

COLLECTIVE AGREEMENT

ENTERED INTO THIS 27TH DAY OF JUNE, 2000

BY AND BETWEEN:

Bombardier Aerospace, de Havilland Division (Toronto) and
Bombardier Aerospace, Regional Aircraft Division (Toronto) at its
Downsview and Derry Road locations; hereinafter, collectively,
called "the Company"

OF THE FIRST PART

- and -

The National Automobile, Aerospace, Transportation and General
Workers Union of Canada (CAW Canada), a voluntary association
of employees representing the employees of the Company,
through its Local 112, hereinafter referred to as "the Union"

OF THE SECOND PART

ARTICLE 1 - PURPOSE

The general purpose of this Agreement is to establish and maintain collective bargaining relations between the Company and its employees, for the prompt and equitable disposition of grievances and to establish and maintain mutually satisfactory working conditions, hours and wages for all employees who are subject to the provisions of this Agreement.

ARTICLE 2 - SCOPE

2.01 The Company recognizes that the Union is the sole and exclusive collective bargaining agency for all its employees in Metropolitan Toronto, Ontario and those employees who are engaged on work parties outside Metropolitan Toronto, save and except Office Staff, Supervisors, those above the rank of

Supervisors, the Health Centre Staff, Security Staff and Service Engineers.

2.02 Should the Company, during the life of this Agreement, decide to move from its existing locations, the Company agrees to negotiate with the Union 30 days prior to such move for the purpose of providing a Transfer of Operations Agreement to provide:

- (a) Protection of the seniority rights of existing employees.
- (b) The right of existing employees to transfer with the jobs they normally perform.
- (c) Extension of the Collective Agreement to cover the new location.

ARTICLE 3 - RELOCATION PAY PLAN

3.01 An employee whose seniority is transferred to any such new plant pursuant to 2.02 of this Collective Agreement will be paid a **RELOCATION ALLOWANCE** provided:

- (a) The Plant to which the employee is to be relocated is at least forty (40) kilometers from the plant from which his/her seniority was transferred and
- (b) As a result of such relocation he/she changes his/her permanent residence, and
- (c) He/she makes application within six (6) months after commencement of employment at the plant to which he/she was relocated in accordance with the procedure as established by the Company.
- (d) In the event an employee who is eligible to receive a Relocation Allowance under these provisions is also eligible to receive a relocation allowance or its equivalent under any present or future Federal or Provincial legislation, the amount of Relocation Allowance provided under Clause 3.02, when added to the amount of Relocation Allowance provided by such legislation, shall not exceed the maximum amount of the relocation allowance the employee is eligible to receive under the provisions of this Article.
- (e) Only one Relocation Allowance will be paid where more than one member of a family living in the same residence are relocated.

Kilometers between plants relocation allowance

3.02

0 - 39	nil
40 - 159	\$600.00
160 - 481	\$725.00
482 - 803	\$850.00
804 -1607	\$975.00

ARTICLE 4 - INTIMIDATION, COERCION AND DISCRIMINATION

The Company and the Union agree that there will be no discrimination, intimidation, interference, restraint or coercion exercised or practiced against any employee in regard to training, upgrading, promotion, transfer, discharge, layoff, recall or other work condition because of race, ancestry, place of origin, colour, ethnic origin, citizenship, creed, sex, sexual orientation, handicap, age, marital status, family status, political affiliation, or union activities.

The Union recognizes that the Company is subject to Federal regulations in regard to security.

ARTICLE 5 - SUPERVISORY STAFF

The Company will supply the Union with a list of Supervisors, General Supervisors, Superintendents, Members of the Labour Relations Committee and their titles, the Company nominees on the Safety Committee and any other persons with authority, and will indicate by appropriate job titles the nature and extent of their authority and will keep such list up to date at all times. The Plant Chair and Vice-Chair will be notified of any change prior to the effective date of appointment.

ARTICLE 6 - EXCLUDED PERSONNEL

Personnel other than members of the Bargaining Unit shall not perform work that would come under the terms of this Agreement but may do so if: -

- (a) instructing an employee or employees;
- (b) experimenting;
- (c) an emergency;

provided that the act of performing the aforementioned operations, in itself, does not reduce the hours of work or pay of any employee.

ARTICLE 7 - RESERVATION OF MANAGEMENT RIGHTS

Within the framework of this Agreement, the Company reserves the right to hire, promote, transfer, demote or layoff employees and to suspend, discharge or otherwise discipline employees for just cause subject to the right of any employee to lodge a grievance in the manner and to the extent herein provided.

Within the framework of this Agreement, the Union further recognizes the right of the Company to operate and manage its business in all respects in accordance with its commitments and responsibilities, to maintain order and efficiency in its plants, and to determine the location of its plants, the products to be manufactured, the scheduling of its production and its methods, processes and the means of manufacturing.

ARTICLE 8 - STRIKES AND LOCK-OUTS

The Company and the Union agree to be bound by the provisions of the Ontario Labour Relations Act in respect to strikes and lock-outs.

The Company and the Union agree that neither shall call, authorize, counsel, procure, support or encourage an unlawful strike or lock-out.

ARTICLE 9 - UNION REPRESENTATION

Bargaining Committee

9.01 The Company acknowledges the right of the Union to select a Bargaining Committee composed of not more than five (5) members, one of whom shall be a Skilled Trades Committee person. The Company will recognize and bargain with the said Committee on any matter properly arising from time to time during the continuance of the Agreement. The President, or in his/her absence, the Vice President of the Local will be ex-officio members of the Committee, if not elected thereto.

Plant Chair

9.02

- (a) The Chair of the Union Bargaining Committee shall be known as the full time Plant Chair. He/she shall be on a full time basis for the purpose of administering the Agreement in co-operation with the Committeeperson. The Plant Chair shall be allowed free access to and from the Company's operations in the performance of his/her duties. He/she shall first notify the Area Manager, or his/her designee before proceeding into the area. The Plant Chair will be provided with an office and office facilities including desk, chair, telephone and filing cabinet and the Plant Chair will be supplied with written information concerning starts, surpluses, layoffs, discharges, releases, recalls and changes in job classifications. The Company will continue the present practice of providing Company forms involving transfer of employees. Every six (6) months the Company will supply the Union with a complete mailing list of employees covered by this Agreement. Every employee is required to keep on file with the Human Resources Department his/her current address and telephone number.
- (b) The Vice Chair of the Union Bargaining Committee or because of his/her unavailability, another designated representative from the Bargaining Committee or the Plant Committee shall substitute for the Plant Chair should the need arise.
- (c) The Plant Chair or his/her substitute shall receive the rate of pay equal to the highest rate of pay in the Bargaining Unit and will be paid the equivalent of forty (40) hours per week at straight time.
- (d) On Saturdays, Sundays or Plant Holidays, where two hundred and fifty (250) or more employees in the Bargaining Unit are scheduled to work overtime, the Plant Chair shall be offered the opportunity to work such overtime. During such overtime hours, he/she will be allowed full time to attend to the administration of the Agreement.

District Committeepersons

9.03

- (a) The Company agrees that the Union shall be represented in each four (4) geographical districts of the Plant by a Day Shift District Committee person who shall be elected or otherwise

- appointed from the employees in the geographical district he/she is to represent. In addition there shall be one (1) Skilled Trade District and one (1) District for Off-Shift employees, each represented by a District Committeeperson elected or otherwise appointed from the employees in those districts. It is understood that the Off-Shift District Committeeperson shall be employed on a five (5) night operation.
- (b) The Union will define the geographical districts and submit the list to the Company. Each March 1st, July 1st and November 1st the number of District Committeepersons shall be increased for every increase of 400 bargaining unit employees above 2,000 or decreased for every decrease of 400 bargaining unit employees thereafter. In any event the minimum number of Committeepersons shall not be less than five (5). At the time of increase or decrease to the number of District Committeepersons, the Union shall redefine the geographical districts and so advise the Company.
 - (c) The District Committeepersons shall be on a full time basis for the purpose of performing their representational obligations. Each District Committeeperson will be provided with a desk, chair and internal telephone to be located within his/her geographical district.
 - (d) During all absences of a personal nature of eight (8) or more hours duration of a District Committeeperson, the Company will recognize a substitute designated by the Union.
 - (e) Each District Committeeperson, (other than the Skilled Trade District Committeeperson), or a substitute, shall receive the rate of pay equal to the highest production rate and will be paid the equivalent of forty (40) hours per week at straight time. The Skilled Trade District Committeeperson, or a substitute, shall receive the rate of pay equal to the Skilled Trades wage group ST3 and will be paid the equivalent of forty (40) hours per week at straight time.
 - (f) On Saturdays, Sundays and Plant Holidays, where twenty-five (25) or more employees in a District are scheduled to work overtime, the District Committeeperson shall be offered the opportunity to work such overtime. During such overtime hours, he/she will be allowed full time to deal with grievance procedure business which arises.
 - (g) If no qualified employee in a Committeeperson's district volunteers for overtime in the Committeeperson's previous job classification, such Committeeperson will be given the

opportunity to work such overtime. During such overtime, the Committeeperson will not be permitted time off to attend to Union Business.

- (h) When a District Committeeperson ceases to hold office he/she shall be returned, consistent with his/her seniority, to the classification and to the department in which he/she was employed at the time of his/her election or appointment as a District Committeeperson, or to a job classification embracing comparable job duties to that which he/she held prior to his/her election or appointment.

9.04

- (a) District Committeepersons will only be recognized in the district which they represent. It is understood that there may be occasions when a Committeeperson will be required to follow through a written grievance outside his/her jurisdiction if such grievance originated within his/her district. Permission for this purpose will have to be secured in advance.
- (b) District Committeepersons shall enter and remain in the Plant only on their respective shifts unless otherwise agreed to by Management.

Benefits Representative

9.05

- (a) The Company will recognize one (1) full time Benefits Representative to assist the Plant Chair. The Benefits Representative shall be allowed free access to and from the Company's operations in the performance of his/her duties. He/she will be provided with a desk and a chair in the Plant Chair's office.
- (b) The Benefits Representative shall receive the rate of pay equal to the highest production rate and will be paid the equivalent of forty (40) hours per week at straight time.
- (c) When the Benefits Representative ceases to hold office, he/she shall be returned, consistent with his/her seniority to the classification and to the department in which he/she was employed at the time of his/her election or appointment as Benefits Representative, or to a job classification embracing comparable job duties to that which he/she held prior to his/her election or appointment.

Training Representative

9.06

- (a) The Company will recognize a full time Training Representative to assist in the co-ordination of the training programs agreed to by the parties. The Training Representative shall be allowed free access to and from the Company's Operations in the performance of his/her duties. He/she will be provided with a desk and a chair in the Plant Chair's office.
- (b) The Training Representative shall receive the rate of pay equal to the highest production rate and will be paid the equivalent of forty (40) hours per week at straight time.
- (c) When the Training Representative ceases to hold office, he/she shall be returned, consistent with his/her seniority to the classification and to the department in which he/she was employed at the time of his/her election or appointment as Training Representative, or to a job classification embracing comparable job duties to that which he/she held prior to his/her election or appointment.

Union President

9.07 The President of the Local Union, or in his/her absence the Vice President, will be recognized as an ex-officio member of all committees. It is understood that the President and Vice President shall not be recognized as additional District Committeepersons but will have access to all plants of the Company's operations covered by this Agreement.

Union Representatives

9.08 The Company agrees to accept advice by telephone to the Manager, Industrial Relations of the appointment or election of a Plant Chair, Committeeperson, Benefits Representative, Union Officer or Vice Plant Chair, and will recognize such office from that time, providing a letter of confirmation is received from the Union.

WSIB Representative

9.09

- (a) The Company will recognize one (1) full time WSIB Representative to assist the Benefits and Health & Safety

- Representatives. The WSIB Representative shall be allowed free access to and from the Company's operations in the performance of his/her duties. He/she will be provided with a desk and a chair.
- (b) The WSIB Representative shall receive the rate of pay equal to the highest production rate and will be paid the equivalent of forty (40) hours per week at straight time.
 - (c) Upon the workforce decreasing to 2,000 employees, the WSIB Representative shall cease to exist. The position of the WSIB Representative will be re-instated upon the workforce reaching 2,400 employees.
 - (d) When the WSIB Representative ceases to hold office, he/she shall be returned, consistent with his/her seniority to the classification and to the department in which he/she was employed at the time of his/her election or appointment as WSIB Representative, or to a job classification embracing comparable job duties to that which he/she held prior to his/her election or appointment.

ARTICLE 10 - ATTENDANCE OF NATIONAL REPRESENTATIVE

A National Representative or Representatives of the Union may be present and participate in any meeting of the Union Bargaining Committee and the Company.

ARTICLE 11 - UNION BUSINESS

11.01 An employee requiring representation in the grievance procedure shall first contact his/her Supervisor who shall then arrange for the attendance of the District Committeeperson.

11.02 When it becomes necessary for a District Committeeperson to enter an Area of a Department for the fulfillment of his/her Union duties, he/she shall first inform the Area Supervisor of his/her presence before proceeding with the grievance matter occasioning his/her entry into the Area.

11.03 It is understood that a District Committeeperson, in carrying out his/her Union responsibilities, will endeavour to minimize or avoid disruption to operations.

ARTICLE 12 - PAYMENT OF BARGAINING COMMITTEE

12.01 Prior to the expiry date of the Collective Agreement, and for the thirty (30) calendar days following expiry date, members of the Bargaining Committee including members of any sub committees, will be compensated for the time spent during regular working hours in negotiating with the Company representatives for renewal of the Collective Agreement. If the parties meet for part of a day the Bargaining Committee shall be compensated for the full day. The Company will pay the cost of a meeting room during Collective Agreement renewal negotiations.

ARTICLE 13 - UNION/COMPANY MEETINGS

13.01 The Union Bargaining Committee and the Company Labour Relations Committee shall meet within five (5) working days when there is business which requires their joint consideration.

The parties agree that a disposition will be given within seven (7) working days following the meeting.

13.02 Necessity for meeting will be indicated by a letter or note from either party to the other party containing an agenda of the subjects for discussion.

ARTICLE 14 - GRIEVANCE PROCEDURE

All grievances arising between employees and the Company shall be dealt with as speedily and effectively as possible in accordance with the following procedure.

14.01 The Company is to possess the option of refusing a grievance unless the circumstances and the conditions upon which it is based have originated or occurred within fifteen (15) working days prior to its first presentation as a written grievance, in accordance with the procedure laid down herein.

14.02 A complaint from one or more employees will be brought to the employee's immediate Supervisor by the District Committee person and they shall meet and discuss the matter before the complaint is reduced to writing as a grievance. The employee may, if he/she chooses, participate in that meeting. The Supervisor

shall respond to the complaint within three working days of the discussion.

It is the mutual wish of the parties to improve the complaint resolution process. Accordingly, the participants shall make a positive effort to fully explore and resolve the complaint before it proceeds to the written grievance stage at Step No. 1 below.

The parties agree that when a written grievance is submitted it should contain a statement outlining the nature of the complaint, the area where the complaint originated and the time and date of its occurrence.

14.03

STEP NO.1 - An employee having a grievance shall first submit the same to his/her District Committeeperson who shall present the same, in writing, to the employee's immediate Supervisor who shall provide his/her written response within two (2) working days thereafter. If the Supervisor's response is not satisfactory, the Manager of the employee's area and the District Committeeperson shall deal with the grievance and the Manager shall deliver his/her answer, in writing, to the District Committeeperson no later than the fifth working day following the day on which the grievance was received. It shall be mandatory that the Manager and the District Committeeperson fully discuss the grievance and make a positive effort to resolve it before proceeding to the next step.

STEP NO. 2 - If the Manager's written answer is not satisfactory to the grieving employee and/or the Union, the District Committeeperson will so advise the Industrial Relations Department within five (5) working days of the Manager's decision. The grievance will then be slated for a Step 2 meeting in an effort to reach a satisfactory resolution.

Step 2 meetings will be held weekly between the Company Labour Relations Committee and the Plant Chair and the affected District Committeeperson. In addition, either party may call in the grieving employee, his/her Supervisor or Manager.

Grievances will normally be heard at a Step 2 meeting in the chronological order in which they are slated, subject only to the priorities (as set out in Article 15.02), witness availability, Plant location or other criteria mutually agreed upon.

If, because of a backlog of grievances, a grievance could not normally be heard at a Step 2 meeting within 30 working days of its being slated for such meeting, then the schedule will be increased to

two Step 2 meetings per week. Such increased schedule will then remain in effect until the number of grievances slated for Step 2 are reduced to the level where they can be heard in a timely manner as set out above. If, after four weeks, the increase to two Step 2 meetings per week does not clear up the backlog to the 30 day level, then 1 special Step 2 meeting will be held every second week to hear groups of grievances which all involve the same District Committeeperson. During such special Step 2 meetings that District Committeeperson's substitute shall be recognized by the Company in that Committeeperson's district for the hours he/she is engaged in the special meetings.

If the grievance cannot be resolved in discussion at the Step 2 meeting, the Company will provide the Union with its written decisions within five (5) working days of such meeting.

14.04 The Company will supply such pertinent production, payroll and attendance records and disciplinary notices pertaining to the employee involved, as may be requested by the Union for the settlement of a grievance at Step two of the Grievance Procedure.

14.05 The Union or Company may file a "Policy Grievance" at Step two of the Grievance Procedure. A "Policy Grievance" is defined as one which alleges a misinterpretation or violation of a provision of this Agreement and which could not otherwise be resolved at lower steps of the Grievance Procedure because of the nature or scope of the subject matter of the grievance. The matter may be referred by either party to arbitration in the same way as the grievance of an employee.

14.06 A "Group Grievance" is defined as a single grievance, signed by the District Committeeperson on behalf of employees whom he/she represents, and who have the same complaint. Such grievance will require only the signatures of two (2) employees in addition to any Union Representatives, and must be dealt with at successive stages of the Grievance Procedure.

14.07 If the Company has a grievance with respect to the conduct of the Union, its officers or Committeepersons, or a complaint that the Union or any of its members have violated the provisions of this Agreement, the Company will submit such grievance to the Union and it will be taken up between the parties in the same manner as a written grievance, commencing at Step No. 2.

If the grievance is not settled to the satisfaction of either party, it may be referred to arbitration.

ARTICLE 15 - ARBITRATION

15.01 If arbitration is to be invoked, the request for arbitration must be made in writing within five (5) working days after delivery of the decision to the Union or Company following Step No. 2.

15.02 Grievances submitted to arbitration shall have the following priority at arbitration:

- discharge
- layoff
- company
- grievances
- policy
- leave of absence
- others

15.03 Subject to Clause 15.02, grievances will normally proceed to arbitration in the order in which they have been slated for arbitration. Grievances to be heard by the Arbitrator will be confirmed by the parties fourteen (14) days prior to the hearing.

15.04 It is agreed that disputes which are carried to the arbitration stage shall be heard before a single Arbitrator. The Company and the Union, having expressed confidence in the ability of the undermentioned persons, agree that they shall be called to arbitrate on a rotation basis and in order of their listing: -

Mr. H. D. Brown
Professor M. R. Gorsky
Professor E. E. Palmer
Professor W. B. Rayner
Professor C. G. Simmons

In addition to the above, the parties agree to Professor C. G. Simmons as arbitrator in technological matters, or such other competent arbitrators that may become available during the life of this Agreement as mutually agreed to by the parties.

15.05 A grievance slated for arbitration shall proceed in the following manner:

- (a) A letter shall be sent within fifteen (15) working days to the arbitrator on a rotating basis.
- (b) The first or second date received for arbitration shall be accepted for a hearing and the arbitrator shall be advised of the grievance(s) to be heard.

15.06 No matter may be submitted to arbitration which has not been considered under Step No. 2 of the Grievance Procedure and the Grievance Form and the decisions written thereon or attached thereto shall be presented to the Arbitrator and the Arbitrator's decision shall be confined to deciding the issues therein set out.

15.07 In the event that one of the above Arbitrators ceases to act, the Company and the Union will attempt to secure a replacement. In the event of a failure of the parties to agree, the matter of appointment will be referred to the Minister of Labour for the Province of Ontario.

15.08 The Arbitrator shall not have jurisdiction to alter or change any of the provisions of this Agreement, or to substitute any new provisions in lieu thereof, nor to give any decision inconsistent with the terms and provisions of this Agreement, or to deal with any matter not covered by this Agreement. The Arbitrator, however, in respect of a grievance involving a penalty, shall be entitled to modify such penalty as in the opinion of the Arbitrator is just and equitable.

15.09 The decision of the Arbitrator shall be final and binding on both parties and his/her expense shall be borne in equal shares by the Company and the Union.

15.10 It is agreed that in view of the accessibility of operations and witnesses, arbitration hearings will be held on the premises of the Company, and that up to two cases may be presented at one arbitration hearing.

15.11 At any stage of the grievance procedure, including arbitration, the conferring parties may have the assistance of the employee or employees concerned and any necessary witnesses. All reasonable arrangements will be made to permit the conferring

parties to have access to the plant to view the disputed operations or to confer with the necessary witnesses.

15.12 An employee, appearing during working hours before an Arbitrator on the hearing of his/her appeal on a grievance, shall be paid by the Company, at his/her regular rate, for the time so spent. The same condition shall apply to employees who may appear as witnesses relative to an arbitration case.

ARTICLE 16 - DISCIPLINARY ACTION

16.01 An employee removed from his/her place of work for reprimand or disciplinary action shall have a Union Representative present during the interview.

Any notation of a reprimand or disciplinary action placed on an employee's record shall be removed after an elapsed period of one (1) year from the date the discipline was recorded in which the employee has not received a further notation for the same or a similar type of infraction.

16.02 A claim by an employee that he/she has been unjustly discharged from his/her employment shall be treated as a grievance, if a written statement of the grievance is lodged with the Manager, Industrial Relations or his/her designee within three (3) working days after the employee has been notified of his/her discharge. The discussion of such grievance shall commence at Step No. 2 of the Grievance Procedure which shall be invoked within three (3) working days thereafter.

