross earnings (depending on whether the employee is entitled to 2, 3, 4, 5, or 6 weeks' vacation) calculated from January 1 in the current year to date of leaving. If vacation has been taken in the current year based on the preceding calendar year's employment (b) only shall apply.

23.20 Employees with less than one year of continuous service who are laid off for lack of work, or who leave the Company's employ in good standing shall be entitled to vacation pay at the rate of 4.8% of gross earnings from date of employment to date of separation.

23.21 Employees who leave the Company's employ without giving the required notice or who are discharged for cause shall be entitled to vacation pay based only on the formula set out in the Employment Standards Act. Notice of resignation during the last shift worked is considered adequate.

23.22 When a lay-off due to lack of work is of more than four (4) months' duration, continuity of service is broken until, after rehiring, an employee completes one year of continuous service. After this time his length of service can be restored, counting the time before and

after, but not during the lay-off, and his vacation period started from the anniversary date of his returning. Such restoration of service, however, is contingent upon the man keeping the Company posted as to his current address and the man reporting back to work as soon as practical when recalled. His vacation pay would be granted on the basis of his restored length of service.

23.23 Employees may be paid on leaving for vacation, for earnings to date of leaving plus vacation pay and less usual deductions for the period for which they are being paid.

25.01 An employee who is prevented from working his scheduled shift due to being on jury duty, reporting for jury roll-call or as a subpoenaed witness shall be paid the difference between the pay received for such jury duty or subpoenaed witness and the regular scheduled hours at straight time that he would otherwise have received.

25.02 An employee scheduled to work the midnight to 8:00 a.m. shift or tour immediately prior to reporting for jury duty, jury roll-call or subpoenaed witness on that date will be excused, upon request, and the terms of this Article will be applied.

The tradesman's primary task is to deal with emergencies occurring during the shift and to perform the tasks scheduled by the department superintendent, regardless of the department in the mill.

The Company and the Union recognize that technological change, automation, changes in methods of process and reduction of the workforce have an impact on employees.

The Company is therefore prepared to make the following commitment. Immediately following a public announcement by the Company of its intentions to proceed with a major project or layoff (for reasons other than market conditions) affecting the employment status of permanent employees, the Company will meet with the Union involved to implement the following:

1. Special early retirement provisions.

2. Freeze on the hiring of permanent employees.
3. Retraining.
4. Transfers to other job vacancies.
5. Exercise of the bumping provisions of agreement.
6. Attrition (death, retirement, voluntary resignation, discharge for cause).

43. LOCAL ISSUES

43.01

(a) The parties agree that local issues, which may arise at Divisions during the term of the collective agreement should be identified and discussed at the appropriate Division prior to commencement of joint bargaining. Accordingly it is agreed that the Union will submit to local management a complete listing of local issues no later than January 30<sup>th</sup> of the final year of the agreement. It is understood that only, those local issues which arise from situations occurring after January 30<sup>th</sup> may be subsequently raised as local issues prior to the commencement of negotiations.

(b) Management agrees to meet, discuss and attempt to resolve these items no later than March 1st in the final year of the agreement.

(c) It is understood that:

- (i) Items that may or may not have monetary impact (**such as** improvements in working conditions) but which are unique to the location in which they are presented, and which

would not apply directly to an operation in another location, are local issues.

- (ii) Items which involve any change to collective agreement language are not local issues.

43.02 The Union shall have the right to discuss local adjustments with Management at divisional level prior to April 30, 1999, April 30, 2000, April 30, 2001, April 30, 2002 and April 30, 2003 and prior to negotiations 2004. All local adjustments must be submitted in writing by February 15<sup>th</sup> of that year for discussion and final settlement at local level prior to April 30, 1999, April 30, 2000, April 30, 2001, April 30, 2002 and April 30, 2003 and prior to negotiations 2004, and where granted will become effective May 1. It is understood that "local adjustments" are construed to mean the consideration of individual job rates in cases of gross inequality or major changes in job responsibility. Jobs covered by the Papermakers Wage Scale or included in the Job Classification Plan will not be subject to the "local adjustments" process.

43.03 If during the term of the collective agreement, an amendment, modification or addition to this agreement should be mutually agreed to by the parties, it shall not be effective unless it is reduced to writing in the form of a Letter of Understanding duly signed by the parties signatory to this Agreement. Such letters of understanding will form part of the current collective agreement.

44. TERM OF AGREEMENT

44.01 The Company and the Union agree that they will abide by the articles of this agreement for a period of six (6) years from May 1, 1998 to April 30, 2004 and from year to year thereafter, subject to not less than thirty (30) days' notice in writing prior to April 30, 2004 and in any succeeding year, by either party desiring a change.

RE: NOTICE OF CONTRACTING OUT

Dear Mr. Godfrey:

In recognition of the concerns expressed both at Iroquois Falls and during the past several days at negotiations, the Company is prepared to undertake to advise the Union as far in advance as is possible of its intention to contract out and for this purpose will attempt to do so thirty (30) days in advance of contracting work out. It is understood that situations will develop from time to time which will make such notice impossible to achieve.

LETTER OF UNDERSTANDING

Mr. Ed Godfrey  
President, C.E.P. Local 90  
Iroquois Falls, Ontario

RE: ASSIGNMENT OF REGULAR EMPLOYEES -  
TEMPORARY PARTIAL WORK CURTAILMENT

Dear Mr. Godfrey:

Further to our discussions of this date regarding the above, the Company commits to the following:

In the event of a planned temporary partial work curtailment (eg: Number 7 paper machine being taken out of service for two weeks due to lack of orders), the regular employees who are laid off as a result of this curtailment will be placed on the "spare list" with all other spare employees and will be slotted based on their relative mill wide seniority.

These employees will be assigned work similar as to all other spare employees based on their training, qualifications, and ability to do the available work. It is understood that where the training required to perform the available work is minimal (eg: Grinder Room Charger, Woodroom 109 Conveyor, Sulphite Burnerman, Finishing Room Utility Man, Pressman, etc.), this training will be provided.

Mr. Yves Carriere  
President, CEP Local 90  
Iroquois Falls, Ontario

Dear Yves:

Our discussions have clearly indicated your concerns with aspects related to the application of the May 2, 1993 letter from Bill Sheffield to Ed Godfrey regarding notice of intent to contract out.

My commitment to you is to live up to the letter as written and to go beyond it. As the letter states, we will undertake to provide notice of intent to contract out maintenance and repair work spoken to in article 6.01 of our labour agreement 30 days prior to the work actually being performed. Additionally we will provide you with notification (again 30 days prior to the work being performed) of 1) work we intend to contract out other than maintenance and repair work and service agreements, and 2) purchases that include the set up of new equipment. It is understood that situations will develop from time to time which will make such notice impossible to achieve.

We will also provide you with information relative to service agreements that are in force on an annual basis, providing an idea of frequency and scheduling, although those schedules will vary somewhat over the course of the year.

I also commit to have our success with respect to the 30 day notification relative to maintenance and repair work measured from the point of view of average days notification and number of instances where we have failed to meet the 30 day intent, and will review these with you on at least a quarterly basis.

This commitment is made in the spirit of open communications, and of course applies to items that predominantly require skills or trades related to positions represented by local 90. Items that may relate to electrical or papermaking positions will of course be the subject of discussions with that local and or union.

Sincerely,

**Re:** Contracting out

This letter is to confirm my statements as made during the 1998 negotiations regarding the contracting out of normal repair and maintenance work at the mill.

I am committed to reducing our costs at Iroquois Falls in order to improve our competitiveness in the global arena and ensure our ongoing viability.

As part of this, I am focusing on a reduction in the amount of normal repair and maintenance work being contracted out at our division.

(b) Change in Benefits

Any employee not actively at work on the effective date or dates of the changes in benefits will not be eligible for the increase in benefits until the date of his return to active employment.

(c) A daily rate of payment for each calendar day of absence that qualifies for payment shall be one-seventh the weekly amount of disability benefit under Section (a) hereof.

4. ELIGIBILITY FOR PAYMENT

(a) (i) Except in the case of disability arising out of an accident or illness requiring hospitalization, an employee shall be eligible to receive an amount of disability benefit in

accordance with Section 3 hereof, for a period not exceeding 52 weeks for any illness, beginning after 3 consecutive days of continuance of the disability.

(ii) In the case of a disability arising out of an accident or illness requiring hospitalization, an employee shall be eligible to receive an amount of disability benefit in accordance with Section 3 hereof, for a period not exceeding 52 weeks for any one accident or such sickness commencing from the date of the accident or first day of hospitalization.

(b) An employee absent from work and in receipt of an amount of disability benefit, shall continue to receive such benefit, even though a work shortage develops which would have resulted in his being laid off had he been at work, provided that the employee remains disabled and continues to furnish evidence satisfactory to the Company and/or insurer, and verifies the continuance of disability.

(c) An employee shall not be eligible for an amount of disability benefit under this plan unless he is actively employed by the Company at the date that he becomes eligible or until he subsequently returns to active employment.

In the event of a lay-off, an employee shall be considered as still employed for purposes of this benefit up to the end of the policy month next following the policy month in which the employee was laid off.

(d) An employee making a claim for an amount of disability benefit after lay-off or termination of employment for disability established to the satisfaction of the Company and/or insurer as having occurred prior to his lay-off or termination, shall be eligible for an amount of disability benefit provided such disability was accompanied by a continuance of absence that commenced prior to actual lay-off or termination.