In the case of an employee who is discharged while absent from the Plant, the period of three (3) working days shall be extended to five (5) working days following issue of the Notice of Discharge by registered mail to the last address shown on the Company Human Resources Records.

ARTICLE 17 - SENIORITY

17.01 There shall be two (2) Seniority Lists as follows:

- (a) Skilled Trades employees
- (b) Aircraft Division employees

There shall be no bumping of employees between either of the two Seniority Lists except as provided under Article 24.

17.02

- (a) Seniority rights shall be established from the date on which an employee commences his/her present employment with the Company. The same date shall be used on Job Classification Lists.
- (b) Seniority Lists will be amended and reissued to the Union every three (3) months from the effective date of the Agreement and will be posted at three locations at Downsview. The Seniority List will stipulate name, classification, clock number, department, seniority date and service date where such service date has to be considered in conjunction with an employee's position on the Seniority List.
- (c) A complaint by an employee relative to his/her position on a Seniority List may be dealt with as a grievance, at any time. However, the Company's financial liability shall not extend beyond a period of fifteen (15) working days preceding the date on which the Company received the written grievance.

17.03

- (a) Any employee who completes sixty (60) days of work during one period of employment will be considered as having completed his/her probation and his/her name will be added to the appropriate Seniority List.
- (b) If an employee works a day or part of a day or if a Plant Holiday should fall during the probationary period, such day, part of the day or Plant Holiday shall be considered as a working day for the purpose of computing the employee's probationary period.
- (c) On completion of his/her probationary period, an employee will be credited with his/her seniority from the date on which he/she commenced his/her present employment with the Company.

17.04 Notwithstanding anything contained elsewhere in this Agreement, no grievance will be lodged against a discharge, by the Company, of a probationary employee during the first forty-five (45) working day period of his/her employment. A probationary employee may grieve on matters relating to normal operating conditions at any time.

ARTICLE 18 - GENERAL PROVISIONS

18.01 The Company and the Union agree with the principle that those with the greatest seniority shall be given preference in

promotions and that those with least seniority shall be the first to be demoted or temporarily reassigned (as provided in Article 19) - PROVIDING - that in either case, the employee or the employees involved, possess the ability to do the work required.

Fundamentally, rules respecting seniority are designed to give employees an equitable measure of job security based on length of service with the Company and subject to the provisions of the Collective Agreement.

18.02 SKILLED TRADES - negotiated as an Appendix.

18.03 The Company agrees that, during the term of this Agreement, employees will not be permitted to resign for the express purpose of being reinstated in a job to which they would not ordinarily be eligible.

ARTICLE 19 - TEMPORARY REASSIGNMENT

The Company may temporarily reassign employees to other work within their current flow chart such as may be necessary to avoid short layoff and/or recall, and such reassignment should only be for one period whether full or part days and provided:

- (a) that the Committeepersons for the Zones (Districts) affected are advised prior to effective time of the reassignment of the work conditions and names of the employees involved.
- (b) that the temporary period shall in no case exceed one period and/or fifteen (15) working days unless an increase of this period and/or periods is arranged by mutual consent of the Company and the Plant Chair or the consent of the Plant Bargaining Committee if five (5) or more assignees are involved in the extension.
- (c) such employees as may be assigned to the temporary work shall receive the pay of their regular job classification or the top rate of the job classification in which the temporary work occurs, whichever is the higher.
- (d) no disciplinary action will be taken against any employee who is assigned work of a temporary nature in another job classification by reason of his/her failing because of lack of job knowledge to satisfactorily do the work required of him/her in that classification.
- (e) no employee will be declared surplus during the period which another employee is temporarily assigned to his/her job

classification or during a corresponding period of time following such temporary assignment.

- (f) no employee shall be temporarily reassigned to a job classification in which an employee is surplus and is employed in another classification within the Plant.
- (g) the Company agrees that it will not use temporary reassignment to circumvent the recall procedure. It is understood that the word "short" as used above shall be deemed to mean fifteen (15) working days or less.
- (h) in the event the reassignment is to a higher-rated job, the senior personnel in the department affected will be given preference.

Reassignment outside of the employee's current flow chart shall be subject to mutual consent of the Company and the Union Bargaining Committee and shall be subject to all of the foregoing as applicable.

ARTICLE 20 - JOB POSTINGS

20.01 When there are openings within the job classifications covered by the Collective Agreement, the Company will post notices on the bulletin boards throughout the plants. These notices will contain classification, job number and department number, department location and the name of the program in which the vacancy exists and will remain posted for a period of seventy-two (72) hours before hiring outside help and, in the interim, applications from eligible employees will be considered in conjunction with Clauses 17.03 (c), 18.01 and 18.04. Every reasonable effort shall be made to place the employee in the identified position. The notices will be removed at the end of the shift following the expiry of the seventy-two (72) hours.

20.02 An employee who has attained seniority is free to apply for any posted job in which he/she can confirm previous experience or ability subject to the following provisions:

- (a) An employee applying for a position in his/her same or a lower wage group shall not be considered until after those applicants for the said job vacancy from a lower wage group and who qualify under the "promotion" terms of reference have been considered. A successful downward bid shall be paid the job

- rate of the lower job and shall forfeit vested rights to the job from which he/she has bid downwards.
- (b) An employee accepted on a job posting will be notified of his/her acceptance within ten (10) working days after the posting has been removed. An employee accepted on a job posting will assume his/her new duties within twenty (20) working days. All employees bidding for a job posting, and the Union, will be notified within ten (10) working days in the event the job is cancelled.
 - (c) After thirty (30) working days, an employee's seniority will be vested in the Job Classification and Flow Chart to which he/she has moved under successful application for a posted job.
 - (d) An employee having bid for and been accepted for a Job Posting shall not be eligible to be considered for a further Job Posting for a vacancy for a further period of six (6) months from the date of posting of his/her acceptance, unless the employee in question has been declared physically unfit for the job to which he/she has been promoted. In the event an employee is not placed in the identified position as outlined in 20.01 he/she shall be free to post at any time.
 - (e) An employee on layoff with recall rights shall be eligible for job postings on the following basis:
 - (i) A laid off employee who has exercised all his/her bumping rights may be considered for any job opening except one he/she has refused or failed;
 - (ii) A laid off employee who elected layoff without having exhausted his/her rights to bump would not have the right to bid for any job which is below the wage group he/she held at the time of layoff. However, after exhausting his/her EI and/or SUB benefits he/she will be entitled to apply for any posted job. The only area of grievance would be ability and seniority for the posted job.

20.03

- (a) Notwithstanding other provisions of the Agreement, an employee who is accepted on the basis of a Job Posting may be returned to his/her former Job Classification provided he/she requests return within thirty (30) working days. If he/she exercises this right to return, he/she shall not be eligible to be considered for a further posting to this job classification for a period of six (6) months from date of return.

- (b) In the event that an employee does not exercise the option of returning within thirty (30) days as described above, and there is a dispute as to his/her ability to satisfactorily perform the job, the employee shall be returned to his/her former job classification and the matter may then be referred to the Grievance Procedure.
- (c) In the event that an employee is returned to his/her job under either of the above conditions, the job, if required, shall be awarded to another applicant with the required abilities from the initial posting or reposted.

ARTICLE 21 - LEADHANDS

In the matter of promotions of leadhands, where two or more applicants have equal standing with respect to extensive job knowledge and experience, then job classification seniority shall prevail. Before appointment of a Leadhand, the Supervisor and/or Plant Superintendent will discuss the matter with the Committee person for the Zone (District).

ARTICLE 22 - LAYOFF AND RECALL

22.01 When it is necessary to reduce the working force, the following seniority provisions are effective.

- (a) In the event of a major machine breakdown, power failure, water failure, fire or flood, then the Company may layoff the employees affected without regard to seniority and will be permitted up to three (3) working days to determine seniority rights and make proper adjustment of staff, PROVIDED that no employee may be laid off out of seniority for more than six (6) working days in one calendar year. In the case of other similar circumstances, beyond the control of the Company, the action to be taken shall be determined by mutual agreement of the parties.
- (b) Probationary employees in the Job Classifications affected will be laid off first.
- (c) Employees with seniority in the Job Classifications affected will be removed from the classification in inverse order of seniority and may exercise bumping rights with the provisos:
 - (i) He may accept layoff rather than exercise his/her bumping rights, or

- (ii) He may elect to displace the employee holding least seniority at the next succeeding downward wage level on his/her own Flow Chart or on another Flow Chart from which he/she had moved, or on another Flow Line of his/her Flow Chart from which he/she had moved. Thereafter, his/her bumping rights will be confined to the Flow lines and the Flow Chart which he/she had selected.
- (iii) an employee who is bumped from Wage Group 3 on Flow Chart 11 or 15 may bump into the Group 3 Clearance Pool.

In the application of this Clause, the parties recognize that the above will be the normal procedure but that there may be exceptions wherein an employee declares that he/she cannot perform the job at the next succeeding downward wage level during the prescribed time limits in which case he/she shall be permitted to displace the junior employee on the next succeeding downward wage level on the flow lines of his/her Flow Chart.

- (d) In no event shall an employee bump another employee who is employed in a higher paid Job Classification. (except for Letter of Intent #34)

22.02 Notwithstanding other provisions of this Agreement, if a flow chart contains a classification in Group 3 or lower, then an employee may bump into the Clearance Pool and thereafter his/her bumping rights are restricted to the Clearance Pools.

22.03 An employee who exercises his/her bumping rights shall be permitted ten (10) working days to prove his/her ability to do the work of the displaced employee in a satisfactory manner. If unable to do so he/she shall have the right to bump into the Clearance Pool.

22.04 In the event that two or more employees possess the same seniority date, the employee holding the lowest clock number shall be deemed to possess highest seniority, unless otherwise provided for in this Collective Agreement.

22.05 The Company will submit to the Plant Chair a list of employees to be laid off one (1) week prior to the layoff becoming effective. Similarly, the employees subject to the layoff will be given one (1) week's notice. A copy of any notice given to an employee by the Company in compliance with the Employment Standards Act shall be sent to the Plant Chair.

22.06 An employee while retained on the Seniority List during layoff, accumulates seniority during such a period.

22.07

- (a) Subject to Clause 22.01(c), a surplus employee who has recall rights will be recalled to any former job classification to which he/she had vested rights except those in which he/she refused or failed.
- (b) A laid off employee having exercised his/her rights under Clause 22.01(c), shall be recalled consistent with his/her seniority to any job he/she had vested rights to.
- (c) Employees when notified of layoff as per Clause 22.05, will indicate on a form supplied by the Company those jobs he/she wishes recall to, and will receive a copy of said form.

22.08 However, an employee who has elected layoff cannot claim recall to any job classification on his/her flow chart which is below that from which he/she elected layoff, or be recalled to a job in which he/she had failed.

22.09 A claim by an employee that he/she has been improperly declared surplus or laid off, shall be treated as a grievance if a written statement of such grievance is lodged with the Manager, Industrial Relations, within fifteen (15) working days after the employee has been declared surplus or notified of layoff. In such case Step No. 2 shall be invoked within three (3) working days following receipt of grievance.

22.10 The Plant Chair shall be given an opportunity to be present when the employee is notified of a surplus in which he/she is involved.

ARTICLE 23 - LOSS OF SENIORITY

Seniority status once acquired will only be cancelled upon: -

23.01 If an employee voluntarily quits employment or is discharged and such discharge is not reversed through the Grievance Procedure.

23.02 Failure to return to work within seven (7) working days after issuance of the Company's notice of recall by registered mail to the last address shown on the Company's Human Resources Records after layoff unless proof of a disabling illness or injury is submitted to the Company by the employee prior to the expiration of the seven (7) day period. If extenuating circumstances are proven, the Company may extend the seven (7) day recall limit. The Company will give serious consideration to extending the seven (7) day time limit when conditions are beyond the employee's control to so report.

23.03 A laid off employee shall retain recall rights for a period equal to the seniority attained at time of layoff or a minimum of three (3) years, whichever is greater.

ARTICLE 24 - REPLACEMENT OF PHYSICALLY RESTRICTED AND/OR PREGNANT EMPLOYEES

24.01 Any employee who has been incapacitated at his/her work by injury or compensable occupational disease, while employed by the Company, or suffers a physical or compensable occupational disease, while employed by the Company or suffers a physical or mental disability, as defined by his/her physician and confirmed by the Company Physician, and such disability temporarily or permanently restricts him/her in the performance of the work of his/her normal classification will, where reasonably possible, be employed in other work, on either a job which is operating in the plant or on a modified job, which he/she can do without regard to any seniority provisions of this agreement. However such employee may not displace an employee with longer seniority. Further, in the case of a temporary restriction, such re-assignment shall only last until the restriction is removed or no longer exists.

Notwithstanding any other articles of this agreement, the Company may employ such restricted employees on limited or graduated hours of work, or adopt any other measure which may assist in the accommodation of such employees.

The Plant Chair will be consulted prior to any of the above decisions or re-assignments being made.

24.02 Any case appealed to arbitration involving a continuing refusal of Management to return an employee to work from sick leave or absence which has continued for twenty-six (26) weeks or longer,

by reason of the medical findings of a physician or physicians acting for the Company, will be reviewed between the Company and the Union, if such findings are in conflict with the findings of the employee's personal physician with respect to whether the employee is able to do a job to which he/she is entitled in line with his/her seniority. Failing to resolve the question, the parties may by mutual agreement refer the employee to a clinic or physician mutually agreed upon whose decision with respect to whether the employee is or is not able to do a job to which he/she is entitled in line with his/her seniority, shall be final and binding upon the Union, the employee involved and the Company. The expense of such examination shall be paid one-half by the Company and one-half by the Union. Any retroactive pay due the employee shall be limited to a period commencing with the date of filing of the grievance, or the date the employee became able to do a job to which he/she is entitled in line with his/her seniority, whichever is the latter.

24.03 Any employee who becomes pregnant while employed by the Company and is unable to continue in her classification because of chemical or biological agents in her area will, upon recommendation of her physician and confirmation by the Company physician, be employed in other work on a job that is operating in the plant without regard to any seniority provisions of this Collective Agreement, except that such employee may not displace an employee with longer seniority. The above exceptions shall be made by agreement between the Company and the Bargaining Committee.

During the time period that she is employed in this new classification, she will not attain vested seniority for the purpose of future bumping, but will continue to accrue plant-wide seniority.

Such employee will return to her original classification upon termination of her Maternity Leave of Absence, consistent with her seniority.

ARTICLE 25 - POSITION OUTSIDE THE BARGAINING UNIT

25.01 No employee covered by this Agreement will be transferred to a position outside the Bargaining Unit without his/her consent.

25.02 A Supervisor or General Supervisor who prior to June 23, 1965, was transferred from a Job Classification in the Bargaining Unit to a supervisory position over members of the Union shall continue to

accumulate seniority during the period he/she is not in the Bargaining Unit, up to June 22, 1965. Thereafter he/she will retain but will not accumulate any further seniority. An employee appointed Supervisor or General Supervisor after June 23, 1965, will retain the seniority acquired at date of leaving the Unit, but will not accumulate seniority thereafter.

An employee appointed Supervisor or General Supervisor after June 23, 1971, shall retain only the seniority he/she had while in the Bargaining Unit for one (1) year, after which it will cease to exist.

An employee appointed to any other position with the Company, which is not covered by this Agreement, will retain the seniority acquired at date of leaving the Unit, but will not accumulate seniority thereafter.

An employee promoted to a supervisory position after June 23, 2000 shall retain his/her seniority he/she had while in the Bargaining Unit for a period of one (1) year. At management's discretion, employees may be returned to the Bargaining Unit with their seniority acquired at date of leaving the Bargaining Unit. If he/she is not returned to the Bargaining Unit within one (1) year from the date of promotion, or is promoted out of the Bargaining Unit more than once, he/she will relinquish all seniority rights in the Bargaining Unit.

No employee shall be promoted to a supervisory position six (6) months prior to the expiration of the Collective Agreement or be returned into a classification where employees are currently on lay-off.

25.03 If such employee returns to the Bargaining Unit, the return shall be to displace the junior employee in his/her former job classification, providing he/she has more seniority, which he/she held prior to his/her appointment. If he/she has insufficient seniority to displace the junior employee in his/her former job classification, he/she shall displace the junior employee in the next downward wage level in his/her Flow Chart, providing he/she has sufficient seniority.

ARTICLE 26 - RECOGNITION OF UNION OFFICERS

In order that the operations of the Union as authorized on Company premises will not become disorganized when layoffs are being made, the Company agrees to the following procedures.

26.01 A member of the Local Executive Board shall be the last person who is removed from his/her classification during his/her term

of office so long as he/she has the ability to perform the work available. Thereafter he/she will be subject to all bumping provisions except that he/she will not be laid off during his/her term of office so long as full time work is available in his/her District at his/her own or a lower wage level which he/she has the ability to perform.

26.02 Subject to 26.01 above, a District Committee person shall be the last person who is removed from his/her classification in the District in which he/she is recognized as holding Union representation. Thereafter he/she will be subject to all bumping provisions except that he/she will not be laid off during his/her term of office so long as full-time work is available in his/her District at his/her own or lower wage level which he/she has the ability to perform.

26.03 In the event of shift operations, the members of the Union Executive Board will have a choice of shifts.

The Union agrees that the foregoing will not apply if an employee or Union Official(s) as above is required to work more than two (2) weeks on one (1) off shift due to insufficient personnel.

ARTICLE 27 - LEAVE OF ABSENCE

Upon thirty (30) days of advance notice by written request to the Company, leave of absence without pay (retroactive when justified by circumstances) will be granted to any employee if feasible on basis that sufficient qualified employees are available within the department for replacement on a fill-in basis as necessary without serious adverse effect upon departmental operations.

Requests for leave received less than thirty (30) days in advance of the requested leave date will be subject to the ability of the Company to adjust the working force during the requested period of absence unless there is a compassionate reason for such request which will entitle an employee to immediate leave under this section.

Any person who is absent with such written permission shall continue to accumulate seniority during his/her absence. It is agreed that the Company will provide the Union with a copy of each leave of absence authorization.

Excess vacation has precedence over all leaves of absence, with the exception of compassionate leaves.

ARTICLE 28 - MATERNITY LEAVE OF ABSENCE

The Company will agree to Maternity Leave under the following stipulations.

Basic Policy

28.01 An employee who becomes pregnant may be permitted to continue in employment providing she has on record with the Company Health Centre a current letter from her physician attesting to her good health and ability to continue the normal duties of her job and that such continued employment would not be injurious to her health.

Report to Health Centre

28.02 As a safeguard to her health and in order to establish records necessary for the approval of resumption of employment after confinement, the employee must report her condition to the Health Centre no later than the third month of pregnancy and, in addition, she must submit a copy of a physician's letter from her personal physician no later than the end of the fourth month of pregnancy and each thirty (30) days thereafter, stating the probable date of confinement and whether or not she can safely continue to perform her assigned job.

Leave of Absence or Termination

28.03 When it becomes necessary for an employee to discontinue her employment as herein provided, she may voluntarily terminate; or if she has been in the employ of the Company for at least three (3) months she will be granted a leave of absence as provided in the appropriate Leave of Absence Clause. Such leave shall be for a period not to exceed ninety (90) days beyond the date of confinement.

An employee on such Leave of Absence may not return to work for at least six (6) weeks after confinement or for such shorter period, and must furnish a statement from her physician stating that she is able to resume the normal duties of her job. Any extension of Leaves of Absence under the provisions of this section shall be

granted upon recommendation of her physician and the Company's Health Centre.

In addition, an employee shall continue to accumulate vacation and pension credits during an approved Maternity Leave of Absence.

The above shall apply retroactively to 1984.

ARTICLE 29 - UNION LEAVE OF ABSENCE

29.01 An employee who is elected or appointed to a full time office with the National Union or Local 112, will be granted Leave of Absence upon written application of the National Union or such senior officer of Local 112 as the case may be. Such Leave of Absence shall be, upon request, extended and it is understood that the Company will receive written notice from the National Union or Local 112 respectively to this effect.

29.02 The National Union or Local 112 agrees also to advise the Company in writing once annually of the names of those de Havilland employees who are engaged in full time duties with the Union.

29.03

- (a) Upon similar application, Leave of Absence will be granted to members of the Bargaining Committee.
- (b) Upon similar application, Leave will be granted for periods up to ten (10) days to permit members of the Bargaining Unit to attend conventions or conferences called by the National Union or other Labour Councils.
- (c) In the application of this Article, the Union agrees to provide at least five (5) working days notice for such Leave of Absence. In addition, the Union agrees to give consideration to the Company's request for relief in small departments when such Leave would seriously affect the work schedule.
- (d) Notwithstanding sub sections (a), (b) and (c) above, the Company will grant time off the plant premises to the Bargaining Committee upon telephone advice from the President or Plant Chair of the local. (Effective from May 15, 1982).

29.04 If an employee returns to the Bargaining Unit from a full time office with the National Union, the return shall be to the former job classification or a job classification embracing comparable job

duties to that which he/she held prior to leave of absence, providing such return does not result in a layoff or bumping of an employee holding greater seniority.

29.05 When an employee returns to the Bargaining Unit from a full-time office with Local 112, he/she shall be returned consistent with his/her seniority and service entitlements to the classification and to the department in which he/she was employed at the time of his/her selection to such office, or to a job classification embracing comparable job duties to that which he/she held prior to his/her selection.

29.06 An employee with the National Union or Local 112 C.A.W., may terminate his/her Leave of Absence at any time during his/her term of absence.

The Company will be notified eight (8) weeks prior to his/her return.

ARTICLE 30 - BULLETIN BOARDS

The Company will provide Bulletin Boards for the exclusive use of the Union at agreed locations throughout the Plants for the convenience of the Union in posting notices of Union activities. All such notices must be signed by the proper officers of the Union and submitted to the Industrial Relations Department for approval before being posted.