(e) Successive periods of disability separated by less than four consecutive weeks shall be considered one period of disability, unless the subsequent disability is due to an accident or illness entirely unrelated to the previous disability and commences after return to active employment on a full time basis.

(f) An amount of disability benefit under this plan shall not be paid in the event the absence is a result of,

(i) Any injury arising out of or sustained while doing any act or thing pertaining to any occupation or employment for remuneration or profit, or

(ii) Any injury or illness entitling the employee to compensation under any Worker Safety & Insurance Board Compensation or similar legislation, or

(iii) Self-destruction or any self-inflicted injury, while sane or insane, or

(g) An amount of disability benefit will not be payable following the normal retirement date of an employee, other than retirement under the total and permanent disability provision of the Company pension plan.

(h) An amount of disability benefit will not be payable following the early retirement date of an employee, if early retirement was approved prior to the onset of disability.

(i) An amount of disability benefit will not be payable for those days for which the employee receives holiday pay, vacation pay, or more than one-half day's regular pay, from the Company.

(j) An employee on Weekly Indemnity who is determined as being fit for "light duty" by a licensed

physician and if no "light duty" work is available, he shall remain on Weekly Indemnity Benefits in line with Section 4 (a) (i).

(k) (i) An amount of disability benefit under the plan shall not be paid in event the absence is a result of pregnancy-related disabilities when an employee is on pregnancy leave of absence or could be placed on such leave by the Company, in accordance with the pregnancy leave provisions of any relevant provincial or federal legislation,

(ii) For employees who fail to qualify for pregnancy leave of absence because of failure to meet the length of service requirements in the relevant provincial or federal law, any leave of absence agreed upon by the employer and employee will be considered a normal leave of absence for legitimate personal reasons.

5.

(a) In computing the amount of disability benefits, disability will be considered as starting from the first day of disability; however, in the event of absence due to illness, an employee must be certified by a physician for the disability within the first three (3) days of disability. In the event that the employee is not certified within the first three days, disability will be considered as starting two (2) complete days prior to the day that the employee is actually certified by a physician.

When an employee becomes ill on a Friday, the three (3) day waiting period will be extended to the Monday. However, if the employee in this instance fails to see his doctor on the Monday immediately following the Friday, the grace period will revert to three (3) days only.

#### 6. MISCELLANEOUS PROVISIONS

(a) An employee who is absent due to disability or on an authorized leave of absence, on the date he was to become eligible under this plan, and is unable to return to active employment when eligible because of a disability, shall, upon the date of his return to active employment, be eligible to participate in this plan;

(b) An employee absent on an authorized leave of absence on the date he was to become eligible under this plan, shall, upon the date of his return to active employment, be eligible to participate in this plan;

(d) If requested, the Company may make advance payments after receipt of formal claim, at normal pay intervals until the claim is processed.

The Company will be reimbursed by the claimant for any advance payments made prior to the

Company's receipt of notification of the adjudication of the claim.

If a claim is denied, advance payments not repaid by the claimant within 30 days following receipt of notification by the Company's of such denial, will be recovered by the Company from the claimant's normal pay.

Cost of physical examinations, transportation and reasonable out-of-pocket expenses related thereto will be paid by the insurer.

In cases where there is a dispute as to the validity of a claim or the continuance of a claim and where the physicians of the employee and the employer fail to reach agreement after consultation, the dispute will be referred to a mutually agreed practising specialist who will render a final and binding decision.

Weekly Indemnity payments will continue until a final decision is reached.

10. ADMINISTRATION

(a) It shall be the obligation of the employee to notify immediately the Company of his absence due to

disability, following which the Company will issue the necessary initial claim forms to him.

(b) Completed claim forms will be checked by the Company to determine whether or not an employee is a participant in the plan, and the Company will forward the claim forms to the insurer for adjudication and processing.

EFFECTIVE DATE OF BENEFITS

Employee:

Your benefits are effective on the day following continuous employment for 90 working days, provided you are not absent from work due to disability, leave of absence or lay-off. If you are away from work because of disability, leave of absence or lay-off on the date that coverage would otherwise become effective, benefits will not start until you return to work.

Dependent:

Benefits for your dependents are effective on the same date as your own. If you are single and later acquire a dependent, please notify your employer immediately, in order that your coverage may be changed.

If you already have dependent coverage under the Plan, any additional dependents will be automatically covered from birth.

THE PLAN

The Plan provides you and your eligible dependents with reimbursement of:

- (a) 100% of the cost of Class I covered expenses, and
- (b) Effective the first day of the month following ratification, 50% of the cost of Class II and Class III covered expenses based on the 1997 Provincial Dental Association Schedule of Fees;

Effective May 1, 2000, the 1999 schedule of fees.

Effective May 1, 2001, the 2000 schedule of fees.

Effective May 1, 2002, the 2001 schedule of fees.

Effective May 1, 2003, the 2002 schedule of fees.

The maximum benefit per calendar year is \$1,500 per insured family member for Class I, II and III covered expenses.

#### COVERED EXPENSES

##### Class I Procedures:

- . Oral examinations, including scaling and cleaning of teeth
- Topical application of sodium or stannous fluoride
- Oral hygiene instruction
- Dental X-rays
- Extractions
- Oral surgery, including excision of impacted teeth
- . Amalgam, silicate and plastic composite fillings
- . Anaesthetics administered in connection with oral surgery or other covered dental services
- . Injections of antibiotic drugs by the attending dentist

- Replacement of an existing partial or full removable denture or the addition of teeth to an existing partial or full removable denture to replace extracted natural teeth, but only if evidence satisfactory to the Insurance Company is presented that the existing denture cannot be made serviceable.
- Repair or relining of dentures

Class III Procedures:

- Orthodontic treatment, including correction of malocclusion

Services and supplies, in the case of each dental expense, must have been rendered and dispensed by a legally qualified dentist except that:

- i) Cleaning or scaling of teeth may be performed by a licensed dental hygienist if such treatment is rendered under the supervision and direction of such dentist, and
- (ii) Installation, adjustments, repairs and relining of complete dentures may be made by a dental mechanic or denturist legally practising within the scope of his license, but any charges in excess of the amount specified for such services and supplies in the dental mechanics' or denturists' tariff of the Province where such services and supplies are received will be disregarded.

## PRE-DETERMINATION OF BENEFITS

Usually, before starting extensive dental work, your dentist will tell you what he intends to do and the charge. If the cost of a course of treatment planned by the dentist for a covered family member is expected to exceed \$200, the proposed course of treatment must be filed with, and approved by, the Insurance Company prior to the commencement of treatment. The necessary forms are available from your employer. After reviewing the proposed course of treatment, the Insurance Company will notify both you and your dentist of the estimated payment under the Plan.

Because of the difficulty of determining the necessity for the types of services involved after treatment has been received, failure to file and obtain approval may result in benefits of a lesser amount than would otherwise have been payable.

Occasionally a patient may select a more expensive procedure rather than a suitable alternate procedure. In such cases, reimbursement will be based on the least expensive procedure which, as determined by the Insurance Company, will produce a professionally adequate result.

## EXCLUSIONS

In the event that the dentist demands payment from the claimant upon completion of treatment, it will be the claimant's responsibility to pay the dentist and then claim reimbursement from the Insurance Company. It will be necessary for the claimant to secure a completed claim form from the dentist.

APPENDIX "E"

TRADES PROMOTION PLAN

- I. TRADES and CLASSIFICATIONS
  - (a) There shall be two rates of pay for painters, "B" and "A".
  - (b) There shall be three rates of pay for mechanics' helpers, "C", "B" and "A" except in the case of Painters' Helpers for whom there shall be one rate, "A".
  - (c) It is the sole right and responsibility of management to determine the number of mechanics and mechanics' helpers required to take care of mill repair and maintenance requirements satisfactorily.
  - (d) The Company agrees to promote qualified personnel from within before consideration is given to hiring tradesmen from the outside.
2. SCHEDULE OF RATES
  - (a) The schedule of rates for journeymen and helpers appears in the main wage schedule.
  - (b) No differential in rates between skills will be paid. A journeyman machinist will be paid the same rate as a journeyman electrician. A journeyman electrician will be paid the same rate as a journeyman millwright, etc.

3. PROMOTION AND DEMOTION

- (a) Helpers who enter the maintenance departments after the signing of this agreement must have a minimum number of credits equivalent to Grade X technical or academic education, pass a mechanical aptitude test and must enter the departments through job posting.
- (b) A helper will remain at the "C" rate of pay for a period not exceeding six (6) months. During this period, his progress will be reviewed to determine if he can progress satisfactorily in the trade in which he is employed and if his progress is unsatisfactory he will be taken out of the maintenance department. If retained as a helper, he will be paid the "B" rate of pay for the following eighteen (18) months.
- (c) i) After serving for eighteen (18) months at the "B" rate of pay, the mechanical helper will be paid the "A" rate of pay during the remainder of the time he is employed as a mechanical helper.
- ii) When a helper, who has qualified as a journeyman and is waiting for promotion, is directed to do the work of a journeyman on a temporary basis he will be paid the journeyman rate while doing such work.
- iii) When a helper, who has not qualified as a journeyman, is directed to do

the work of a journeyman on a temporary basis he will be paid the rate of the job on which the employee is substituting while doing such work. Helpers will be promoted to "A" journeyman when qualified and openings exist.

iv) The Company agrees to promote either the Helper or the Apprentice who has been first to qualify for the promotion in that trade.

v) It is understood in all cases of temporary promotion that the senior helper, who has previously qualified or who is actively studying and progressing, in a particular trade, will be promoted.