ARTICLE 31 - SAFETY

31.01 The Company agrees to maintain adequate sanitary, safety and health conditions throughout its buildings and will provide protective clothing where the need is recognized. No employee will be disciplined for refusal to use any equipment which, in the opinion of the Chair of the Union Safety Committee and the Manager, Safety and Health Center or his/her designate, is not in safe operating condition.

31.02 The Joint Health and Safety Committee will be composed of eight (8) persons, four (4) of whom will be appointed or elected by CAW Local 112 and four (4) of whom will be appointed by the Company Management. The Committee will meet monthly to review

all Safety problems. The President and/or the Plant Chair may be present during these meetings.

The Union appointee on the Safety Committee will be on a full-time basis for the purpose of performing his/her Health and Safety obligations. He/she will be provided with an office and office facilities including desk, chair, telephone and a filing cabinet.

The Union appointee, or a substitute shall receive the rate of pay equal to the highest production rate and will be paid the equivalent of forty (40) hours per week at straight time.

During all absences of a personal nature of eight (8) or more hours' duration of the Health and Safety appointee, the Company will recognize a substitute designated by the National Office of the C.A.W.

When the Union appointee ceases to hold office, he/she shall be returned, consistent with seniority to the classification and to the department in which he/she was employed at the time of his/her appointment as Health and Safety Representative, or to a job classification embracing comparable job duties to that which he/she held prior to his/her appointment.

Eye Protection

31.03

- (a) Employees must wear approved eye protection in areas designated by the Safety Committee.
- (b) Should prescription glasses be required to comply with the above requirement or should an employee's vision deteriorate to the extent that new prescription lenses are required, the Company will provide the appropriate required corrective eyewear at no cost to the employee. The choice of supplier, frames, lens type, material, special features, method of delivery and all other related matters will be left to its (the Company's) sole discretion.
- (c) Should prescription lenses become worn or be accidentally broken during normal duties in the plant, the Company will bear the cost of repair or replacement.
- (d) It shall be the responsibility of the employee to take care of his/her safety glasses.

31.04 It shall be the responsibility of the Union Health and Safety appointee, or his/her substitute, to process in writing any

grievances concerning a dispute which relates to Health and Safety at Step No. 2 of the grievance procedure.

Foot Protection

31.05

- (a) Effective September 1, 1990, all employees regularly working in areas designated by the Safety Committee and/or the Ministry of Labour as a mandatory foot protection area, must wear protective CSA approved footwear.
- (b) The Company will contribute sixty dollars (\$60.00) per year to the cost of one (1) pair of approved protective footwear for non-probationary employees working in mandatory foot protection areas. For the purpose of this Article, a year will be the period from September 1 to August 31 the following calendar year.
- (c) Protective footwear shall be obtained from protective footwear companies designated by the Company.
- (d) In order to implement the above provisions, the Company will ensure that a vendor or vendors of protective footwear will be available on the premises on a regular basis.
- (e) Visitors and employees not required to work on a regular basis in mandatory foot protection areas, will not be required to wear approved protective footwear provided they remain within the plant aisles and walkways, however, once visitors and employees leave the aisles and walkways and enter the mandatory foot protection area, they must wear protective footwear.

Fully covered leather shoes are the minimum requirement in all other plant areas.

Health & Safety Training

31.06 Every active member of the Local employed by the Company at sites which fall within the scope of the Collective Agreement will be provided with an appropriate level of Health and Safety instruction during the term of this Agreement. This training will be relative to statutory (or other legislated) requirements and/or job-specific hazards or working procedures.

31.07 (a) The Company and Union agree to establish a site-wide Hazardous Materials Review Committee, which will function as a sub committee of and report to the Joint Health and Safety Committee.

The sub committee's mandate will be to review procedures and practices related to the transportation, storage, handling, use and disposal of hazardous materials either currently in use or proposed for prospective use in the workplace, to determine associated hazards and to make recommendations regarding safe practices, procedures, elimination, substitution, and isolation.

31.07 (b) The Company will continue its efforts to mitigate the effects of exposure to metal working fluids through the implementation of appropriate engineering controls, equipment or process modifications or replacement by less hazardous materials. In any event, the Company further commits to continue to implement industrial hygiene measures (such as those identified in the preceding sentence) and will make every reasonable and timely effort not to exceed legal limits.

31.07 (c) The Company and Union agree to establish a site-wide Workplace Ergonomics Committee, which will function as a sub committee of and report to the Joint Health and Safety Committee. The Ergonomics Committee mandate will be to review workplace conditions, tools equipment, practices and procedures relative to bargaining unit job assignments or physical tasks and to make recommendations regarding their design, use, modification or improvement, effectiveness and potential for injury or other negative effects. The Committee's composition, meeting frequency and format, resource and training requirements and other related matters will be established through joint consultation between the Company and the Union within the mandate of the Joint Health and Safety Committee.

ARTICLE 32 - SCHEDULES

The following schedules are included herein and form part of the Agreement.

- APPENDIX I covering the Skilled Trades.
- APPENDIX II covering Aircraft Trades Training Programs.
- APPENDIX III Training Provision
- SCHEDULE "A" which is a schedule of Job Classifications, Wages and certain Fringe Benefits.
- SCHEDULE "B" which is a schedule of the Hours of Work, Overtime Conditions, Shift Premiums, etc.

SCHEDULE "C" which is a schedule of Vacations with Pay and Payment for Plant Holidays.

SCHEDULE "D" which is a list of Flow Charts.

SCHEDULE "E" which is a Glossary of Terms used in the Agreement.

ARTICLE 33 - UNION SECURITY

33.01 The parties agree to the following Union security provisions covering all employees:

- (a) As a condition of employment, all present employees shall become and remain members of the Union;
- (b) As a condition of employment, all new employees shall be required to join the Union upon commencement of employment, and shall remain members of the Union;
- (c) As a condition of employment, all new employees will be required to complete an application for membership in the Local Union at the time of hiring.

33.02 The Company will deduct from the pay of each employee covered by the Agreement such monthly dues and initiation fees of new employees, as may be adopted by the National Union and Local 112 C.A.W.; such monies to be deducted from the employee's pay received on the third pay day of each month, or upon request from the National Union or Local 112 C.A.W., a deduction in two (2) installments.

Union dues deductions will be included on T4 Slips issued by the Company.

33.03 (Effective May 15, 1982) All new employees will be required to contribute initiation fees and monthly dues commencing from the first deduction date following date of employment, PROVIDING, they have completed forty (40) hours of work at that time. Otherwise, deductions will be made from the second deduction date following date of employment. All new employees will be introduced to their District Committeepersons when reporting for work. Similarly, employees transferred will be introduced to their District Committeeperson when reporting for work.

33.04 The dues check-off shall become null and void should the Union contravene the provisions of Article VIII of this Agreement.

ARTICLE 34 - TERMINATION

The Collective Agreement shall be effective on the date of ratification and shall remain in effect until midnight on June 22, 2003. Unless either party gives to the other party written notice of termination, or of a desire to amend the Agreement, then it shall continue in effect for a further one (1) year period, without change, and so on from year to year thereafter.

Notice that amendments are required or that either party intends to terminate the Agreement may only be given during the period of not more than ninety (90) days and not less than sixty (60) days prior to the termination date.

If notice of amendment or of termination is given by either party, the other party agrees to meet for the purpose of negotiations.

Negotiations shall not continue beyond the expiration date of the Agreement unless the parties mutually agree to extend the period of negotiations.

It is understood that, during any negotiations following upon notice of termination or notice of amendment, either party may bring forward counter proposals arising out of or related to the original proposals.

Duly executed by the parties on the 27th day of June, 2000.

ARTICLE 35.01 - NEW TECHNOLOGY

The parties agree that with the introduction of new techniques and technologies, it is important that advance planning be made to anticipate skills, needs and training required. Upon introduction of new equipment to the worksite those involved in the operation and supervision of the equipment shall receive safety related training.

It is agreed that the workers affected by the introduction of new technologies should have every opportunity to apply themselves to the new skills and the new technology.

The Company will assume that cost of on-the-job training to afford Bargaining Unit employees (who have the basic knowledge and ability to be trained) the opportunity to keep current with new methods, tools, machines and new technology affecting their work and job security.

The Company will notify the Union sixty (60) days in advance of any introduction in new technology and will notify the Union in advance of the introduction of new techniques so as to give the affected Bargaining Unit employee (who has the basic knowledge

and ability to be trained) the opportunity to become acquainted with the new skill needs so that he/she will be available to perform the work when needed.

Senior employees, both production and skilled (who have the basic knowledge and ability to be trained) will be given preference under this Clause.

ARTICLE 35.02 - COMMITTEE ON NEW TECHNOLOGY

There shall be established a committee of eight with equal representation from both the Company and the Union, with four (4) members determined by the Union to deal with the whole question of New Technology and the introduction of new techniques through automated equipment. The four (4) members are to be determined by the Union, one of which shall be the International Skilled Trades Representative or his/her designee.

It shall be the responsibility of the Committee to investigate and examine all of the aspects concerned by the introduction of such equipment and its impact on the affected employees.

The Committee shall make recommendations to the Company for implementation, concerning the use of affected employees in the area of the training of those employees who can be used in such work as programming, tape preparation and for numerical control and other functions which could be allocated to such employees.

Any recommendations of the Committee which are not implemented by the Company shall be subject to Step 2 of the grievance procedure and, failing settlement, by an arbitrator selected under 15.04.

The Company members of the Committee shall be two representatives from the Operations Department and a representative from the Human Resources and Industrial Relations Department. It is understood that the Committee will meet at least once every month unless otherwise agreed to.

SCHEDULE "A"

WAGES, FRINGE BENEFITS AND JOB CLASSIFICATIONS

1. WAGE SCALE - Effective the first pay period beginning on or after June 27, 2000, Date of Ratification.

Wage Group	Level 1	Level 2	Level 3
1	\$19.33	\$21.04	\$22.75
2	19.46	21.18	22.90
3	19.59	21.32	23.05
4	19.73	21.47	23.22
5	20.33	22.13	23.92
6	20.72	22.55	24.38
7	21.15	23.02	24.89
8	21.61	23.51	25.42
9	22.47	24.46	26.44
S02	--	--	27.32
S03	--	--	27.60
S04	--	--	27.90
ST1	--	--	27.55
ST2	--	--	27.85
ST3	--	--	28.27

2. FUTURE INCREASES - Effective the first pay period beginning on or after June 23, 2001, the following wage scale will go into effect.

Wage Group	Level 1	Level 2	Level 3
1	\$19.73	\$21.47	\$23.21
2	19.85	21.61	23.36
3	19.99	21.75	23.51
4	20.13	21.90	23.68
5	20.74	22.57	24.40
6	21.14	23.00	24.87
7	21.58	23.48	25.39
8	22.04	23.98	25.93
9	22.92	24.94	26.97
S02	--	--	27.86
S03	--	--	28.15
S04	--	--	28.45
ST1	--	--	28.10
ST2	--	--	28.41
ST3	--	--	28.84

3. Effective the first pay period beginning on or after June 22, 2002, the following Wage Scale will go into effect.

Wage Group	Level 1	Level 2	Level 3
1	\$20.12	\$21.90	\$23.67
2	20.26	22.04	23.83

AUTOMATIC PROGRESSION

3.01 The wage of a probationary employee hired after the date of ratification shall be increased from the entry level rate to the next higher rate from the first day of the work week following completion of one hundred and eighty (180) days of work and to the next succeeding level following completion of the next succeeding one hundred and eighty (180) days of work. Under unique circumstances, when the Company cannot attract sufficient qualified candidates, employees may be started at a level higher than the entry level, in which case they will progress to the next higher rate every one hundred and eighty (180) days of work thereafter.

3.02 An employee with seniority who successfully applies for and retains a job in a higher wage group will be paid the next highest rate in such wage group above his/her current rate. He/she shall have his/her wage increased thereafter in accordance with 3.01 above.

COST OF LIVING ALLOWANCE

4.01 In addition to the wage rates set out in the hourly wage rate schedules, any increase or decrease in the Cost of Living Allowance will be calculated on the basis of one (1) cent per hour for each full 0.07068 three month average change in the Consumer Price Index (1992 = 100) as published by Statistics Canada.

4.02 The base point for future adjustments shall be 112.40.

4.03 Effective as of the first pay period beginning on or after Date of Ratification, a minimum of the eighty four (84) cents per hour guaranteed Cost of Living Allowance to the amount generated by our COLA formula effective June 17, 2000 paid as of June 22, 2000 will be incorporated (folded) into the wage rate schedule.

4.04 Future quarterly adjustments in the Cost of Living Allowance, beginning with September 2000 will be effective as of the first pay period following the release of the last C.P.I. figure, providing the release date falls on a Friday. If a C.P.I release date falls on a Monday, Tuesday, Wednesday or Thursday, that quarterly adjustment in the COLA will be effective for the pay period which commenced on the previous Saturday.

Adjustment	Month of Adjustment	Based on C.P.I. for Months at:
First	Sept./00	June, July, Aug., 2000
Second	Dec./00	Sept., Oct., Nov., 2000
Third	Mar./01	Dec., 2000, Jan., Feb., 2001
Fourth	June/01	Mar., Apr., May, 2001
Fifth	Sept./01	June, July, Aug., 2001
Sixth	Dec./01	Sept., Oct., Nov., 2001
Seventh	Mar./02	Dec., 2001, Jan., Feb., 2002
Eighth	June/02	Mar., Apr., May, 2002
Ninth	Sept./02	June, July, Aug., 2002
Tenth	Dec./02	Sept., Oct., Nov., 2002
Eleventh	Mar./03	Dec., 2002, Jan., Feb., 2003
Twelfth	June/03	Mar., Apr., May, 2003

4.05 The amount of any allowance paid as Cost of Living will not be incorporated into the basic wage rates, but shall be included in computing overtime, statutory holidays and vacation pay.

4.06 In the event that Statistics Canada ceases to publish the monthly Consumer Price Index and/or initiates any change that will affect the foregoing method of computing the Cost of Living Allowance, such change will be subject of discussion by the parties prior to amending the above terms of reference.

4.07 The amount of Cost of Living Allowance (COLA) effective for any period shall be in accordance with the following table:

Three Month Average Statistics Canada Consumer Price Index 1992 = 100		Cost of Living Allowance Cents per hour
112.40	or less	0.00
112.41	112.47	0.01
112.48	112.54	0.02
112.55	112.61	0.03
112.62	112.68	0.04
112.69	112.75	0.05
112.76	112.82	0.06
112.83	112.89	0.07
112.90	112.97	0.08
112.98	113.04	0.09
113.05	113.11	0.10
113.12	113.18	0.11
113.19	113.25	0.12
113.26	113.32	0.13
113.33	113.39	0.14
113.40	113.46	0.15
113.47	113.53	0.16
113.54	113.60	0.17
113.61	113.67	0.18
113.68	113.74	0.19
113.75	113.81	0.20

and so on for each .07068 change in the C.P.I.

4.08 No adjustments, retroactive or otherwise, shall be made because of any revision which may be made in the published figures of the Statistics Canada Consumer Price Index.

LEADHANDS

5.00 Leadhands shall be paid a premium of one dollar (\$1.00) per hour.

INSURANCE AND HEALTH PROGRAMME BENEFITS

6.00 The Hospitalization and Group Benefits provided in this Agreement were amended as per the Memorandum of Settlement dated June 27, 2000. (See Hospitalization and Health Programme Booklet.)

PENSIONS

7.00 The Non-Contributory Pension Plan which was inaugurated on December 1st, 1958, and was amended on February 1st, 1962, April 1st, 1963, September 24th, 1965, October 1st, 1968, September 15th, 1972, December 5th, 1975, November 16th, 1978, September 1st, 1981, June 23rd, 1987, June 23rd, 1990, and has been further amended effective June 30th, 1994, June 28, 1997 and June 27, 2000. (See Pension Plan Booklet.)

SUPPLEMENTARY UNEMPLOYMENT BENEFIT PLAN

8.00 The S.U.B. plan for which contributions by the Company commenced on June 23, 1962, has been amended by the Actuaries of the Company and the Union to provide:

- (a) Three Plans tied together to meet governmental rulings requirements:
 - (1) S.U.B. Plan
 - (2) Separation Payment Plan
 - (3) Automatic Short Week Benefit Plan
- (b) Improved level of benefits
- (c) Guaranteed annual income benefits, effective September 1st, 1968 (see S.U.B. Plan Booklet).

DENTAL PLAN

9.00 Dental services will be reimbursed based on the following fee guide:

Effective January 1, 2001, Dental services incurred after that date will be reimbursed according to the 2000 ODA fee guide.

Effective January 1, 2002, Dental services incurred after that date will be reimbursed according to the 2001 ODA fee guide.

Effective January 1, 2003, Dental services incurred after that date will be reimbursed according to the 2002 ODA fee guide.

JURY DUTY

10.00

1) Employees required to serve Jury Duty shall be paid the difference between their normal day rate and the amount they receive as Jury Duty Pay.

2) An employee absent from work in order to serve as a witness in compliance with a subpoena in a federal or provincial court of law in the province in which he/she is working or residing, shall be paid the difference between his/her normal day's wages and the amount he/she receives as a witness. An employee is not entitled to pay under this provision in circumstances where the employee:

- (a) is called as witness against the Company or its interests; or
- (b) is called as a witness on his/her own behalf in an action in which he/she is a party; or
- (c) voluntarily seeks to testify as a witness; or
- (d) is a witness in a case arising from or related to his/her outside employment or outside business activities.

BEREAVEMENT PAY

11.00 Pay, at regular day rate, not to exceed four (4) days will be paid an employee who loses either wife, husband, son, daughter, sister, brother, mother, father, grandmother, grandfather, step-child, father-in-law, mother-in-law including step-parents of the employee or his/her spouse. Payment is made to the extent of the time lost (excluding Saturdays and Sundays).

SPECIAL VOLUNTARY RETIREMENT ALLOWANCE

12.00 The Company will offer a Special Voluntary Retirement Allowance ("Allowance") for those employees in job classifications which are affected by a job amalgamation or who are in job classifications scheduled to be laid off due to technological change, either of which takes place during the term of the 2000-Agreement. The Allowance will be paid to such employees who, within three (3) months of the amalgamation or technological change, retire with ten (10) years or more of Credited Service under the terms of the Local 112 Non-Contributory Pension Plan.

The amount of the allowance for an employee will be one (1) week's wages at his/her regular hourly rate (excluding COLA) for each completed year of his/her credited service under the Pension Plan and will be payable in a lump sum within thirty (30) days of the effective date of retirement.

Further, in these specific circumstances, if such employee is between 60 and 62 years of age at the time of such retirement and has at least ten (10) years of credited service, his/her pension shall be without actuarial reduction.

WSIB ADVANCES

13.00 If an employee applies for Worker's Compensation Benefits and has not yet received such benefits, the Company will directly advance him/her monies, equivalent to S & A maximum benefits, provided the employee files medical proof of disability, including medical reports submitted to the Board, and signs the required form. Such form will acknowledge his/her commitment to repay the monies advanced from WSIB benefits subsequently received or, if such benefits are denied or are insufficient, from wages or other benefits to which he/she may be entitled. The employee shall also authorize the Company to deduct such amounts due it from WSIB lost-time benefits or wages payable to the employee, including vacation, termination or severance pay, and retain those amounts to the extent required to repay all monies advanced. Repayment schedules from weekly wages shall be established at a rate of \$250 per week but not exceeding 30% of wages.

SHOP CLOSURE

14.00 If, prior to June 22, 2003, the Company decides it will no longer have certain work performed at the Downsview plant but rather decides to have that work performed by subcontract, sale or transfer to another company or another Bombardier facility and thereby causes the permanent layoff of any employees in the bargaining unit, the following special provisions shall be operative:

1. The Union will be given notice of the date the work will cease to be performed at the Downsview plant. The length of notice will vary with the number of employees scheduled to be permanently laid off by the decision as follows:

less than 10 employees -	two (2) weeks' notice
10 to 25 employees -	four (4) weeks' notice
26 to 49 employees -	six (6) weeks' notice
50 or more employees -	eight (8) weeks notice

An affected employee will be given specific notice of his/her layoff date.

2. The parties will meet immediately after such notice to discuss the cessation of the work and its impact on the employees.
3. Employees in the classifications which are scheduled for layoff who are:
 - a) age 55 with 30 years of credited service under the Pension Plan,
 - b) age 62 with 10 years of credited service under the Pension Plan,
 - c) age 55 with 10 years of credited service under the Pension Plan (Special Early Retirement)

may elect to retire under the Pension Plan within thirty (30) days of the offer under this Section, and, upon retirement, will receive a lump sum payment outside of the Plan of \$25,000.

4. If there are more volunteers for early retirement under Section 3 than the number of jobs in that classification to be laid off, only that lower number will be eligible for the lump sum payment and priority will be given to the volunteers on the basis of seniority.
5. The Company agrees to consent to the Special Early Retirement under Article IV, Section 3(B) of the Pension Plan for any employee who does not qualify under Section 3 (a) or (b) above.
6. An employee who is laid off by the decision will be provided up to ten (10) working days training if he/she possesses the minimum skills necessary and such training will enable him/her to qualify for movement to a vacant job for which the Company would otherwise need to hire. In this event, such employee shall be given preferential consideration for such vacant job.

This Section 14.00 shall not apply in the event of a closure of the complete operation at Downsview.

SCHEDULE "B"

HOURS OF WORK OVERTIME CONDITIONS, ETC.

REGULARLY ASSIGNED HOURS

1.00 The regular work week shall be five eight-hour days, Monday through Friday, inclusive, except Stationary Engineers who shall work any five days of the seven, Monday through Sunday.

NO GUARANTEE

2.00 The Company does not guarantee to provide work to any employee for the regularly assigned hours or for any other hours.

STARTING AND STOPPING TIMES

3.01 The hours of work are as follows:

07:30 a.m. - 04:00 p.m.
04:00 p.m. - 12:30 a.m.