(d) Effective the date on which the agreement on the Tradesman Promotion Plan is signed, the accumulation of service as helper may be built up through temporary employment as helper, counting all periods of temporary employment which are of not less than five (5) consecutive working days. The Company agrees that Helpers who entered the Tradesman Promotion Plan prior to April 30, 1969, will not be required to meet the conditions of the Plan in connection with the I.C.S. Course of Instruction in order to be eligible for promotion to Journeyman classification when vacancies occur, provided they meet all other conditions of the Tradesmen Promotion Plan.

However, when employees are promoted in compliance with the above provision, it is understood that for a 12-month period they will be on probation. During this 12-month period they will be expected to prove their ability to perform all the duties of a Tradesman. Failure on the part of the employee to perform all the duties of a Tradesman within the specified 12-month period will automatically mean that they will be reverted to the "A" Helper classification.

Where a mill has a Mechanical Bull Gang, the employee's service in the Bull Gang may be credited towards his Helper term of service

but in no case shall the credit exceed one year.

iii) Helpers on the payroll, and those subject to recall as of April 30, 1963, may become journeymen by proving proficiency in their trade after serving a minimum of seven (7) years in that particular trade with Abitibi-Consolidated Inc. subject to review by the Evaluation Committee.

The Employee Relations Superintendent will be present at Committee meetings to record the minutes of proceedings and to certify that the helper has fulfilled the time and technical training requirements for his trade, as outlined in Section e(ii) and e(iii).

Three representatives of the Union to which the employee belongs may be present during the evaluation meeting and may offer to the Committee appropriate comments or assistance. In addition, the employee who is being evaluated may be present and may offer comments to the Union representatives.

The function of this Committee will be to assess the Helper's performance on the job and to advise him if he is qualified for promotion to journeyman status. If he is not qualified for promotion, the reason will be explained at this time. In the event of disagreement, grievance procedure will apply. The Committee will meet semi-annually about May 1st and November 1st.

It is understood that a Helper will be promoted to Journeyman only when and if a vacancy exists. Once qualified for promotion a Helper will not be evaluated again. Helpers who fail to qualify for promotion will be evaluated semi-annually.

vii) Correspondence courses for Helpers will be purchased under the Abitibi-Consolidated Educational Assistance Plan but in the case of Helpers the refund will be 100% of the net cost on successful completion of the course, providing the Helper is enrolled after having completed his probationary period.

Journeymen hired from outside the mill may be paid "A" journeyman rate or paid probationary rates equal to the fifth year, first or second half, apprentice rates.

If hired at the first half, fifth year probationary rate, they must be promoted to the second half fifth year rate after six (6) months and to the "A" journeyman rate after one year.

- (h) In any case where a journeyman has not been promoted, for any reason, above the present "C" or "B" class, he will remain at a rate equal to either the fifth year, first or second half, apprentice rate, until the reason for his not having been promoted has been removed.

#### 4. NOTES

- (a) Rates for leading hands, assistant foremen and foremen will have to be determined after examining the effect of the new rate schedule of 1948 on the earnings of the men who they supervise.

- (b) This committee cannot appraise the degree of mechanical skill required or repair work done by the various operators across the Company but can only recommend that those occupations which are listed in the consolidated rate sheets of 1948 for the entire Company on page 4, sections headed Crane and Locos and Steam Operation and page 5 Miscellaneous be examined according to the following formula for electricians:

In it, a carefully selected young man, interested in one of the trades practised in our mills, is given work experience by varied shop and mill assignments, and must complete a suitable course of instruction in drafting, blueprint reading and related theory. By so developing tradesmen, Abitibi-Consolidated prepares replacements for future retirement of its skilled older journeymen, while offering to some of its employees an opportunity to develop and increase their skill and knowledge by learning a trade. By being thus assured of an adequate supply of skilled tradesmen, the Company is better enabled to maintain its equipment in proper shape for efficient production.

#### 2. REQUIREMENTS

(b) An applicant for apprenticeship must have a secondary school graduation diploma or equivalent.

4. **TERMS OF APPRENTICESHIP**

(a) The period of Apprenticeship will be four (4) years, divided into 8 periods, each of six (6) months duration. After graduation, if retained, an apprentice will automatically proceed over a one (1) year period to journeyman status, as indicated in the Apprentice "Rates of Pay".

Courses will be purchased under our Educational Refund Plan but in the case of an apprentice the refund for this course will be 100% of the net cost on successful completion of the course. If he does not qualify after three additional months, he shall be dropped from the apprentice course.