3-Shift Operations:
07:30 a.m. - 03:30 p.m.
03:30 p.m. - 11:30 p.m.
11:30 p.m. - 07:30 a.m.**

** It is understood that the shift beginning 11:30 p.m. is to be treated as the next day's shift, and the overtime rates for work on a Sunday do not apply to the shift beginning Sunday at 11:30 p.m.

3.02 The Company may make changes in the starting and stopping time of the shifts noted above, provided such changes do not result in such shift hours being moved up more than one-half (1/2) hour or moved back for more than one-half (1/2) hour. Such changes in starting and stopping times may not involve all employees on a shift. Any change of more than one-half (1/2) hour may only be

made by mutual agreement between the Union and the Company. At least three (3) days' notice will be given to the Union by the Company of any change in the starting or stopping time of shifts. The end result of the above allows three (3) starts per shift with one-half (1/2) hour between starting times.

3.03 Shifts starting at midnight will be deemed to start on the day the shift is worked.

3.04 All employees working on an eight (8) hour day three-shifts per day basis shall be entitled to a lunch period of twenty (20) minutes which shall be paid for. Employees working shifts other than above will have a one-half (1/2) hour unpaid lunch period.

3.05 An employee shall have the right to volunteer for a transfer to a permanent off-shift, and shall receive preference over a junior employee. The Union will be notified of those employees assigned to work on a permanent off-shift prior to the effective date.

3.06 Consistent with work requirements the Company may, wherever necessary, assign employees to second and/or third shifts, provided that no employee will be required to work more than two (2) weeks on one off-shift, before rotating to the next shift. In all cases where shifts are worked the Company agrees to equalize such shift work among the employees usually performing the work in the classification affected.

3.07 For off-shift workers, unless otherwise agreed upon, the shift which commences on the evenings of the holiday will be considered as the shift for that holiday.

PENALTY FOR LATENESS

4.00 Lateness in reporting for work will be deducted on the following basis:

2 minutes late	no deduction
3 minutes late	6 minutes deduction
8 minutes late	6 minutes deduction
9 minutes late	12 minutes deduction
14 minutes late	12 minutes deduction
	Etcetera

Persistent lateness or absenteeism may be made reason for disciplinary action.

WASH UP PERIOD

5.00 A personal wash up period of five (5) minutes before the end of a work shift will be maintained.

REST PERIOD

6.00 A rest period of ten (10) minutes will be maintained, at a time set by the Company and the Union as mutually agreed.

REPORTING ALLOWANCE

7.00 In the event that an employee reports for work on his/her regular shift without having been previously notified not to report, he/she will be given at least four (4) hours work at his/her appropriate rate of pay, or, if no work is available, he/she will be paid the equivalent of four (4) hours at his/her appropriate rate of pay in lieu of work. Where the Company's inability to provide work is due to fire, flood, power failure, major mechanical breakdown or work stoppage, the foregoing shall not prevail.

CALL IN ALLOWANCE

8.00 Any employee who has completed his/her shift and, having clocked out, is then asked to work extra time, shall receive a minimum of four (4) hours pay at the appropriate rates for such additional work.

OFF SHIFTS

9.01 The Company may operate off-shifts in any or all departments if necessary to comply with work requirements, and will compensate any employees engaged in such off-shifts by the payment of an off-shift premium in the amount of one dollar (\$1.00) per hour per shift.

Such a premium shall be included in the hourly rate for the calculations of overtime.

9.02

- (a) For the purpose of payment of an off-shift premium a shift which commences between the hours of 12 noon and 8:59 p.m. will be regarded as an afternoon shift. Any shift commencing between the hours of 9:00 p.m. and 5:59 a.m. will be regarded as a night shift.
- (b) When an employee is required to report for work ahead of his/her normal shift starting time in order to do overtime work, this shall not be regarded as a change in the commencement time of his/her shift.

It is understood that in the application of the above paragraph (b), the employee will complete a total of eight (8) hours at a stretch.

OVERTIME RATES AND CONDITIONS

10.01 Any work performed by an employee in excess of eight (8) hours at a stretch, in any day of his/her regular work week, shall be paid for at the rate of time and one-half. Any work done on Saturday will also be paid for at time and one-half.

10.02 All work performed on Sunday except for those whose work week is any five (5) of the seven (7) days will be paid at the rate of double time.

10.03 Stationary Engineers whose duties require that they work any five (5) of the seven (7) days shall be paid at the rate of time and one-half for work done on Saturday or Sunday.

10.04 If, by mutual consent of the Company and the Union, Saturday and/or Sunday should become part of the regularly scheduled five (5) day week, then payment of time and one-half and double time shall be made for the sixth and seventh days following the adopted five (5) day work week.

10.05 In the event of urgent or emergency overtime work for which no qualified employee will volunteer, the Union agrees to cooperate with the Company in providing sufficient qualified workers to perform such work. In all cases, where overtime is worked, the Company agrees to equalize such work among the employees usually performing such work. A list of overtime worked will be posted and maintained in the department or area respecting each overtime work group. The Union may make representations to the

Management as to continuing distribution of overtime work which, in the opinion of the Union, may be unfair.

10.06 For off-shift workers, unless otherwise agreed upon, the shift which commences on the evenings of the holiday will be considered as the shift for that holiday.

FLIGHT PAY

11.00 An hourly paid employee shall receive a bonus for all time spent in flying required in the performance of the duties of adjusting, recording and operating equipment during experimental and production test flights at the rate of five dollars (\$5.00) per hour. Flight time shall be computed from the time of take-off to the time of landing. The bonus shall not be payable for ferry or other flights. The Company will continue to provide life insurance coverage in the amount of sixty thousand dollars (\$60,000.00) per employee during flights.

WORK PARTIES

12.00 Employees required to work at locations other than the Downsview plant, which necessitates their living away from home, shall be subject to the following conditions:-

12.01 Method, travel and route shall be determined by the Company.

12.02 Cost of travel fares to location and return will be paid for by the Company. If an employee wishes to use an alternate means of transportation than that determined by the Company, he/she will be compensated to the value of the Company's selected transportation provided he/she reports for work at the designated location at the time specified by the Company.

12.03 Travel by means of personal automobile, either with or without passengers, will be the responsibility of the automobile owner.

12.04 Travelling time to location and return will be paid at regular hourly rate of pay at straight time, to a maximum of eight (8) hours in any twenty-four (24) hour period, if a method of travel is

selected by the employee and to a maximum of twelve (12) hours if method of travel is determined by the Company.

12.05 Employees will be paid at their regular hourly rate for the standard hours of work each week, less any deductible lost time. In addition, the Company will pay twenty-five (.25) cents premium per hour for each regular or overtime hour worked on such location (subject only to mandatory deductions). Authorized overtime or shift work will be paid in accordance with the provisions of the Collective Agreement.

12.06 Work on location where food and lodging is supplied will warrant, in addition to the hourly premium, an allowance of three dollars (\$3.00) per day for each full day of twenty-four (24) hours on the location.

12.07 In the case of work parties at locations where food and lodging are not supplied:

- (a) Actual expenses under arrangements approved in advance by the Company shall be payable for trips of less than twenty-eight (28) calendar days to major urban centres.
- (b) For work parties of longer duration, or if the employee elects to receive expenses under this provision for trips of shorter duration as an alternative to (a) hereof, a per diem allowance of twenty-two dollars (\$22.00) shall be payable to cover all of the employee's expenses at the work location.

12.08 An employee on a work party anywhere on the continent of North America will be afforded an opportunity to return home once each six (6) months for a reasonable period of time. Such time shall not be a paid vacation but rather a period in which he/she is afforded an opportunity to take a vacation to which he/she is otherwise entitled, or to take a leave of absence without pay or to work in the plant.

OVERSEAS ASSIGNMENTS

13.00 All conditions relating to work performed by employees outside the limits of Continental North America will be discussed with the parties concerned before such job assignment is initiated.

SCHEDULE "C"

ANNUAL VACATIONS WITH PAY

1.00 The Company will require all employees to take a vacation and may close the Plant for such purpose, or in the alternative, may stagger their vacations in order to maintain continuous production or repair facilities. The Company will post a notice advising employees of the vacation program by January 1st of the current year, and sooner if possible. When the vacation program is announced, the Company will provide the Union the vacation entitlement for all employees in Local 112. Subject to the above, vacation may be taken from June 1st to May 31st of the following year, providing that an employee shall not combine one year's vacation with the following year's entitlement.

2.00 Employees, who on June 1st of the year 1997 and of each succeeding year that this Agreement remains in effect, have been on the Company's payroll for a period of not less than three (3) months prior to such date, will be entitled to a vacation with pay as follows:-

2.01 For those employees with more than three (3) months of service and less than four (4) years, two (2) weeks' vacation with pay equivalent to four percent (4%) of their earnings received from the Company during the previous year of June 1st to May 31st.

2.02 For those employees with more than one (1) full year of service and less than four (4) years, two (2) weeks' vacation with pay equivalent to four percent (4%) of their earnings received from the Company during the previous year of June 1st to May 31st.

2.03 For those employees with more than four full years of service and less than twelve (12) years, three (3) weeks' vacation with pay equivalent to six percent (6%) of their earnings received from the Company during the previous year of June 1st to May 31st.

2.04 For those employees with more than twelve (12) full years of service and less than twenty (20) years, four (4) weeks' vacation with pay equivalent to eight percent (8%) of their earnings received from the Company during the previous year of June 1st to May 31st.

2.05 For those employees with more than twenty (20) full years of service, five (5) weeks' vacation with pay equivalent to ten percent (10%) of their earnings received from the Company during the previous year of June 1st to May 31st.

SERVICE TIME

3.00 "Service" as designated above shall mean the total of the periods of time during which the employee has drawn pay from the Company, save and except that an employee who was separated from the Company, shall forfeit any service time accrued should he/she later be re-employed. However, employees who had been credited with prior service at the date of signing this Agreement, shall not lose such service time accrued.

3.01 "Earnings" as designated above, shall mean the total amount of wages, overtime payments or Cost of Living Allowance paid by the Company in respect to continuous service during the calendar year ending May 31st plus the amount an employee would have earned on straight time, for standard working hours, during any time lost on account of (a) compensable injury due to occupational accident, or (b) illness or accident for which Group Insurance benefits are paid, or, (c) approved maternity leave under Article 28, providing that, in none of these cases shall the period exceed fifty-two (52) weeks. Vacation pay for the previous year shall also be included as earnings.

3.02 All deductions normally made from an employee's pay shall be deducted from the employee's vacation pay.

3.03 Vacation pay in the case of termination of an employee will be as provided herein and based on their appropriate entitlement for service from June 1st of the previous year.

PAYMENT FOR PLANT HOLIDAYS NOT WORKED

4.01 All employees covered by this Agreement shall be paid their regular wages at straight time less legal and statutory deductions for the following Plant Holidays ("regular wages" herein shall include permanent off-shift premium):

<u>Holiday</u>	<u>2000</u>	<u>2001</u>	<u>2002</u>	<u>2003</u>
New Year's Day		Jan. 1	Jan. 1	Jan. 1
Good Friday		April 13	Mar. 29	Mar. 28
Victoria Day		May 21	May 20	May 19
Canada Day	July 3	July 2	July 1	
Floater	July 4	----	----	
Civic Holiday	Aug. 7	July 3*	Dec. 23*	
Labour Day	Sept. 4	Sept. 3	Sept. 2	
Thanksgiving	Oct. 9	Oct. 8	Oct. 14	
Floater	----	Dec. 24	Dec. 24	
Christmas Day	Dec. 25	Dec. 25	Dec. 25	
Boxing Day	Dec. 26	Dec. 26	Dec. 26	
Floater	Dec. 27	Dec. 27	Dec. 27	
Floater	Dec. 28	Dec. 28	Dec. 30	
Floater	Dec. 29	Dec. 31	Dec. 31	

* in lieu of Civic Holiday for 2001 and 2002

providing that the employee is not absent without permission from work either on the work day immediately preceding or the work day immediately following the holiday.

4.02

- (a) It is further provided that an employee will be paid for such a holiday if he/she can supply the Company with satisfactory reasons for his/her absence on either the work day before or the work day after the holiday but absence on both days will disqualify the employee. It is understood that if an employee commences a Leave of Absence during the week prior to and the week after a plant holiday, the qualifying days referred to above will be his/her regularly scheduled work day prior to and his/her regularly scheduled day after the absence.

- (b) An employee who is absent before, after, or on either side of a plant holiday while on scheduled vacation will be paid for such plant holiday.

4.03 Such employees as may be required to work on any of the plant holidays enumerated above shall be remunerated at double time in addition to the compensation provided in Article 4.01 above.

4.04 Holidays falling on a Saturday or Sunday will be observed on the following Monday.

SCHEDULE "D"

SCHEDULE OF DIRECT AND INDIRECT PRODUCTION WORK FLOW CHARTS AND JOB DESCRIPTIONS

1.01 Job Classifications and descriptions in this Schedule "D" apply to production workers.

1.02 Job Classifications which are assigned to Wage Groups 9, 8, 7 and 6 are those which require the skill and training comparable to that of a journeyman. Employees classified in these groups can satisfactorily perform the operations of their classification with a minimum of direction and may be required to assist in the training of less skilled workers.

1.03 Job Classifications assigned to Wage Group 5 require less skill and training than classifications referred to in Article 1.02 above. Employees in Wage Group 5 perform their work with minimum direction and may be required to familiarize new employees with their duties.

1.04 Job Classifications assigned to Wage Groups 4, 3 and 2 cover work which is largely repetitive or alternately require ordinary care rather than skill and training.

1.05 Wage Group 1 contains Job Classifications covering the sweeping, cleaning and labouring or other jobs in which no prior experience is necessary.

1.06 An employee will not be classified in a Job Classification because of his/her performing isolated or singular duties set forth in a classification but will be classified in the Job Classification in which he/she regularly performs.

1.07 An employee may not necessarily be required to perform all the work operations described under his/her Job Classification nor will he/she have the right to refuse to perform operations which are not described, providing they are related to his/her particular Job Classification.

1.08 An employee will only be required to perform the necessary work operations of his/her classification with the degree of guidance and instruction which is considered usual or normal. This clause shall also apply where an employee is surplus and is transferred within his/her classification.

1.09 The Company agrees that in the application of Clauses 1.06 and 1.10 inclusive, employees will not be assigned work of another classification except as provided under Article XIX.

1.10 Certain previously separate Job Classifications have been merged. It is not expected that employees in the amalgamated classifications will be able to immediately perform all the operations required of the classification. It is, therefore, understood that the Company, in rotating employees in such classifications, will permit a reasonable period of familiarization.

1.11 When a new job is introduced which is not covered by an existing classification, the Company agrees to submit to the Union within thirty (30) days, an occupational summary of the job and the grouping to which it has been assigned. If within thirty (30) days following notification the Union has not placed an appeal in the manner described hereunder, the Job Classification and its grouping shall be deemed acceptable to the Union.

1.12 In order to provide for appeal against a new Job Classification, or its grouping, the following procedure shall be used:

- (a) The Union shall lodge the appeal in writing to the Labour Relations Manager.
- (b) The appeal shall outline the reason or reasons for disputing the description and the Job Classification groupings.
- (c) A committee of six (6) shall be appointed to review and decide the disposition of the appeal. The committee shall comprise three (3) members of the Local Union and three (3) members of Management.
- (d) Failing a satisfactory disposition of the appeal, either party may refer the matter to arbitration.

TUBE BENDER GROUP

Chart No. 1

TUBE BENDER MECHANIC & MAGNEFORM MECHANIC 690-1 (680, 677)

Required to perform the operations necessary to mock up and develop trial installations of tube and piping systems in aircraft and to fabricate tubing or piping masters or samples for production use. Required to fully utilize all functions of Tube Bending Equipment and attachments to which it is or may be adapted, e.g. tape controllers and on-floor Numerical Control or electronic programming equipment.

Required to perform the operations necessary to set up and operate various types of hand and power operated tube bending machines and related equipment to bend and finish metal tubing and piping, working to tube or piping masters, samples and/or drawings, sketches, electronic or tape control systems.

Required to plan and perform all operations necessary to obtain certification of the magneforming machine for the production of parts to which the magneforming machine and related equipment is or may be adapted. May perform the operations necessary to set up and

operate on production runs. Works to blueprints, drawings and general information.

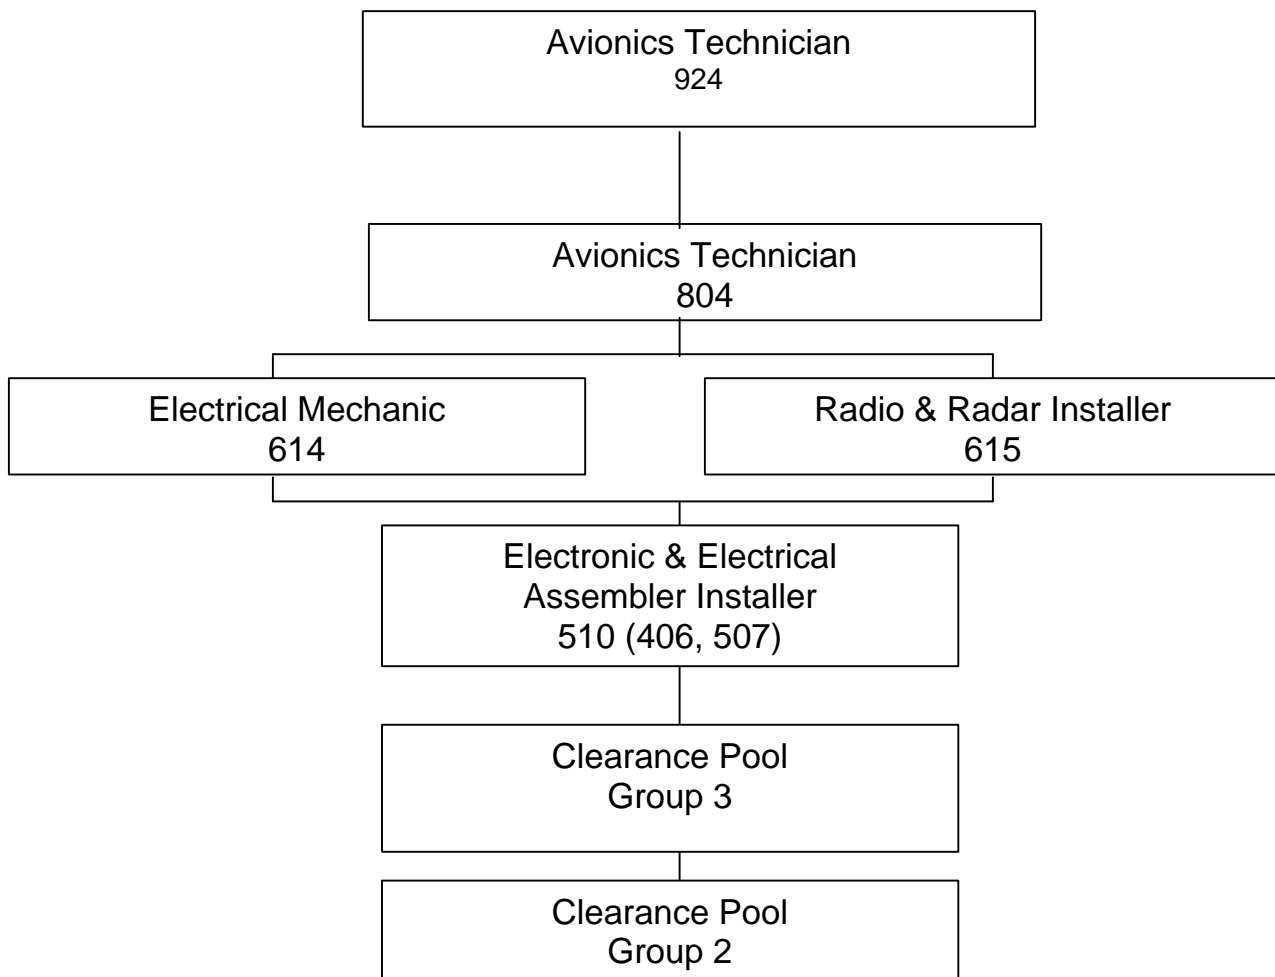

Required to perform the operations necessary to set up and operate a magneforming machine to produce parts for which the machine has been certified. Works to established procedures, process sheets, drawings and/or oral instructions.

TANK AND TUBE TESTER 459-1

Required to test pipes, tubes and tanks as instructed.

ELECTRONIC GROUP

Chart No. 2

AVIONICS TECHNICIAN 924-2

Required to install, function, dismantle, overhaul, repair, bench test, trouble shoot and correct radio and electronic equipment and electronic services in the aircraft or on the bench from information provided or available. Including microwave equipment.

In addition to the duties of a Group 6 Instrument Mechanic, the Group 7 Instrument Technician, and the Group 8 Avionics Technician is required to test, calibrate, repair, function and completely overhaul electronic type instruments and systems. Must be capable of trouble shooting, correcting and adjusting electronic instrument flight snags. Also construct and completely overhaul instrument test equipment. Must be able to adapt instrumentation of all types to provide suitable systems of collecting test data. Must be able to perform and function trial and prototype installations of all types of aircraft instrument systems. Must be able to work to verbal instructions and/or sketches from Engineering Department.

Repairs, rebuilds, adjusts, maintains and sets up in service, various makes of aerial, movie and still cameras by dismantling, repairing and adjusting lenses, shutters and diaphragms, using measuring devices to make fine adjustments. Repairs and maintains all mechanisms that are not functioning properly. Reassembles cameras and makes fine adjustments. Must be able to maintain related mechanical equipment such as intervalometers, projection equipment. Must be able to develop and adapt photographic equipment for special purpose work. An employee in this classification may, on occasion, be required to make such parts as may be necessary in the performance of his/her assignments, essentially bench work.

Requires the dismantling, cleaning and reassembly of aircraft instruments, making of minor repairs, detection and replacement of defective parts, bench testing and adaptation of equipment available to testing; installation of instruments in aircraft and their functional testing.

May be required to obtain a valid "E" license and be certified by aircraft type.

AVIONICS TECHNICIAN 804-2

Required to install, function, dismantle, overhaul, repair, bench test, trouble shoot and correct radio and electronic equipment and electronic services in the aircraft or on the bench from information provided or available. Including microwave equipment.

In addition to the duties of a Group 6 Instrument Mechanic, the Group 7 Instrument Technician is required to test, calibrate, repair, function and completely overhaul electronic type instruments and systems. Must be capable of trouble shooting, correcting and adjusting electronic instrument flight snags. Also construct and completely overhaul instrument test equipment. Must be able to adapt instrumentation of all types to provide suitable systems of collecting test data. Must be able to perform and function trial and prototype installations of all types of aircraft instrument systems. Must be able to work to verbal instructions and/or sketches from Engineering Department.

Repairs, rebuilds, adjusts, maintains and sets up in service, various makes of aerial, movie and still cameras by dismantling, repairing and adjusting lenses, shutters and diaphragms, using measuring devices to make fine adjustments. Repairs and maintains all mechanisms that are not functioning properly. Reassembles cameras and makes fine adjustments. Must be able to maintain related mechanical equipment such as intervalometers, projection equipment. Must be able to develop and adapt photographic equipment for special purpose work. An employee in this classification may, on occasion, be required to make such parts as may be necessary in the performance of his/her assignments, essentially bench work.

Requires the dismantling, cleaning and reassembly of aircraft instruments, making of minor repairs, detection and replacement of defective parts, bench testing and adaptation of equipment available to testing; installation of instruments in aircraft and their functional testing.

ELECTRICAL MECHANIC 614-2

Required to install, function, dismantle, overhaul, repair, bench test, trouble shoot and correct electrical equipment and electrical services in the aircraft or on the bench from information provided or available.

Required to assemble, install or remove instruments and instrument assemblies. Make adjustments to instruments that can be performed without dismantling the units. Required to make functional tests in the aircraft to laid down instrument specifications and report satisfactory function or failure.

RADIO AND RADAR INSTALLER 615-2

Required to install radio and radar equipment directly into the aircraft including the installation of radio and radar circuits, electrical and mechanical hook-up. May be required to carry out simple testing and rework.

ELECTRICAL INSTALLER 510-2 (406, 507)

Required to install and connect or remove and disconnect various types of electrical equipment and cables, using blueprints, sketches or schematic drawings.

Required to fabricate, assemble or perform operations as assigned to produce electronic and electrical details.

NOTE: It is agreed that work assigned to this classification will not in future exceed the level of difficulty of work now being assigned to employees in this amalgamated classification.

**FLIGHT SERVICE ENGINEER 922-3**

The duties comprise preparation, functioning and checking of engines, hydraulics, pneumatics, electrical installations, rigging and other airframe and engine components or analyze trouble and provide correction for same, and to perform pre-flight runup of engines on any aircraft beyond final assembly starting with "fuel flow" and for customer delivery, and on aircraft that are fully operational and have been in service. This classification must require an "M" License.

FLIGHT SERVICE ENGINEER 802-3

The duties comprise preparation, functioning and checking of engines, hydraulics, pneumatics, electrical installations, rigging and other airframe and engine components or analyze trouble and

provide correction for same, and to perform pre-flight runup of engines on any aircraft beyond final assembly starting with "fuel flow" and for customer delivery, and on aircraft that are fully operational and have been in service. This classification may require an "M" License in certain areas, and any incumbent must be able to obtain a license should it be required.

ENGINE AND PROPELLER MECHANIC II 751-3

Requires the complete dismantling, overhaul and reassembly of aircraft engines, including components and propellers. Must have knowledge of shop practices, be capable of following test procedures, drawings and production methods relating to the above. Carry out correct diagnosis of operating defects.

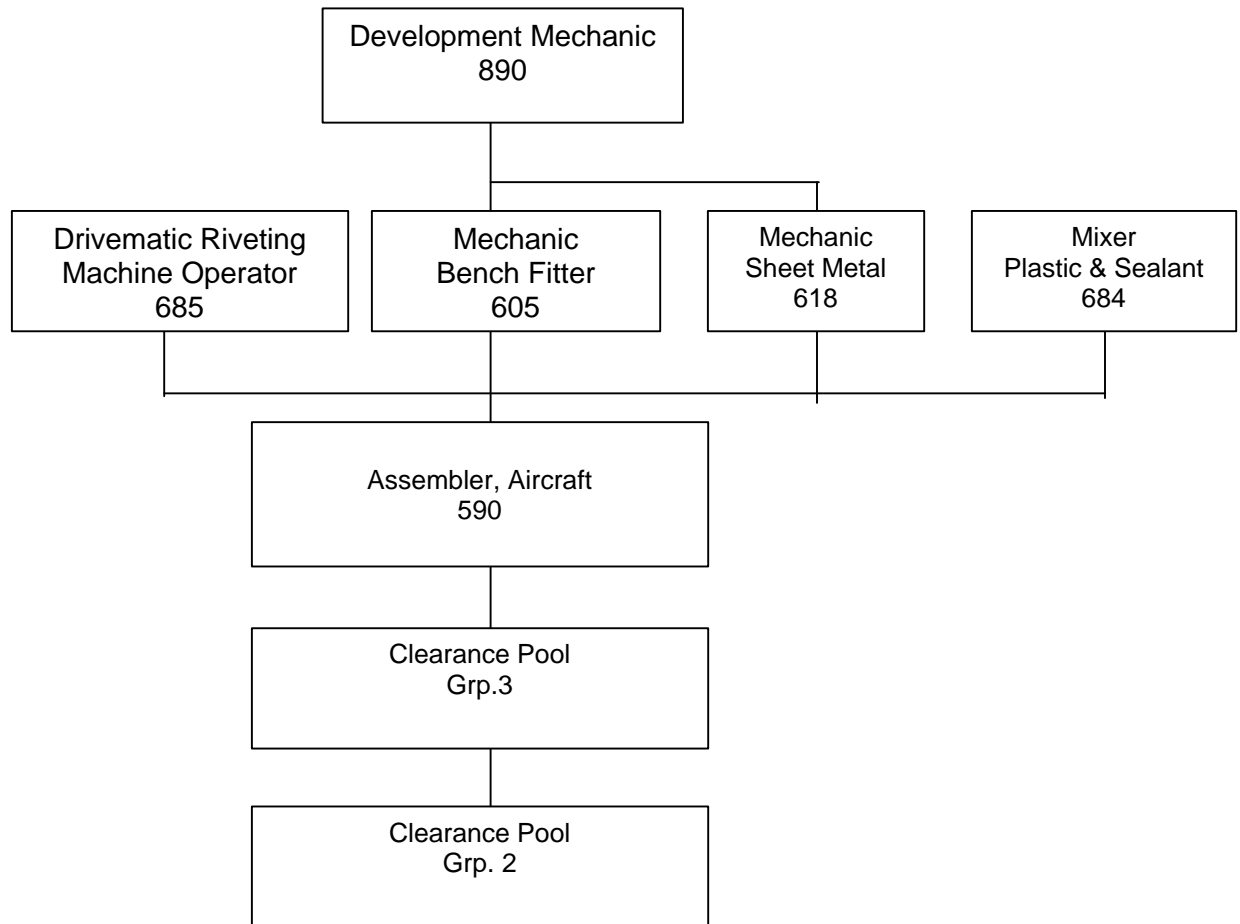

Requires the complete dismantling, build up and test of any one component, i.e. fuel systems, C.S.U. and individual components of a propeller. Must be familiar with complete build of engines, but is not required to engine test. Must be capable of carrying out balancing machine operations as applied to all rotary parts.

AIRFRAME MECHANIC 604-3

Responsible for installing, repairing and functioning any or all parts or components necessary to fabricate a complete airframe including rigging, i.e. the adjustment of flight and engine controls for correct coordinated linkage, tensions and travel. Must be a sight reader of blueprints and trouble shoot the work of Airframe Assemblers.

Requires the general servicing of aircraft power plants; this includes installation or removal of engines, engine mounts, propellers or other accessories, including cowls and coolers, and provide proper setting of controls, preflight engine runup and trouble shooting.

Requires the overhaul, modification and/or installation of any or all piping, hydraulic or pneumatic units to schematic drawings, blueprints, engineering changes or verbal instructions. Required to perform testing, functioning, trouble shooting on any hydraulic or pneumatic unit, complete or partial installation.

**DEVELOPMENT MECHANIC 890-4**

Forms sheet metal into odd shapes by employing beating and wheeling methods to drawings, loftings, sketches or verbal instruction and completes the assembly of the unit. May be required to perform work of a sheet metal mechanic.

Must perform the work of a Bench Fitter Mechanic and Sheet Metal Mechanic and in addition is required to develop and manufacture all parts and mechanisms from approved materials as assigned and in accordance with information provided or available. Carry out experimentation, installation and assembly of parts. Recommend and carry out corrections. Must be familiar with environmental and vibration test procedures and record results where necessary.

Required to develop, manufacture and test prototype precision mechanisms from drawings, sketches and/or verbal instructions,

using any required materials having the ability to suggest and incorporate necessary modifications. Must be able to use precision measuring equipment and be familiar with environmental and vibration test procedures and record results where necessary.

BENCH FITTER MECHANIC 605-4

Required to develop and complete complex parts and assemblies. Required to perform all operations in connection with the assembly and fitting of all types of prefabricated parts and fittings. Required to work from information received and/or available. Be able to make temporary tools pertaining to the work. May be required to operate a Wales Strippit Machine. Must do all necessary rework.

SHEET METAL MECHANIC 618-4

Required to plan, lay out and to develop any sheet metal part from ordinary or complicated blueprints, making and setting up temporary tooling, to do installation, repair, rework or modification of any sheet metal parts on or off the aircraft. Panel beating or wheeling is not required of a Sheet Metal Mechanic but such Sheet Metal Mechanics as have the ability to perform this work shall be paid the top rate of Panel Beaters while so engaged.

SEALANT MIXER 684-4

Must be familiar with all phases of sealants and be able to accurately mix given formulae as established by manufacturer standards.

May be required to perform sealing assignments in the absence of mixing assignments.

DRIVEMATIC RIVETING MACHINE OPERATOR 685-4

Set up and operate Drivematic riveting machines to perform drilling, countersinking and riveting operations.

ASSEMBLER, AIRCRAFT 590-4

Required to perform the operations necessary to clean and seal pressurized or unpressurized integral wing tanks, pressurized compartments and structures including such typical operations as cleaning surfaces; applying sealants by approved methods and hand working to remove bubbles; closing tanks and compartments and checking for leaks in accordance with standard practice; applying various types of interior coatings by brush and/or spray guns. Performs any rework necessary to prevent and correct leaks. Must know curing and drying time of sealants. Works to blueprints, production bulletins and other like information.

Required to complete, fit and/or assemble prefabricated parts or assemblies to jigs, drawings or aircraft. Perform rework not beyond the level of difficulty normally required in this classification. Employees who are required to perform work of a higher level of difficulty will be paid the top of the rate which is appropriate to the level of difficulty while so engaged. May be required to operate a Dimpling Machine or Erco Rivetter.

Will not be required to plan, lay out or develop complex parts or assemblies, or do rework normally performed by Sheet Metal Mechanics or Bench Fitter Mechanics.

Lay out means other than that accomplished by use of a scale or tape and pencil or scribe.

Required to perform the operations necessary to engrave or mark items such as identification or instruction plates, instruments, tooling, machine and aircraft parts by use of pantograph engraving machines and/or Masson Seeley marking equipment. May engrave templates for production runs.

Installs paneling and other decorative finish in the aircraft and trims the cabins with provided fabric, leather, metal or other material. Stretches fabric between or over structural elements and installs panels by fitting and securing them in place; drilling necessary screw holes; install fittings for drapes and shades; lays carpets, etc. and may be required to place seats or other furniture.

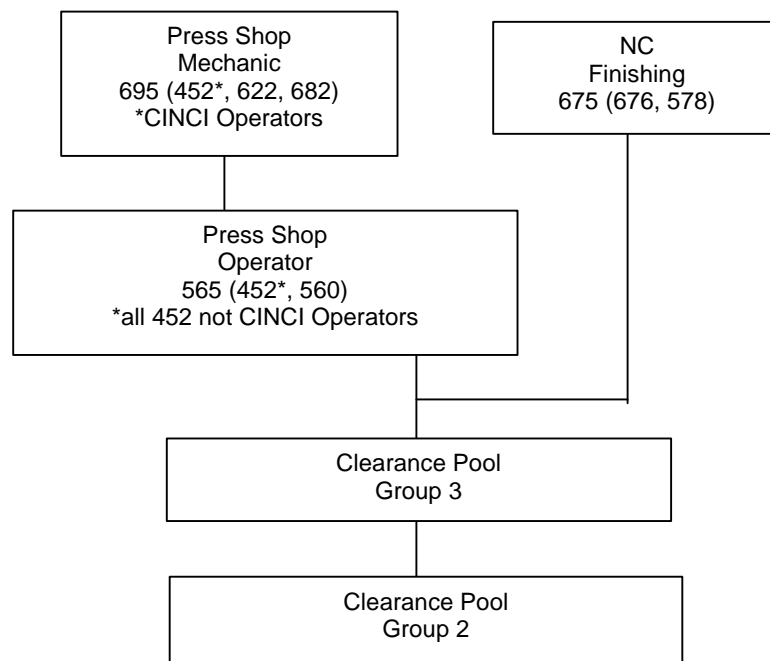

Required to cut, splice or swage, solder and wrap, wire cable, rope or shock cord as assigned and according to information received or available. May be required to carry out prototype installations pertaining to his work.

Required to assemble and fit components and parts to an airframe and perform moderate rework. Required to dismantle, clean, reassemble hydraulic or pneumatic units. Essentially bench work.

Requires the removal or assembly of engine or power plant components including generators, starters, pumps, constant speed units, cowls, etc. and the cleaning of parts and the carrying out of simple repairs or adjustments. This does not require the dismantling, repair or adjustment of starters, generators, pumps or constant speed units.

SHEET METAL GROUP (MACHINE)

Chart No. 5

PRESS SHOP MECHANIC 695-5 (452, 622, 682)

Set up and operate any drop hammer to produce single or double curvature work with or without the use of pressure and/or rubber plates. Develop the use of pressure and/or rubber plates for new parts. Do all necessary hand forming and rough trimming.

Required to perform the operations necessary to set up and operate a Dualform double-acting hydraulic press embodying the Dualform Process to produce various types of sheet metal pressings. As required, performs the operations necessary to clean up and dress dies, punches, sample parts and/or pressings pertaining to the work.

This occupation requires a thorough knowledge of stretching aluminum alloy strip sheets and formed sections around dies. Must be capable of tool proving, first off operations.

Sets up and operates a Farnham Roller. In addition performs all first off work and records the machine setting on a chart form.

Set up and operate a Buffalo Rolls. Check work to templates, blueprints and drawings. Perform all necessary hand work to complete parts according to loft.

Required to determine sequence of operations and set up dies for trial and develop blanks and run off material from accepted dies.

Sets up from charts provided and operates a forming machine known by the trade name Farnham Roller to form bends or curves in sheet metal, adjusting the machine rollers to obtain bends according to template, blueprint or drawing specifications.

Required to set up and operate Hufford Presses on production runs.

Required to set up and operate a Stretch Press.

Requires the planning, set up and forming of all types of sheet metal stock common to aircraft manufacture, by setting and aligning various dies and forms and bending, joggling, channeling, corrugating or forming of angles, including the calculation of bend allowances. Requires a basic knowledge of die construction and materials.

Required to install dies and forms by placing, aligning, adjusting dies and forms in brake presses, and to produce work containing bends, joggles, channels and corrugations.

NC FINISHING 675-5 (676, 578)

Required to perform the operations necessary to finish machined parts by straightening, blending chamfering, deburring and tapping of holes to drawing specifications. This work requires the use of hand and power tools and straightening presses. Performs incidental operations such as marking code or part numbers.

Required, by use of blueprints, drawings or verbal instructions, to lay out work and complete drilling operations on sheet metal parts.

Required to set up and operate the machine, including the welding attachment and have complete knowledge of speeds, feeds and types of blades employed on different types of material.

Required to set up and operate any one of the following machines (for which he/she is classified) to machine castings, forging and/or produce machined parts from bar stock, ferrous and non-ferrous materials, plastics, working from blueprints, drawings and general information. Performs any layout incidental to the work and checks parts for conformance to specifications. Is not required to work on tooling or maintenance type work.

Radial Drill
Pedestal Drills

PRESS SHOP OPERATOR 565-5 (452, 560)

Required to set up and operate any of the following machines; router, nibbler, draw bench, slitting shear, rubber press, deburring machine, drills, straightening rolls.

When operating a travel router, the operator will be paid a premium of twenty (20) cents per hour for all hours so assigned.

Must have ability required to finish sheet metal parts by a hand forming operation using form blocks to be supplied. May be required to operate a crimping machine.

This classification independently dresses or redresses parts from presses formed on unapproved tools. Requires knowledge of set up, planning, forming, materials, bend allowances and operations, etc.

appropriate to do the function. This classification will be used only as required in the development of new form blocks.

Required, by use of blueprints, drawings or verbal instructions, to lay out work and complete drilling operations on sheet metal parts.

Required to set up and operate the machine, including the welding attachment and have complete knowledge of speeds, feeds and types of blades employed on different types of material.

HEAT TREAT GROUP

Chart No. 6

HEAT TREATER & BATH OPERATOR 655-6 (438, 740)

By the use of furnaces or other devices, heat treat any metal used in aircraft to required specifications. Must possess a thorough knowledge of the physical and chemical properties of the metals to be treated and be able to work out treatment problems for which no chart or table exists.

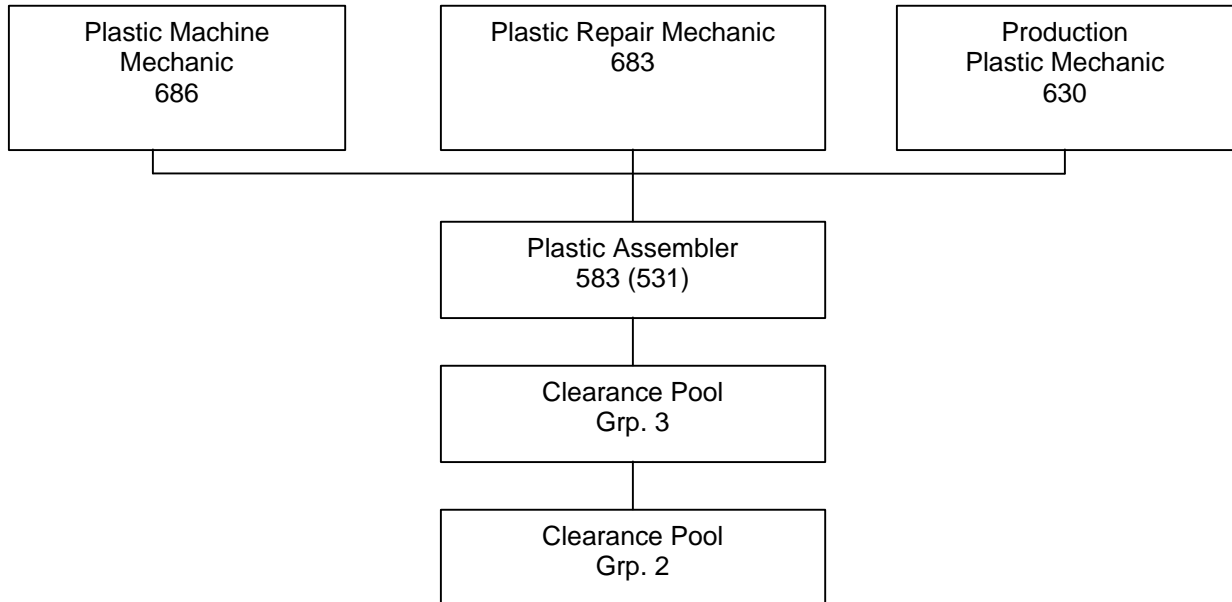

Required to heat treat metals to required specifications and to have knowledge of materials and the particular heat treat equipment used. Must also process materials by a variety of chemical methods directly related to the heat treatment.

Requires the etching, plating and electroplating of aircraft parts.

Required to maintain and operate chemical finishing bath, other than electroplating, with knowledge of materials employed and affected by the bath.

PLASTICS GROUP

Chart No. 7

PRODUCTION PLASTIC MECHANIC 630-7

Required to be familiar with all phases of plastic operation, as known, and perform experimental development work from blueprints, sketches or verbal instructions. Must accurately mix plastics to given formulae and accomplish forming process according to directed methods. May be assigned to work in the making of production moulds or dies from master supplied.

PLASTIC REPAIR MECHANIC 683-7

Required to be familiar with all plastic composites operation as known and to perform all repair and overhaul work from blue prints, sketches or verbal instructions. Must be able to do hot and cold bonding, mechanical fastenings or riveting, complex modifications (eg. Extending panels, components), re-working parts that would otherwise be scrap.

Be able to mix giving formulae as specified by D.H. standards.

PLASTIC MACHINE MECHANIC 686-7

Required to perform all operations necessary to set up, load and operate machines in the Plastic Shop such as Autoclave, Vacuum Forming Machine and machines of a similar nature; is not required to do experimental work in the Development Shop. Will be required to perform related work in the absence of job assignments on the equipment.

PLASTIC ASSEMBLER 583-7

Required to prepare moulds for layup. Trims finished moulded parts to trim jig or scribe lines by machining, filing or any other approved method. Required to assemble parts by plastic bonding, mechanical fastenings or soft riveting. Locate and drill holes as required by process.

Must be familiar with all phases of Plastic Production and be able to accurately mix given formulae as laid down by D.H. standards.