(i) A helper may apply for entry into the apprentice plan. If he is accepted into the plan, an assessment of his skill and knowledge shall be made by the Apprentice Committee for which he may be given credit

towards the apprenticeship time to be served. This credited time shall not exceed fifty percent of the applicant's service as a helper in the respective trade, and in no case shall it exceed two years. When a helper enters the plan he shall be paid the apprentice rate stipulated for that particular period in which he enters. When a helper on the payroll at April 30, 1963, enters the plan with an hourly rate in excess of that paid for the apprentice period for which he has been accepted, his rate will not be reduced for an increase will be granted until his apprentice period rate catches up.

At the 12, 24, 36 and 48 month completion points of the training program the apprentice will be required to submit proof to the Apprentice Committee that he owns and has in his possession a pre-determined list of tools. Before graduation from the training program complete list of tools will be checked against the tools owned. Tools may be purchased through the Company at cost using normal Company procedure.

(k) Rotation in the various trades for apprentices must be completed prior to the commencement of the last six months an apprentice spends in the plan.

(l) During the last six months of his apprenticeship period the apprentice will be periodically assigned jobs in his own trade.

(m) Abitibi-Consolidated Inc. does not guarantee employment upon completion of apprenticeship, but will endeavour to place the graduates in tradesmen's jobs.

(n) The Company will reimburse apprentices who attend a government trade school for the full cost to the employee (ie. less any contribution made by a government agency) of required text books, upon successful completion of the course.

(o) For those apprentices who must live away from home to attend a government trade school, the company will provide a living allowance supplement of \$300.00 per week less any comparable allowance from any government agencies.

5. GENERAL

(a) Helpers

The accepted way to become a tradesman will be by the apprentice route; however, the alternative route outlined in the Trades Promotion Plan may be followed.

(b) Apprentice training does not mean the replacement of helpers as they will always be needed as such, but it does mean that the main source of our future tradesmen will be through apprenticeship.

6. **APPRENTICE COMMITTEE**

(a) An Apprentice Committee will be formed in each mill composed of the Manager or his representative, and appointed representatives from the following: engineering department, electrical department, mechanical department, personnel department and the Union; or Union concerned. This Committee will deal with such things as: checking on course coverage, progress of apprentices and solving of problems that may arise. The Unions will be advised how many management representatives will attend each meeting and the Unions will be entitled to an **equal** number of representatives in total.

(b) The final selection of an apprentice shall be done by the Apprentice Committee. The Union representatives on this Committee while it is selecting an apprentice may offer any appropriate comments or suggestions.

7. **RATIO OF APPRENTICES TO MECHANICS**

During the next ten years the ratio of apprentices to mechanics retiring will depend on the work load of the mill. Mechanics will continue to come from both helpers and apprentices.

**8. WORKING CONDITIONS**

In general, an apprentice will not be asked to work overtime except in exceptional cases and then he will not be left on the job alone; a journeyman will work along with him. An apprentice must comply with all the rules and regulations applicable to the department in which he serves.

**9. SPECIAL WORK**

When a special job comes up, the apprentice in the department concerned will be given an opportunity to work wherever possible with the crew on the job.

**10. CERTIFICATE**

The Company will supply a signed certificate to each apprentice on completion of his apprenticeship. In addition, where applicable, a Certificate of Apprenticeship shall be presented by the Provincial Department of Labour to each apprentice who is registered with the Department and who completes his apprenticeship.

**II. SENIORITY**

When a man transfers from some other job to the status of an apprentice in one of the mechanical trades, he shall maintain his seniority in the job from which he transferred

for a period of 6 months. Following such probationary period, his seniority shall develop exclusively within the mechanical group to which he transferred. If, when the period of apprenticeship (4 years) is served there is a vacancy for a journeyman in the trade for which the apprentice is qualified, he will be retained as a journeyman and will become eligible for promotion in accordance with the Tradesmen Promotion Plan.

12. **RATES OF PAY**

(a) The schedule of rates for apprentices appears in the main wage schedule.

(b) When an apprentice is attending a trade training course at a Government Trade School, the following pay arrangements will apply:

i) The apprentice may receive a weekly training allowance from the Provincial Department of Labour or the Federal Manpower Office while attending school. The Company will supplement this allowance to provide the apprentice with a total weekly income equal to forty (40) times his regular hourly rate of pay. Calculation of the Company's portion will be based on the Government allowance for an apprentice who is able to live: at home while attending the Trade School.

- ii) If the apprentice is required to live away from home in order to attend a trade training course, he will receive the Company pay supplement referred to above, in addition to any increased allowance paid by the Department of Labour to a trade trainee living away from home.
- iii) Payment of supplementary pay will be made on regular pay days. To receive this pay the apprentice must maintain satisfactory attendance and performance records at school during his trade training course.
- iv) The Company will provide for foregoing weekly pay supplement for the number of weeks normally required to complete trades training courses. Should an apprentice be required to spend more than the normal number of weeks to complete a course he will not receive Company pay during the additional time in school.
- v) An apprentice's entitlement to Vacation with Pay, Statutory Holiday Pay, Sick Leave and Bereavement Leave will not be affected by his attendance at a Trade School, nor will his participation in any employee welfare plans in which he is enrolled. Permission of the school authorities must be obtained for all absences.

13. LOSS OF WORKING TIME

(a) An apprentice may lose up to a maximum of thirty (30) scheduled working days due to sickness or accident, during his four year term of apprenticeship, without having to serve additional time. Extension of the term of apprenticeship will be considered by the Apprentice Committee in the event that an apprentice loses more than thirty (30) working days.

### CONTINUOUS OPERATION IROQUOIS FALLS, FORT WILLIAM THUNDER BAY, AND BEAUPRE DIVISIONS

THE FOLLOWING SUPPLEMENT **WILL** FORM  
PART OF THE COLLECTIVE AGREEMENT  
WHEN CONTINUOUS OPERATION IS  
IMPLEMENTED

When implemented in individual mills - \$.15 per hour.

#### **CONDITIONS**

1. One additional Statutory Holiday to be Easter Sunday.
2. It is agreed that if operation of a paper machine or paper machines is scheduled for 4 or more consecutive weeks of continuous operation, a 7-day swing will be installed provided an average work week of 42 hours and the 6th day of work necessitated under such schedule will be paid at straight time rates. Men at the bottom will be laid off on reverting back to 6-day operations. Schedules, hours of work and working conditions will be discussed and agreed upon prior to implementation.

Provision is provided for the discussion of schedules prior to implementation of 7-day operation. If the Locals choose a 40-hour schedule this can be arranged, although it is not in our opinion as desirable for the employees as the 7-day swing schedule. If the 7-

day swing is chosen then payment is on the basis of the 42 hour averaging basis.

3. If any one news machine in any one mill goes on continuous operation it is understood other newsprint mills must work a minimum of 5 full days per week.

#### STATEMENT OF POLICY

It is not the Company's intention to operate a paper machine on a continuous basis while other operable machines in a mill are operated at less than 6 days per week.

4. Every effort will be made to maintain existing vacation schedules.

5. A \$.03 per hour adjustment will be granted to all tradesmen and other employees listed in Appendix "A" of the Memorandum of Settlement on the implementation of continuous operation in an individual mill.

6. The present call-in clause will be changed to provide 6 hours minimum on Sundays and statutory holidays.

7. For emergency shutdowns of 24 hours or less (includes the shift in which the shutdown occurs and the two shifts following) and all normal shutdowns occasioned by normal clean-up, clothing changes and scheduled normal maintenance, operating crews will be provided with work and will be paid at the rate of their regular occupation. Employees will be expected to do work assigned. Tour workers may be scheduled to

work with day crews during these shutdowns and if so scheduled will work day work hours.

8. The work week shall commence at midnight Saturday or 8:00 a.m. Sunday whichever is applicable. During any work week in which a paper machine operates on Sunday the crew putting on wires during that work week will receive 6 hours wire pay and 2 hours pay will be deducted from the regular hours of work.

ABITIBI-CONSOLIDATED INC.  
JOINT HEALTH AND SAFETY CONFERENCE

During the term of the 1998-2004 Collective Agreement a Joint Abitibi-Consolidated/ Communications, Energy & Paperworkers' Union Health and Safety Conference will be held once every two years (starting in 1999). This conference will be held in October or November with the date and location being subject to mutual agreement.

The purpose of the conference will be to develop and support joint participation in the Health and Safety Program in all mills involved.

Two delegates from each mill union local, one of whom is a member of the mill joint health and safety committee, may attend the conference. These delegates shall be compensated for scheduled hours lost as a result of attending the two (2) day conference and one (1) preparation day. In addition, those delegates required to absent themselves from their regular shifts to travel to and from the conference will be compensated for any loss of scheduled hours they would have otherwise worked to a maximum of two (2) additional days. The Company will compensate delegates for transportation expenses and will contribute \$75.00 per day for incurred living expenses.

In the event there is a mill shutdown during the week in which the Health and Safety Conference occurs, delegates attending the conference from the mill will be compensated in accordance with the above, using a

schedule of work which would have applied had the mill been operating.

Conference planning and the agenda will be the responsibility of a joint committee selected by Abitibi-Consolidated and the Communication, Energy and Paperworkers' Union. The agenda will be confined to those policy matters affecting the health and safety of employees at the respective mills. Mill Joint Health and Safety Committees may be asked to submit agenda items to the Joint Planning Committee.