PRODUCTION CONTROL GROUP

Chart No. 8

PRODUCTION CONTROL 595-8

Required to perform the operations necessary to receive and route discrepant materials, parts and assemblies to their respective areas in the Material Review Central Control. Makes a preliminary determination from work orders, drawings and inspection documentation as to whether such items are scrap or for referral to the Material Review Board. As required, carries out the

investigations necessary to obtain information as to the cause of defective parts and materials. Maintains records of all parts and materials actioned in the Material Review Central Control.

Required to operate a stores, tool crib, receiving or shipping area alone or with assistants; must be familiar with and process necessary records and paperwork.

Requires by the reading of work order cards, blueprints, schedules and collect data reports to expedite parts and materials throughout the Company's operations. Keep necessary records of progression. Responsible for writing and reporting of shortage reports and execute the request on method changes. Requires a thorough knowledge of office and factory procedures.

Must set up and operate shears, saws, stitcher, drill sharpener or such other machines as used in stores, shipping or tool crib. Lay out, cut and assemble cartons as required by stores and shipping department.

Requires the reading and follow-up of work order cards, blueprints and schedules with a view to providing a proper progression of parts in a department and, with assistance, clear up matters affecting the regular flow.

Required to receive, store and issue items assigned to tool crib or his/her particular type of stores, to make packing crates and/or pack aircraft parts for shipments, to assist Group 5 Storesperson in the operation of a Stores, Tool Crib or Shipping.

UPHOLSTERY GROUP

Chart No. 9

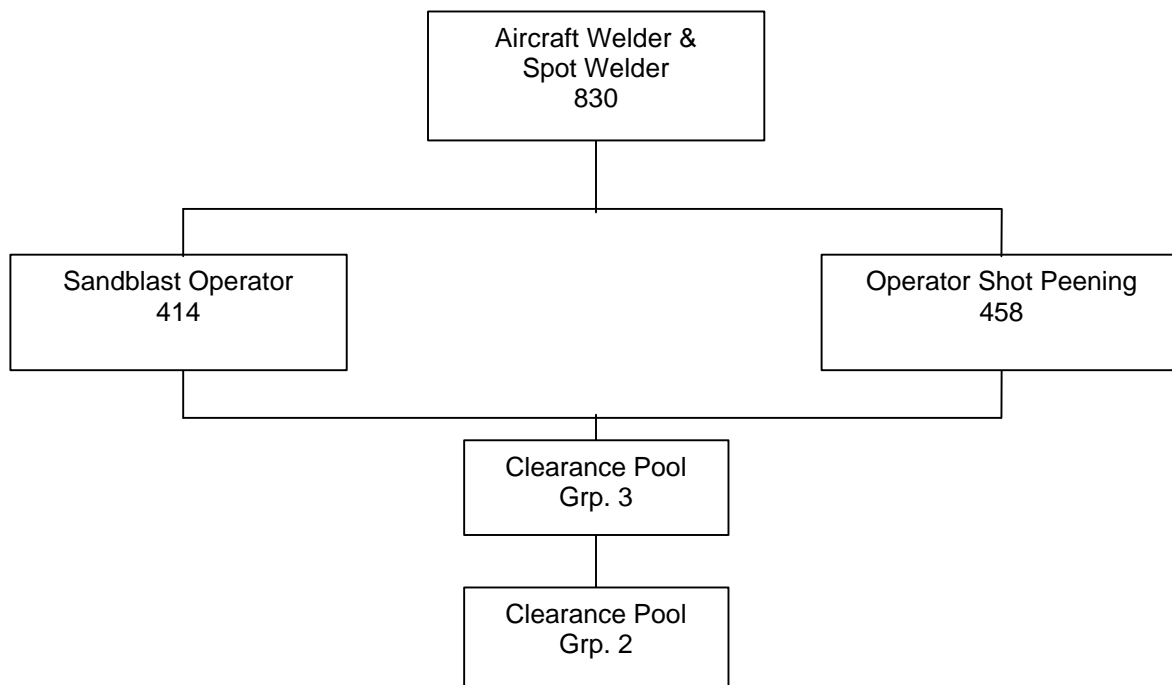

UPHOLSTERER 640-9

Requires the layout, cutting, sewing and fitting of fabric or plastic upholstery or lining materials of a special nature, in cushions or interior furnishing for aircraft. Must work from drawings or verbal instructions.

Required to set up and operate a power sewing machine to sew a variety of fabrics, canvas, leather, vinyl, for installation and assemblies.

WELDER GROUP

Chart No. 10

AIRCRAFT WELDER & SPOT WELDER 830-10

Requires the preparation, setting up and completion of all aircraft welding operations, including repair work. Must possess two or more current R.C.A.F. or other Governmental approvals on any material.

Requires the preparation, setting up and completion of all aircraft welding operations including repair work. Must possess a current R.C.A.F. or other Government approval.

A complete approval is comprised of butt, tube and fillet welding (plus hydraulic tube where necessary) on one material using one type of welding equipment.

Requires the preparation, setting up and completion of aircraft welding operations which do not require the possession of a current R.C.A.F. or other Government Approval Test. May be required to spray molten metal of various types, to specifications, to silver solder and braze and to prepare surface to assure proper bond.

Requires the setup and operation of the machine and by knowledge of the material and the job, works out pressures, voltages and welding sequences. Prepare parts for spot welding to instructions of his/her Supervisor. Be able to operate a spot welding machine.

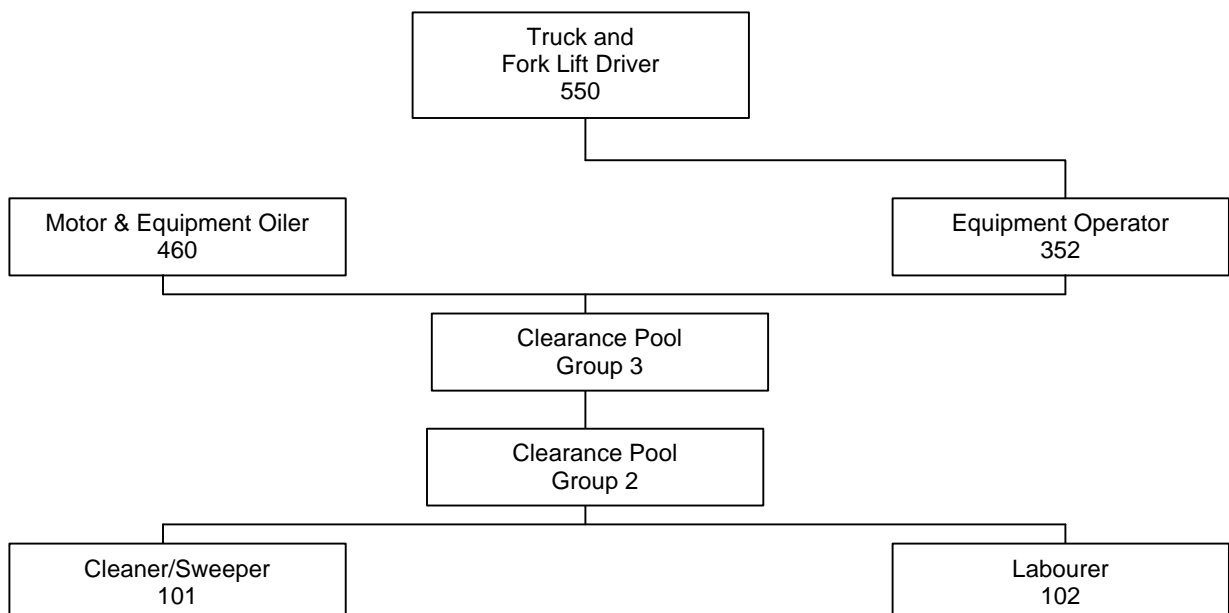

OPERATOR, SHOT PEENING MACHINE 458-10

Required to perform the operations necessary to set up and operate shot peening machines including preparation of test pieces for inspection. Work to process and work order cards and/or oral instructions.

SANDBLAST OPERATOR 414-10

MAINTENANCE GROUP

Chart No. 11

TRUCK & FORK LIFT DRIVER 550-11

Required to drive truck and fork lift equipment as assigned and to dispense gas and oil and maintain accurate records of the same; must possess valid licenses required.

MOTOR AND EQUIPMENT OILER 460-11

Required to lubricate numerical control machines, electric motor and other mechanical equipment.

EQUIPMENT OPERATOR 352-11

Required to operate tractor, stock train or other comparable equipment.

CLEANER SWEEPER 101-11

Required to perform the operations to maintain factory and general offices, washrooms, lavatories and other like areas in a clean and sanitary condition by use of necessary equipment. Senior employees in the classification will have a choice of working a permanent day shift or volunteering for the permanent off shift.

LABOURER 102-11

Performs ordinary labouring duties as required.

PAINT GROUP

Chart No. 12

SIGN WRITER 720-12

In addition to performing the duties of an Aircraft Spray Painter, must lay out, develop, sketch and paint any design from sketches, photographs, blueprints or other medium. Must determine the method to be used, design and make any necessary stencils or other aid.

AIRCRAFT SPRAY PAINTER 609-12

Requires the complete preparation of surfaces, including masking and priming, finishing and final spotting, touch up, lettering and stenciling of interior or exterior surfaces. Must be able to care for and apply silkscreen stencils. Must mix paints or dopes, work to written or verbal instructions, using blueprints for reference or identification of parts or specifications.

PARTS SPRAY PAINTER 402-12

Required to prepare, prime and paint (including finishing coat) all parts.

Prepares and primes major components, i.e. wings, flaps, ailerons, elevators, rudders and tailplanes.

Also required to assist the Aircraft Spray Painter by performing detail jobs, before and after the complete spray painting of an aircraft. This work includes cleaning, polishing, masking, including masking of insignia or decorations, hand touch-up of interior or exterior surface areas.

MOULDING GROUP

Chart No. 13

PLASTER PATTERNMAKER 621-13

Requires the making of plaster patterns using fettles and wood patterns, etc. Reproduce plastic moulds from wood or plaster patterns. Required to finish Drop Hammer Dies or moulds by grinding.

DIE CLEANER 515-13

Required to complete the final cleaning and grinding of case dies with the aid of lofted fettling templates or by any other acceptable method.

WRAPPING & CLEANING GROUP

Chart No. 14

WRAPPER 301-14

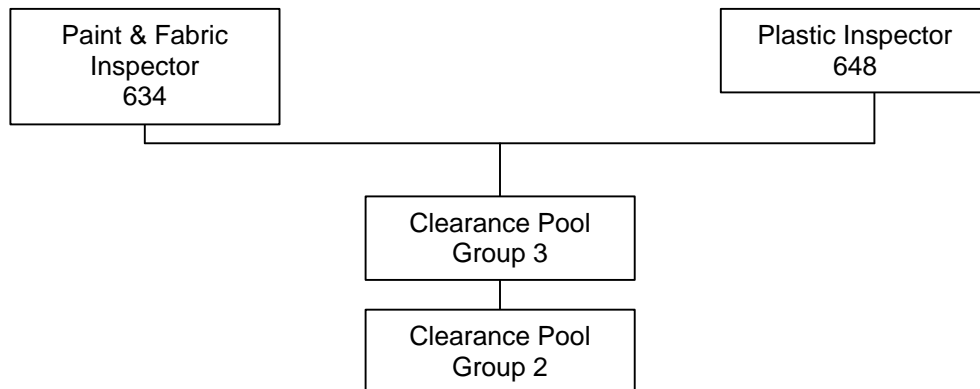

Required to package, wrap and hand process light parts, equipment and materials in accordance with established procedures and/or oral instructions.

CLEANER-SWEEPER 101-14

Required to perform the operations to maintain factory and general offices, washrooms, lavatories and other like areas in a clean and sanitary condition by use of necessary equipment. Senior employees in the classification will have a choice of working a permanent day shift or volunteering for the permanent off shift.

PLASTIC, PAINT & FABRIC INSPECTION GROUP

Chart No. 15

PAINT AND FABRIC SHOP INSPECTOR 634-15

Required to inspect and approve, using all inspection equipment necessary, the techniques and methods used in spray painting and preparation of parts for painting. Required to inspect all fabric and doping operations together with upholstery manufacture and installation. Must possess a knowledge of all protective treatments required in aircraft finishing and finally inspect a complete aircraft for satisfactory paint or finish application. Must have complete knowledge of procedure and be able to complete all necessary inspection reports and documents related to the foregoing.

Required to inspect and approve, using all inspection equipment necessary, the techniques and methods used in upholstery, fabric doping, repair and covering. Must be capable of inspecting primed details and carrying out the inspection and pressure tests of tanks (rubber). Must have a complete knowledge of procedure and be able to complete all necessary inspection reports and documents related to the foregoing.

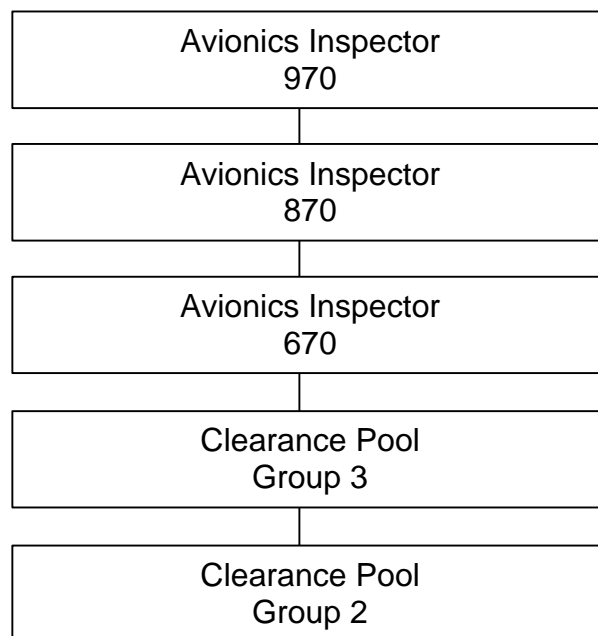

PLASTICS INSPECTOR 648-15

Required to inspect and approve all phases of plastic operations produced from production and/or experimental moulds, working to blueprints, sketches or Engineering Orders. Must be able to check mixture of resins and record same. Carry out humidity checks in plastic manufacturing area and complete records relating thereto. Check the preparation of plastic samples prior to submission to Laboratory and record same. Check oven temperatures, using correct equipment and record details. Must have a complete knowledge of procedure and be able to complete all necessary documents related to the foregoing.

Required to inspect and approve all operations necessary for manufacturing plastic parts made from production moulds. Must be capable of reading drawings, checking mixing of resins and making necessary records of such. Must have a complete knowledge of procedure and be able to complete all necessary inspection reports and documents related to the foregoing.

ELECTRONIC AND INSTRUMENT GROUP INSPECTION

Chart No. 16

AVIONICS INSPECTOR 970-16

Must be capable of inspecting, using necessary equipment, during all stages of overhaul, repair and installation of all types of radio, radar and microwave equipment. Must be capable of inspecting the operations and functionings of all the above equipment; also the installation and function of electronic and electrical instruments on the final assembly, overhaul and test flight operations. Must have a complete knowledge of inspection procedure and of Transport Canada radio procedure Re: operating licensed aircraft radio station. Be capable of compiling all necessary inspection records and documents.

Must be capable of inspecting, using necessary equipment, the function of complete radio, radar and electrical systems, circuits and components for satisfactory air operation. Also the installation and function of electrical and mechanical instruments on the final assembly, overhaul and test flight operations. Must have knowledge of Transport Canada Radio Procedure Re: operating licensed aircraft radio station. Be capable of compiling all necessary inspection records and documents. Is required to sign all relevant L-14 section on Military aircraft and complete necessary log book entries.

Must be capable of inspecting, using all necessary equipment, the testing, calibrating, repair, function and complete overhaul of electronic type instruments and systems. Must be capable of inspecting after trouble shooting, corrections and adjustments of electronic instrument flight snags, the construction and complete overhaul of instrument test equipment. Must be capable of inspecting and functional trial all types of aircraft instrument systems, including prototype installations. Must be able to work to verbal instructions and/or sketches from Engineering and complete all records in connection with inspection duties.

May be required to obtain a valid "E" license and be certified by aircraft type.

AVIONICS INSPECTOR I 870-16

Must be capable of inspecting, using necessary equipment, during all stages of overhaul, repair and installation of all types of radio, radar and microwave equipment. Must be capable of inspecting the

operations and functionings of all the above equipment; also the installation and function of electronic and electrical instruments on the final assembly, overhaul and test flight operations. Must have a complete knowledge of inspection procedure and of Transport Canada radio procedure Re: operating licensed aircraft radio station. Be capable of compiling all necessary inspection records and documents.

Must be capable of inspecting, using necessary equipment, the function of complete radio, radar and electrical systems, circuits and components for satisfactory air operation. Also the installation and function of electrical and mechanical instruments on the final assembly, overhaul and test flight operations. Must have knowledge of Transport Canada Radio Procedure Re: operating licensed aircraft radio station. Be capable of compiling all necessary inspection records and documents. Is required to sign all relevant L-14 section on Military aircraft and complete necessary log book entries.

Must be capable of inspecting, using all necessary equipment, the testing, calibrating, repair, function and complete overhaul of electronic type instruments and systems. Must be capable of inspecting after trouble shooting, corrections and adjustments of electronic instrument flight snags, the construction and complete overhaul of instrument test equipment. Must be capable of inspecting and functional trial all types of aircraft instrument systems, including prototype installations. Must be able to work to verbal instructions and/or sketches from Engineering and complete all records in connection with inspection duties.

AVIONICS INSPECTOR II 670-16

Must be capable of inspecting, using necessary equipment, radio, radar and electrical circuits and components, and diagnose faulty installations, circuits and/or mechanical hook up. Must be capable of compiling pre-overhaul strip reports on complete electrical installations or components (not including radio and radar) and functioning of electrical circuits. Must have complete knowledge of procedure and be able to complete all necessary inspection reports and documents related to the foregoing.

Must be capable of inspecting, using necessary equipment, the function and calibration of all types of aircraft instruments. Should

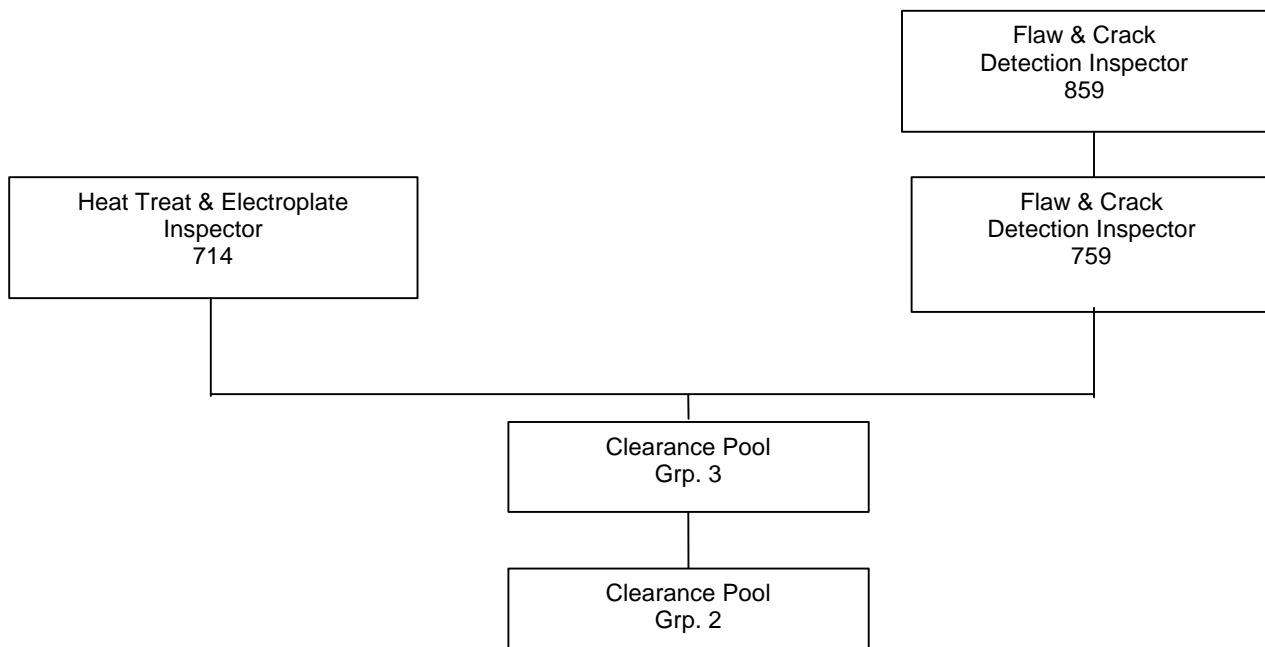

have basic electrical training. Must have a complete knowledge of procedure and be able to complete all necessary inspection reports and documents related to the foregoing.

Must be capable of inspecting, using necessary equipment, megger and continuity check of electrical services installed in the aircraft, excluding the functioning of radio and radar. Must be capable of doing progressive stage inspection of electrical and electronic wiring and installations, write strip reports and function test generator motors, etc. on the test stand. Must complete all necessary inspection reports and documents related to the foregoing and be able to write strip reports. Required to function test generator motors, etc. on test stand.

Required to inspect and test electrical harness, coding, wire gauges, etc. essentially detail inspection. Must be able to read simple schematic sketches covering wiring assemblies. Must have a complete knowledge of procedures and be able to complete all necessary inspection reports and documents related to the foregoing.

HEAT TREAT INSPECTION

Chart No. 17

FLAW AND CRACK DETECTION INSPECTOR 859-17

Must be capable of setting up and operating ultrasonic and other necessary equipment and materials or parts to be tested, in order to check for internal and external flaws. This includes selecting proper crystals, hooking up and calibrating equipment and positioning parts in a manner that will permit proper orientation of part with search unit.

Must be capable of operating ultrasonic equipment to check for internal and external flaws using prepared ultrasonic technique inspection instructions. Required to accept or reject according to material acceptance standards as a result of ultrasonic inspection findings.

Required to inspect and approve using all inspection equipment necessary, material defects by the Magnetic Particle Inspection method. This involves use of magnetizing and demagnetizing equipment.

Required to inspect and approve using all inspection equipment necessary, material defects by the Penetrant Inspection method.

All crack detection methods must have R.C.A.F. approval.

Must be capable of setting up the Eddy Current equipment used in detecting flaws in materials. Required to implement the necessary calibration of the equipment as required for testing, and selecting the proper probes for testing and to implement testing as per written techniques or as instructed by the NDT Level III.

Must interpret, evaluate and document test results.

Required to complete all necessary inspection reports and documents related to the fore mentioned and to have a complete knowledge of all required procedures.

Must pass certification examinations per each test method:

Penetrant Inspection

Magnetic Particle Inspection

Ultrasonic Inspection

Eddy Current Inspection

Must meet the vision requirements of the government specification.

Must assist in the training of less skilled workers.

FLAW AND CRACK DETECTION INSPECTOR 759-17

Must be capable of setting up and operating ultrasonic and other necessary equipment and materials or parts to be tested, in order to check for internal and external flaws. This includes selecting proper crystals, hooking up and calibrating equipment, and positioning part in a manner that will permit proper orientation of part with search unit.

Must complete all necessary inspection reports and documents related to the foregoing, and have a complete knowledge of procedure.

Must assist in the training of less skilled workers.

Must be able to pass ultrasonic inspectors certification tests.

Must be capable of operating ultrasonic equipment to check materials for internal and external flaws, using prepared ultrasonic technique inspection instructions. Required to accept or reject according to material acceptance standards, as a result of ultrasonic inspection findings.

Must complete all necessary inspection reports and documents related to the foregoing.

Must be able to pass ultrasonic inspectors certification tests.

Required to inspect and approve, using all inspection equipment necessary, material defects by the Magnetic Particle Inspection Method. This involves use of magnetizing and demagnetizing equipment. Zyglo and all crack detection methods must have R.C.A.F. approval.

Must complete all necessary inspection reports and documents related to the foregoing.

HEAT TREAT AND ELECTROPLATE INSPECTOR 714-17

Required to inspect and approve, using all inspection equipment necessary, all operations to procedures carried out in Heat Treat and Electroplating departments. Must possess knowledge of Heat Treat procedures and temperature controlling devices to verify them to be correct. Must be capable of carrying out periodic survey checks on plating equipment and recording instruments. Required to carry out complete checks on electroplating process procedures.

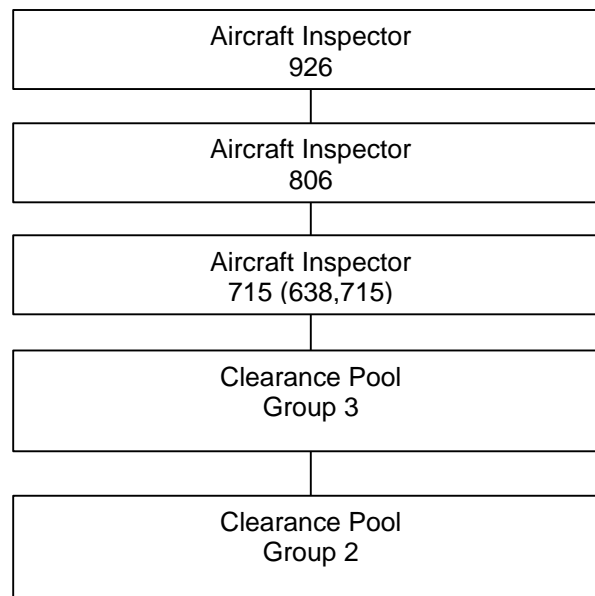

Must have a complete knowledge of procedures and be able to complete all necessary inspection reports and documents relating to the foregoing.

Required to inspect and approve, using all inspection equipment necessary, all operations to procedures carried out in the Heat Treat and Electroplating Departments. Must possess knowledge of heat treat procedures and temperature controlling devices to verify them to be correct.

Required to carry out complete checks on electroplating process procedures. Must have complete knowledge of procedure and be able to complete all necessary inspection reports and documents related to the foregoing.

AIRCRAFT INSPECTION GROUP

Chart No. 18

AIRCRAFT INSPECTOR 926-18

Must be capable of inspecting, using necessary equipment, all operations including functioning and engine run performed between the final assembly and acceptance of the aircraft by the customer. Aircraft Inspector Group 9 may be required to inspect any or all work performed in connection with the building of an aircraft from the early stages of development through to the final assembly. Must complete all necessary inspection reports and documents related to the foregoing and have a complete knowledge of procedure. This classification requires an "M" license.

AIRCRAFT INSPECTOR 806-18

Must be capable of inspecting, using necessary equipment, all operations including functioning and engine run performed between the final assembly and acceptance of the aircraft by the customer. Aircraft Inspector Group 8 may be required to inspect any or all work performed in connection with the building of an aircraft from the early stages of development through to the final assembly. Must complete all necessary inspection reports and documents related to the foregoing and have a complete knowledge of procedure. Must be capable of obtaining an "M" license should it be required.

AIRCRAFT INSPECTOR 715-18 (715, 638)

Must be qualified to inspect and approve final assembly and delivery of an airframe and in addition, must be able to inspect and approve the assembly, repair, overhaul (recondition) adjustment and function of hydraulic and pneumatic parts, assemblies and systems in a complete or partially completed aircraft. Inspect and approve the installation of propellers, power plants and accessories and other systems and services necessary to assemble a complete or partially completed aircraft except installation and functioning of radio, electronics, electrical and instruments. Must be qualified to inspect and approve sheet metal and sheet metal repairs on an aircraft or its components. Must be able to read and interpret drawings and compile Inspection Survey Reports. This classification applies only to line assembly and overhaul operations - not to apply to shops.

Required to carry out, using all inspection equipment necessary, the complete overhaul of aircraft gas turbines and piston engines during

and after complete overhaul. Requires the knowledge of current assembly, adjustments and method of testing, the correct erection of the component of a gas turbine or piston engine and includes the specified allowance for deterioration, wear, distortion, balancing of parts, etc. Must be able to follow drawing instructions, operation schedules and conversion charts. Required to carry out the complete testing of engine function after overhaul, including calibration and recording of engine performance on test run. Must complete all necessary inspection reports and documents related to the foregoing, and have a complete knowledge of procedure.

Must be capable of inspecting, using necessary equipment, aircraft details, sub-assemblies and components to drawing, and check to functional and test specification requirements. Must be familiar with processes necessary to produce the foregoing parts and have a good knowledge of aircraft material heat treat conditions. Must have complete knowledge of procedure and be able to complete all necessary inspection reports and documents related to the foregoing.

Using all inspection equipment necessary, required to carry out a complete final inspection and function of engine accessories during strip, overhaul and complete build to authorized schedules, but is not required to function engine on test run. Must be capable of inspecting and approving test equipment, gauges and test rigs at required intervals. Must be capable of carrying out inventory checks on incoming engines and accessories for overhaul and repair. Must have a knowledge of approved methods of dispatch for shipment including inhibiting, cocooning and packing and be able to complete all necessary inspection reports and documents related to the foregoing.

Required to inspect and approve, using all inspection equipment necessary, the complete power plant prior to and after installation, including propellers and other ancillary equipment. Must be familiar with manufacturer's repair schemes on minor repairs and be capable of following installation drawings and specifications. Must have an elementary knowledge of sheet metal work with respect of cowlings. Must be capable of completing all inspection reports related to the foregoing.

Required to inspect and approve the overhaul and functioning of all hydraulic, pneumatic and vacuum units. Must be capable of

compiling strip reports. Must be thoroughly familiar with test procedures, installation of piping systems as laid down in specifications. Must complete all necessary inspection reports and documents related to the foregoing, and have a complete knowledge of procedure.

Must be capable of inspecting, using necessary equipment, aircraft details, sub-assemblies and components to drawing, and check to functional and test specification requirements. Must be familiar with processes necessary to produce the foregoing parts and have a good knowledge of aircraft material heat treat conditions. Must have complete knowledge of procedure and be able to complete all necessary inspection reports and documents related to the foregoing.

Must be capable of inspecting, using necessary equipment, the assembly of a power plant at specified stages prior to installation in the aircraft. Must have an elementary knowledge of sheet metal work with respect to cowlings, and is required to complete necessary inspection records.

Must be capable to inspect, using necessary equipment, aircraft details and sub-assemblies in any stage of operation, and be familiar with the processes necessary to produce foregoing parts. Must have complete knowledge of procedures and be able to complete all necessary inspection reports and documents related to the foregoing.

PARTS INSPECTION

Chart No. 19

MATERIALS INSPECTOR 635-19

Must be capable of inspecting, using necessary equipment, aircraft raw materials with regard to condition, specification and identification; also aircraft parts, assemblies and components with regard to modification status, stage of completion and evidence of previous inspection. Must be familiar with all relevant packing methods and specification. Must have a complete knowledge of procedure and be able to complete all necessary inspection reports and documents related to the foregoing.

Must be capable of inspecting, using necessary equipment, aircraft standard parts, raw materials and proprietary items approved for aircraft use. Must also visually check components for evidence of previous inspection and have a basic knowledge of packing requirements. Must have a complete knowledge of procedure and be able to complete all necessary inspection reports and documents related to the foregoing.

CLEARANCE POOLS

Chart No. 20

SCHEDULE "E"

A GLOSSARY OF WORDS AND PHRASES

The following words and phrases are given definition and meaning to clearly indicate the common and consistent interpretation to be placed on them by all persons using the description.

ABILITY

A sufficiency of skill or competence to satisfactorily perform the work required of a job.

ASSIGN

To place an employee in a specific Job Classification.

BUMPING

The adjustment process by which an employee declared surplus in his/her job classification because of work reduction, may assert his/her seniority rights to displace an employee in another Job Classification.

EMERGENCY

A condition that is unforeseen and/or is beyond the control of the Company that requires immediate action and where there is no qualified Bargaining Unit personnel available to perform such emergent work.

Generally, the action taken is to prevent damage to Company property or injury to personnel.

EXPERIMENTING

In the event that it is necessary to do experimenting, the District Union Representative shall be notified and a member of the Bargaining Unit in the classification affected will be present during the period of experimentation and may be called upon to assist in the experimentation.

FLOW CHART

A diagram or chart which indicates, by connecting lines, the job classifications through which an employee may seek promotion or exercise his/her bumping rights when his/her job is affected by reduction of the work force.

GRIEVANCE

A real or fancied cause for complaint for which redress is asked.

LAYOFF

Termination of an employee's work due to work reduction and under which the employee possesses specific rights of recall to work.

LEADHAND

A Bargaining Unit worker who, because of his/her extensive job knowledge and experience is able to lead and assist a group of employees from his/her own or like job classification, for which he/she is paid a premium rate.

The leadhand shall be assigned to a classified job and paid the additional premium.

The leadhand does not possess supervisory or disciplinary power, nor will he/she be used to progress or expedite parts or assemblies throughout the plant, nor shall he/she be required to perform clerical duties outside of his/her normal classification.

PERSISTENT LATENESS OR ABSENTEEISM

To go on being late or absent after being warned to desist from the practice.

PREFABRICATED

A part(s) and/or assembly that has already been constructed from raw material according to drawings, sketches and schematic

drawings, verbal instructions, or process cards that may or may not require additional alterations to become a finished part(s) or assembly.

PROMOTE

To assign an employee from one Job Classification to another Job Classification bearing a higher rate of pay.

REPAIR

To restore a part or assembly to its original state or utility after it has been damaged by accident or by wear. This does not have the same meaning as "Rework".

REWORK

Means to undo and then do over work previously accomplished in order to correct errors or make it conform to changed specifications. Rework can be simple or difficult according to its nature and variety, therefore, the level of difficulty intended is to be determined from the job assignment. (See repair.)

SURPLUS EMPLOYEES

An employee who remains in the work force but is removed from his/her job classification due to a work reduction and applies his/her seniority to another job classification.

SUSPEND

Temporary termination of an employee's work as a disciplinary measure.

TRANSFER

To change an employee from one work area to another without change in Job Classification or pay rate. The reason for such a change will be explained to the employee and the Union and will be for non-disciplinary purposes.

Senior employees will be given preference if there are sufficient employees who have the skill and knowledge of the work to be performed.

During the first week of January and July, the Company will canvass employees who wish to transfer to different work areas. Senior employees having selected that particular work area will be transferred. Should there not be sufficient employees, the most junior employee within the crew identified by the Company will be transferred.

The canvass period will occur over five (5) working days. The Company will ensure that all employees appear on the matrix in their current work area.

A transfer shall occur when a bargaining unit employee is moved between any of the following locations:

- (a) Plant and Plant.
- (b) Component Assembly and Final Assembly.
- (c) Sub-Assembly and Sheet Metal Shop or Fitting Shop.
- (d) One Shop and another Shop, e.g. Sheet Metal Shop and Fitting Shop.
- (e) Final Assembly – Dash 8 400 and Final Assembly – Global Express.
- (f) A Shop and the Line Assembly & Overhaul Operations.
- (g) One Stores and another Stores.

It is understood that a move by an employee from one Bay to another Bay is a transfer.

Within the context above, it is recognized that there are specific exclusions which are as follows:

- (i) In the Plant where he/she normally works, an employee may be assigned to another area to complete or rework an operation usually performed in the employee's regular work area. On completion of that specific operation, the employee will return to his/her regular work area for further work assignments.
- (ii) A transfer for Tool and Die Makers S-301 and Tool Inspectors S-304 occurs only when an employee in these

classifications is moved between the Development Shop and the Manufacturing Operation or vice versa. All other moves of employees in these classifications are work assignments, and not transfers.

- (iii) Maintenance employees may be assigned work in any part of the Company Operation without being transferred.
- (iv) Flight Service Engineers 802-3, 922-3 and Aircraft Inspectors 806-18, 926-18 may perform their work anywhere on the Line Assembly and Overhaul Operations in the Plant where the employee normally works. All other moves are transfers.

Due to the absence of bargaining unit employees, the Company may move such employees as it deems necessary without the above conditions applying, for a maximum of fifteen (15) working days, and will inform both the employees affected and the Union verbally.

In all incidents of a transfer occurring, written notice will be given to the Union, identifying the employee being transferred, when the transfer occurs, where the transfer is from, and where the transfer is to, except in those situations where the conditions have been mutually agreed to by the Company and the Union.

TEMPORARY TOOLING - SHOP AID

Means that a worker recognizes the need for, and improvises a mechanical aid of temporary nature which assists in the completion of work with greater exactness, rapidity and/or facility.

WAGE GROUP

A number of Job Classifications which draw the same rate of pay.

APPENDIX I

SKILLED TRADES

1. The purpose of this Appendix is to define trades and classifications, wage rates, seniority provisions and all other matters dealing with Skilled Trades work covered by this Agreement. Work covered by the Appendix shall be performed only by the Trades and Classifications as listed below.
2. The provisions of the general Agreement shall apply to employees in the recognized trades and classifications listed below, except as altered by the provisions of this Appendix I.
3. The Skilled Trades covered by this Appendix constitute those trades for which an apprenticeship is usually served together with those classifications which form a part of an apprenticeable trade. These are as follows:

GROUP III

TRADES

- S-301 Tool & Die Maker
- S-302 Model & Mock-up Patternmaker-Wood

CLASSIFICATIONS

- S-303 Tool Jig Borer Operator
- S-304 Inspector - Tool
- S-305 Inspector - Standard Room
- S-306 Inspector - Metrology
- S-309 Maintenance Electrician

GROUP II

TRADES

- S-204 Steam-Pipefitter & Plumber-
Maintenance & Construction
- S-208 Machine Repairman

S-209	Cutter Grinder-Tool
S-210	Mechanic - Auto, Garage
S-211	Mechanic - Air Conditioning and/or Refrigeration
S-215	Machine Parts Inspector

CLASSIFICATIONS

S-202	Machine Operator-Toolroom - All-round
-------	---------------------------------------

GROUP I

TRADES

S-102	Welder-Maintenance & Construction
S-103	Metal Worker-Maintenance & Construction
S-104	Carpenter & Cabinet Maker-Maintenance & Construction
S-105	Painter-Maintenance & Construction

CLASSIFICATIONS

S-107	Operator-Lathe-Tool
S-108	Operator-Milling-Tool

STATIONARY ENGINEER GROUP

TRADES

S-04	Stationary Engineer 2nd Class
------	-------------------------------

CLASSIFICATIONS

S-03	Stationary Engineer 3rd Class
S-02	Stationary Engineer 4th Class

4. A journeyperson in any of the designated Skilled Trades shall mean any person who:
- has served a bona fide apprenticeship of four (4) years - 8000 hours - and possesses proof of such apprenticeship service, or

- (b) holds a recognized C.A.W. journeyperson card in the trade in which he/she claims recognition, or
- (c) has eight (8) years practical and general experience covering all phases laid down in the Apprenticeship Course applicable to the trade in which he/she claims journeyperson status and possesses ample proof of such experience.

5. Entry into the Skilled Trades shall be restricted to persons:

- (a) who qualify as journeypersons under the provisions set forth in the immediately preceding paragraphs, or
- (b) who qualify for journeyperson status through any apprenticeship program which may be negotiated by the parties, or
- (c) who provide documents at date of hire proving their claim to journeyperson status both to the Company and the Union Skilled Trades Committeeman, or
- (d) who provide documents within fifteen (15) working days of being promoted from any classification.

6. **SKILLED TRADE SENIORITY**

- (a) Employees who are in Skilled Trades or have recall rights thereto as at the date of this Agreement shall retain their seniority established at that date and continue to accrue seniority thereafter.
- (b) New trade journeypersons shall have seniority in their trade only as from the date of entry.
- (c) There shall be no crossing between Skilled Trades as designated in this Appendix, except as set forth at (d) below.
- (d) An employee in Group II or Group I on the Toolroom Flow Chart who is qualified in the trade of Machine Repairperson may apply for a vacancy in that trade. However, should he/she be accepted in the new trade, he/she shall retain for fifteen (15) working days his/her seniority rights in his/her previous toolroom classification. After fifteen (15) days, he/she shall relinquish his/her toolroom seniority rights and shall be regarded as having entered the trade of Machine Repairperson on the first day of his/her commencing work in that trade.
- (e) An employee already in a classification within a skilled trade who is accepted for promotion to another classification within

that trade and finds himself/herself unable to perform the duties of the new job or is found unsatisfactory by supervision, shall be returned to his/her former classification under Clause 20.03 of this Agreement.

- (f) Any Skilled Trades employee who is accepted for promotion into, or who displaces another employee at the time of reduction of the work force from a classification linked by flow lines on his/her flow lines on his/her flow chart shall be credited with accrued skilled trades seniority in his/her new classification after fifteen (15) working days in such new classification. In the interim his/her seniority shall remain in the classification from which he/she had moved.
- (g) For the purpose of this Agreement, all the classifications on the Tool Room flow chart, except Inspector Metrology S-306, shall be regarded as part of the trade of Tool & Die Maker.

Note: Standards Inspector S-306 will be changed to Metrology Inspector S-306.

- (h) The trade of Electrician and the classification of Maintenance Electrician shall together be regarded as constituting a separate flow chart.
- (i) The trade of Stationary Engineer 2nd Class and the Classes of 3rd and 4th shall together be regarded as constituting a separate flow chart.
- (j) Notwithstanding the provisions of any other part of this Agreement, no employee in Skilled Trades may displace an employee on another flow chart at the time of layoff.
- (k) Tool & Die Makers S-301 and Tool Room Machine Operator - All Round S-202 may apply on Job Posting for a Tool Cutter Grinder S-209 with date of entry seniority.

7. **SUPPLEMENTARY HELP**

This section deleted

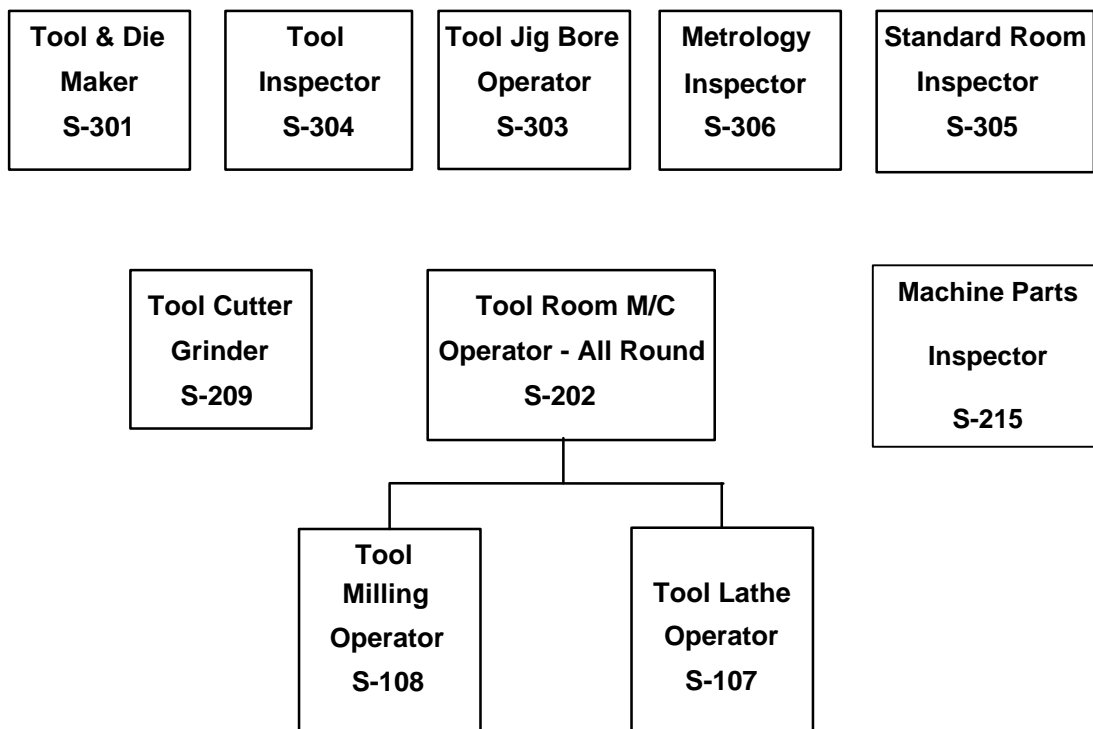

8. **LAYOFF AND RECALL**

In the event of work reduction, layoff shall be effected in the following manner.