## APPENDIX "L"

### JOB CLASSIFICATION PLAN

**1.01** It is agreed that all jobs under the jurisdiction of the Communications, Energy and Paperworkers' Union, except jobs in the mechanical trades and related occupations, and/or jobs properly covered by the Paper-makers' Wage Scale, clerical jobs and supervisory jobs, will be classified using the Pulp and Paper Manufacturers' Job Classification Plan, Explanatory Booklet dated June 1, 1974, as amended.

#### **1.02 IMPLEMENTATION**

(a) The Job Classification Plan is the basis for determining the job class applicable to any existing jobs, any newly created jobs or any jobs which have changed.

(b) The Wage Rate Structure established for the various job classifications is set forth in the "Schedule of Wage Rates", which forms part of this Agreement.

(c)

- (i) In the event that new jobs are created or significant changes occur in existing jobs, the employee or employer may request through the Mill Committee, the preparation of a new job description for submission to the Joint Classification Committee for evaluation.

- (ii) The Joint Classification Committee will evaluate the job and inform the Mill Committee of the applicable job class.
- (iii) **In** the event that agreement on the evaluation cannot be reached by the Joint Classification Committee, the question shall be referred for final resolution to the Senior Committee.
- (iv) The incumbent of a job will receive the rate applicable to the job class, determined as outlined above. An upward rate adjustment, if applicable, will be effective from the date the new job was created or the date that a revised job description was requested pursuant to c(i). Where an evaluation or re-evaluation results in a rate lower than that in effect previously, the higher rate will be maintained as a "red circle" rate. Such red circle rates will be applicable only to those incumbents classified and holding (or employees who have worked within the last 12 months as relief in) the position evaluated or re-evaluated prior to receipt of the Joint Classification Committee's notification of the lower classification. Such "red circle" rates will disappear through attrition, promotion or adjustment to the J.C.P. wage scale. General wage increases, however, will continue to apply to such red circle rates.

(d) The Job Classification Plan will be implemented and upward adjustment will be effective on May 1, 1980.

(e) Upon initial implementation of the Job Classification Plan where the evaluation resulted in a rate lower than that in effect prior to the dates applicable in (d) above, the rate will be maintained as a "red circle" rate and will be applicable only to the incumbent on that date and employees who were used as replacements during the twelve month period prior to the date of implementation of the Plan at each location. Employees hired, transferred, or posted to another department after the dates referred to in (d) above will receive the class rate of the occupation they are hired for, transferred to, or accept through job posting. Red circles will disappear with attrition and promotion.

(f) General increases will apply to all occupations.

(g) Adjustments to the scale will not apply to employees whose rates are red-circled except in the case where the difference between the "red-circled" rate and the "class" rate is less than the total adjustment. In such a case, the difference will be applied and the "red circle" will be discontinued.

(h) Incentive rates presently allowed to the employees of the Steam Plant will continue to apply.

(i) The Mill Committee will meet as required.

(j) The Joint Classification Committee will meet as required.

(k) As a condition of continued participation in the plan by the Abitibi-Consolidated Inc. Group companies, and in consideration of the Companies' agreement to adhere to the general principles of the Job Classification Plan, the Union agrees that it will not cause or be party to the modification of any essential element of a Job Classification Plan in any other pulp and paper company in the Eastern Canadian industry to which the Union is a party, unless such modification is agreed to by all participating companies.

(l) On the principle that, in implementing the Job Classification Plan, no employee will receive less favourable treatment on any job than he did at any time prior to April 30, 1980, the following will apply:

- (i) If movement occurs downwards through lines of progression because of curtailment, individuals affected will revert to the rates they formerly enjoyed on the lower jobs to which they are transferred or the evaluated rate for the job at that particular time, whichever is the higher.
- (ii) Conversely, in the case of reverting to a higher level of operation, when individuals move back up through their lines of progression they will be paid the rates they formerly enjoyed on the higher jobs to which they are transferred, or the evaluated rate for the job at that particular time, whichever is the higher.

**Widths**

Widths of machines are definitely established. Starting with 100 inches and up to, but not including, 110 inches is a group unit called Class 1. Starting with 110 inches and up to, but not including, 120 inches is a group unit called Class 2. This same rule applies all the way down the width differential line.

**Speeds**

Starting with 400 feet and up to, but not including, 450 feet is a group unit called Class 1. Starting with 450 feet and up to, but not including, 500 feet is a group unit called Class 2. In the speed line the classifications of machines will advance if speed of machine is increased sufficiently to put them over the 50 foot differential line into higher classes. A 100-inch machine is established as the minimum width for all machines less than 100 inches in width. Four drinier widths shall be determined by face width of breast roll.