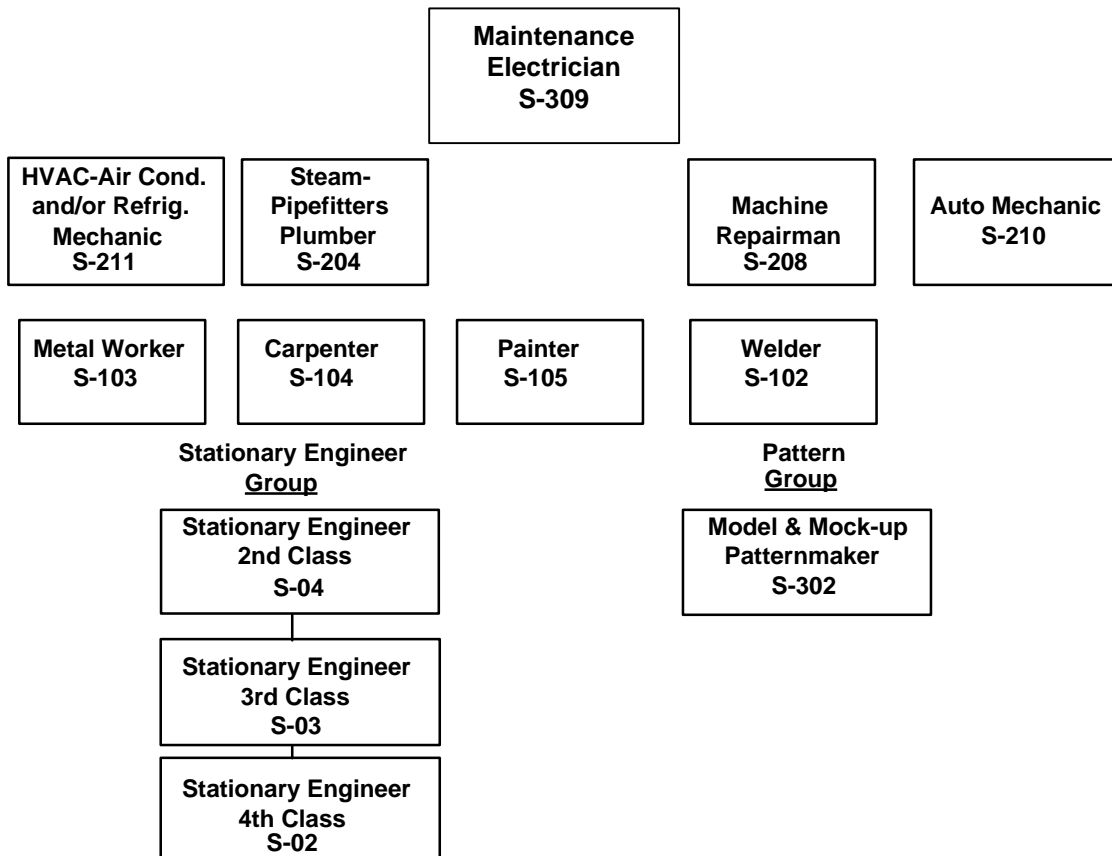

- (a) Employees on temporary assignment under Article 7 shall be returned to the Job Classification in which their seniority rights

- are vested or, if obtained from outside sources, can elect transfer to Clearance Pools 3 or 2 in accordance with their seniority rights.
- (b) Trade Journeypersons shall be laid off in inverse order of their trade seniority standing, and as illustrated in the Layoff Chart. When work is again available, trade journeypersons shall be called back in inverse order of their layoff.

13.01 **APPRENTICESHIP STANDARDS**

The following standards of apprenticeship covering the employment and training of apprentices in the trades included in these standards have been agreed to by the Company and the National Automobile, Aerospace, Transportation and General Workers Union of Canada, CAW and its Local Union 112.

13.02 **PURPOSE**

The purposes of these standards is to make certain that extreme care is exercised in the selection of applicants and that the methods of training are uniform and sound, with the result that they will be equipped for profitable employment, and to further the assurance to the Company of proficient workmen at the conclusion of the training period.

13.03 **DEFINITIONS**

- (a) The term "Company" shall mean de Havilland Inc. and the Bombardier Regional Aircraft Division.
- (b) The term "Union" shall mean the duly authorized representatives of the National Automobile, Aerospace, Transportation and General Workers Union of Canada, CAW and its Local Union 112.

- (c) "Registration Agency" on labour standards shall mean the Industrial Training Branch, Ontario Department of Labour. "Registration Agency" for the apprentice as a student, covering related instruction, shall mean ordinarily the North York Board of Education.
- (d) "Apprenticeship Agreement" shall mean a written agreement between the Company and the person employed as an apprentice, and his/her parent or guardian if he/she is a minor which agreement or indenture shall be reviewed by the Joint Apprenticeship Committee and registered with the Registration Agencies.
- (e) "Apprentice" shall mean a person who is engaged in learning and assisting in the trade to which he/she had been assigned under these standards and who is covered by a written agreement with the Company providing for his/her training in accordance with these standards of apprenticeship and who is registered with the Registration Agencies.
- (f) "Committee" shall mean the Joint Apprenticeship Committee organized under these standards.
- (g) "Supervisor of Apprentices" shall mean the person employed as such or the person assigned the responsibility by the Company to perform the duties outlined in these standards of apprenticeship.
- (h) "Standards of Apprenticeship" shall mean this entire document, including these definitions.

13.04 **APPLICATION**

Application for apprenticeship will be received by the Human Resources and Industrial Relations Department of the Company from applicants considering themselves eligible under the program of training. These applications of prospective apprentices will be reviewed by the Joint Apprenticeship Committee; however, it is understood that the final selection and hiring of the apprentices is the sole responsibility of the Company.

13.05 **APPRENTICESHIP ELIGIBILITY REQUIREMENTS**

In order to be eligible for apprenticeship under these standards the applicant must meet the following qualifications:

- (a) He must have a junior matriculation or its educational equivalent.

- (b) Notwithstanding other provisions of this Agreement, any employee, other than those classified as apprentices, may file an application for an opening in the apprentice program. If such applicant meets all of the requirements for apprentice training applicable to prospective apprentices, his/her application will be considered with other applicants for the apprentice program. Where the qualifications of the employee-applicant and non-employee applicant are approximately equal, the employee-applicant will be given preference. An employee accepted for apprentice training shall have his/her wage rate adjusted to the starting rate of the apprentice rate schedule.

Exceptions to these requirements may be made by the Company upon the recommendation of the Committee for applicants who have unusual qualifications.

It is understood that all applicants must successfully pass the Company's regular employment requirements.

13.06 **CREDIT FOR PREVIOUS EXPERIENCE**

At the discretion of the Committee, credit for prior experience in the applicable trade may be given after evaluation. Review will be made after completion of apprentices' probationary period.

13.07 **TERM OF APPRENTICESHIP**

The term of apprenticeship shall be as established by these Standards of Apprenticeship in accordance with the schedule of work processes and related instruction as outlined in the Appendix attached hereto.

13.08 **PROBATIONARY PERIOD**

The first five-hundred (500) hours of employment for every apprentice shall be a probationary period. During this probationary period the apprenticeship agreement with the apprentice may only be cancelled by the Company after advising the Committee. The registration agencies shall be advised of such cancellations.

13.09 **HOURS OF WORK**

Apprentices shall work the same hours and be subject to the same conditions regarding overtime rates as the journeypersons

employed by the Company. In case an apprentice is required to work overtime, he/she shall receive credit on the term of apprenticeship for only the actual hours of work. Apprentices may work overtime hours providing that the proper ratio of apprentices to journeypersons established by these standards is maintained.

13.10 **RATIO**

The ratio of apprentice to journeyperson shall not exceed one (1) apprentice to each eight (8) journeypersons in the trade in which men are apprentices. (e.g. one (1) toolmaker apprentice to eight (8) toolmakers). If layoffs become necessary, apprentices shall be laid off to maintain the same ratio.

13.11 **DISCIPLINE**

The Committee shall have the authority to recommend discipline and/or cancellation of the apprenticeship agreement of the apprentice to the Company at any time for cause such as:

- (a) inability to learn;
- (b) unreliability;
- (c) unsatisfactory work;
- (d) lack of interest in his/her work or education;
- (e) improper conduct;
- (f) failure to attend classroom instruction regularly.

13.12 **WAGES**

Apprentices in each of the trades covered by these standards shall be paid a progressively increasing schedule of wages as follows:

1st 1,000 hrs. - not less than 65% of the journeyperson's wage rate
2nd 1,000 hrs. - not less than 70% of the journeyperson's wage rate
3rd 1,000 hrs. - not less than 75% of the journeyperson's wage rate
4th 1,000 hrs. - not less than 80% of the journeyperson's wage rate
5th 1,000 hrs. - not less than 85% of the journeyperson's wage rate
6th 1,000 hrs. - not less than 90% of the journeyperson's wage rate
7th 1,000 hrs. - not less than 95% of the journeyperson's wage rate
8th 1,000 hrs. - not less than 95% of the journeyperson's wage rate

The apprentice shall also receive the annual improvement factor and all cost of living increases that are accorded all other plant employees, where such contract provisions exist.

Hours spent in classroom instruction shall not be considered hours of work in computing overtime.

Apprentices who are given credit for previous experience shall be paid, upon receiving such credit, the wage rate for the period to which such credit advances them. This shall not be made retroactive.

When an apprentice has completed 8,000 hours of training and after recommendation for his/her journeyman's certificate by the Committee, he/she is to receive not less than the minimum rate to skilled journeymen in the trade which he/she has served his/her apprenticeship provided an opening exists and he/she is selected for employment as a journeyman.

Apprentices shall not be paid for attendance at night school. If an applicant is required to attend a day school course in addition to his/her night school training, he/she shall receive the difference between the pay appropriate to his/her apprenticeship period and any compensation paid to him/her by any government agency.

13.13 **ACADEMIC TRAINING**

Apprentices are required as a condition of apprenticeship to receive and attend classroom instructions at a technical or similar school. The schedule of work processes and related instructions are attached to this apprenticeship plan. Modification may be made to the schedules by the Committee, subject to final approval by the Company. The Company shall notify the Registration Agencies of such changes. Credit for time spent in academic training is given in the calculation of the hours of apprenticeship served and shall be applied against the period total. A refund of the tuition fee will be made to the apprentice provided he/she attends at least seventy-five percent (75%) of the class during the season and receives a passing grade. The student apprentice is required to furnish each month, proof of his/her attendance at the school.

13.14 **JOINT APPRENTICESHIP COMMITTEE**

There is hereby established a Joint Apprenticeship Committee as defined in Article 13.03. This Committee shall be composed of four

(4) members, two (2) representing the Company and two (2) journeypersons employees (as defined in Clause 4 of Appendix I of this Agreement) representing the Union.

The Chair shall be the Supervisor of Apprentices. The Committee shall meet once a month unless otherwise agreed. It shall be the duty of the Committee:

1. To see that each prospective apprentice is interviewed and impressed with the responsibilities he/she is about to accept as well as the benefits he/she will receive.
2. To accept or reject applicants for apprenticeship subject to final approval by the Human Resources and Industrial Relations Department of the Company as provided in Article 13.04.
3. To hear and decide on questions involving apprentices which relate to their apprenticeship.
4. To determine whether the apprentice's scheduled wage increase shall be withheld in the event that he/she is delinquent in his/her progress.
5. To offer constructive suggestions for the improvement of training on the job.
6. To certify the names of graduate apprentices to the Registration Agencies and recommend that a Certificate of Apprenticeship be awarded upon satisfactory completion of the requirements of apprenticeship established herein. No certificate will be issued by the Registration Agencies unless recommended by the Committee.
7. To review the Supervisor's monthly report on each apprentice.
8. In general, to be responsible for the successful operation of the apprenticeship standards in the plant and the successful completion of the apprenticeship by the apprentices under these standards.

13.15 **SUPERVISION OF APPRENTICES**

Apprentices shall be under the general direction of the Supervisor of Apprentices and under the immediate direction of the Supervisor of the department to which they are assigned. The Supervisor of Apprentices is authorized to move apprentices from one department to another, in accordance with the predetermined schedule of work training. Where an apprentice is retained unavoidably on a scheduled work process for a period longer than the maximum time scheduled for such work process, an explanation shall be sent to the

Supervisor of Apprentices who will place it before the Committee for their review at the next meeting.

The Supervisor of Apprentices or an individual charged with this responsibility in consultation with the Committee, shall prepare adequate record forms to be filled in by the Supervisor under whom the apprentices receive direction, instruction and experience. Supervisors shall make a report at least every thirty (30) days to the Supervisor of Apprentices on the work and progress of the apprentices under their supervision. These reports shall be submitted to the Committee for review.

13.16 **SENIORITY**

The apprentices will exercise their seniority in their own group. For example, if there are four apprentices in the trade such as "Toolmaker" and a reduction in this number is required due to lack of work, the first hired or classified as an apprentice shall be the last laid off and the last laid off shall be the first to be reinstated.

Upon satisfactory completion of the apprenticeship program the apprentice will be given seniority equal to 50% of time spent as an apprentice but not more than two (2) years.

Notwithstanding the provisions of the Collective Agreement, dated June 28th, 1997, between the Company and the Union, of which these Apprentice Standards shall henceforward be a part, an employee with seniority who is selected for an apprenticeship shall be permitted if affected by layoff during the first five hundred (500) hours of apprenticeship, to return to his/her former job classification with the same seniority date that he/she held immediately prior to becoming an apprentice.

After five hundred (500) hours as an apprentice, an apprentice shall have as his/her seniority date the date he/she was accepted as an apprentice and shall not acquire or retain seniority rights to bump into any classification outside that of apprentice.

Similarly, during the first five hundred (500) hours, an employee with seniority shall be permitted, if in the opinion of the Apprenticeship Committee and/or the Company, the employee has failed to demonstrate the ability necessary to complete the Apprenticeship Program, to return to his/her former classification with the same seniority date that he/she held immediately prior to becoming an apprentice.

13.17 **APPRENTICESHIP AGREEMENT**

"Apprenticeship Agreement" shall mean a written agreement between the Company and the person employed as an apprentice and his/her parent or guardian (if a minor), which agreement shall be approved by the Supervisor of Apprentices and registered with the Registration Agencies.

The following shall receive copies of the apprenticeship agreement.

1. The Apprentice
2. The Company
3. The Committee
4. The Registration Agencies
5. The Local Union
6. The National Automobile, Aerospace, Transportation and General Workers Union of Canada, C.A.W.

13.18 **CERTIFICATE OF COMPLETION OF APPRENTICESHIP**

Upon completion of the apprenticeship under these Apprenticeship Standards, the Supervisor of Apprentices will recommend to the Industrial Training Branch, Ontario Department of Labour, that a certificate signifying completion of the apprenticeship, be issued to the apprentice. No certificate will be issued by the Apprenticeship Branch, Ontario Department of Labour unless recommended by the Committee.

13.19 **SCHEDULE OF WORK PROCESS**

The schedule of work processes and related training shall be established by the Committee for the following trade:

Toolmaker

The Committee shall also establish work processes and related training for such other trades in which the Company may subsequently decide to employ apprentices. The Company will notify the Committee when it is prepared to consider additional apprenticeship trades.

Modification may be made to any schedule of work processes by the Committee, subject to final approval by the Company. The Skilled Trades Branch of the C.A.W. may request further discussion upon any such changes within thirty (30) days of such changes being introduced. The Company shall notify the Registration Agencies of such changes.

13.20 **TOOLING/TEXTBOOK REIMBURSEMENT**

The apprentice shall be required to provide himself with a toolbox and a complete set of tools of his/her trade. Such tools can be obtained progressively through the Company via payroll deduction but not exceeding an indebtedness of \$100.00 at any given time. Upon satisfactory completion of his/her apprenticeship, the apprentice shall be paid up to \$400.00 reimbursement of cost of tools and text books purchased.

14.00 **CANADIAN SKILLED TRADES COUNCIL**

The Company agrees to deduct Canadian Skilled Trades Council dues as may be adopted by the Canadian Skilled Trades Council upon receipt of individual authorization cards signed by the employee at the time of hire.

First deduction to be made from the employees from the first pay received after completion of the probation period. Future deductions to be made in January of succeeding years, or upon completion of one (1) month's work in that calendar year.

15a. **JOB DESCRIPTIONS**

The guidelines of discussion shall be the job descriptions applicable to Skilled Trades, the C.A.W. Book of Job Descriptions of the Skilled Trades and the C.A.W. Apprenticeship Standards except where a mutually agreed change has been made in a particular job description. All reference to Numerically Controlled or Tape Controlled machines will be deleted from these guidelines since this is the subject matter for discussion by the Committee on New Technology.

The preparation of Job Descriptions for Skilled Trades shall be the responsibility of the Committee as referred to in the first paragraph of "Lines of Demarcation".

15b. **LINES OF DEMARCATION**

The Chair of the Plant Committee may request the de Havilland Employee Relations Department to arrange a special meeting to hear the skilled trades representative's views concerning problems in connection with work assignments of employees in skilled trades classifications and to discuss the matter. Such special conference will be attended by the skilled trades Committeeperson, a representative of the section of the Management organization in charge of the skilled trades activity involved, and a representative of the Human Resources and Industrial Relations Department. The Canadian Director of the National Union or his/her specified staff representative may attend the conference.

If the matter involves the appropriateness of the work assignment of employees in skilled trades classifications and is not resolved, the Skilled Trades Representatives shall reduce the matter to writing, setting forth all the facts and circumstances surrounding the case and the position taken by the Union representatives. The statement will be presented to the de Havilland Labour Relations Manager. Within a reasonable period of time thereafter, the Company will give the Union a complete statement of the facts of the case and the reasons for its position. Within thirty (30) days of such delivery the Union shall notify the Company that the case has been withdrawn, or that the Company and Union statements have been forwarded to the Canadian Director of the National Union or his/her specified representative.

If in its judgment the matter warrants appeal, the National Union shall within thirty (30) days of receipt of the statements, request a conference to discuss the matter with the above Skilled Trades Committee by written notice to the Employee Relations Manager of the Company.

The Skilled Trades Committee shall attempt to resolve the matter. If unable to resolve the case within thirty (30) days of the appeal, the case may be withdrawn without prejudice by the Union or may be appealed to an arbitrator for final and binding decision. Such arbitrator shall be a person who is technically competent to deal with such a problem and will be selected under Clause 15.04 of the general Agreement.

16.00 **GENERAL PROVISIONS THAT ARE NOT APPLICABLE
TO SKILLED TRADES**

- a) Article 19 will not apply.
- b) Letter of Intent #35 – Overtime Guidelines will not apply.

LETTERS OF INTENT

1. AIRCRAFTER

This will authorize the Union to make monthly distribution of the Union Newspaper "The Aircrafter". So long as the conditions are carefully observed, the Company has no objection to the paper being brought into the plant on the day of circulation and distributed at the time clocks between 4:55 and 5:00 p.m.

This authority does not cover distribution of any other material than the "Aircrafter".

2. AIRCRAFT ASSEMBLER No. 590 - RATIO

A ratio of one (1) Mechanic (Sheet Metal No. 618, Bench Fitter No. 605) to eleven (11) Assemblers, Aircraft No. 590 shall be maintained and assigned on a plant wide basis as needed.

3. ELECTIONS

The Company agrees that during the term of this Agreement, the annual election of Officers of Local 112 and election of delegates to the Canadian Labour Congress, the C.A.W. Canadian Council and the C.A.W. Constitutional Convention shall be conducted on Company premises under the following conditions:-

(a) Actual voting shall take place during lunch period or prior to commencement of a shift.

(b) The Chair of the Election Committee or his/her alternate will be allowed time off to arrange, conduct and complete in-plant elections.

It is also understood that upon request the Company will grant time off for the members of the Election Committee. All time required by the members of the Election Committee shall be at the Union's expense.

(c) It is understood that all By-Elections will be held by Election Committees selected from the individual plants wherein they are to be held. It is further understood that all such elections shall take place out of working hours, e.g. before commencement of shift and during lunch period.

- (d) The Union will be given clearance for retired employees serving on the Election Committee to be on the plant premises during in-plant elections for the purpose of conducting such elections. Such persons will be subject to visitors' regulations.

4. **GATE PASSES**

The Company will continue to grant passes to employees requesting to leave the plant for personal reasons. Abuse of this privilege by individuals or groups, however, could cause a closer review and control of the privilege with regard to those individuals.

5. **METRIC TOOLS**

The parties agree that if metric measuring is implemented in de Havilland and the Government provides financial assistance through the Company for employees to purchase or obtain job related personal metric tools, then the Company will discuss with the Union the administrative assistance or mechanism required for the employees to purchase such tools. If such government financial assistance is available to individuals directly, there will be no required Company involvement. In neither case will there be a direct cost to the Company for the tools.

6. **PAINT SHOP - SHOES**

In the following areas such as Cincinnati Millicron 5 axis vertical mills, the Line vertical 3 axis milling machines, Marwin vertical 3 axis milling machines, Paint Shop and Oiler, Motor & Equipment (Gr. 460) employees regularly assigned to perform work will be provided with footwear which is suitable for the particular work requirement. When an additional pair of safety shoes are required because of wear and tear, the Company will replace the safety shoes. Such employees will show his/her worn or torn out shoes to the shoe truck vendor who will provide a suitable replacement for the particular work environment at no cost to the employee, to a maximum of three (3) replacements per calendar year.

7. **PHYSICALLY HANDICAPPED EMPLOYEES**

The Company will continue the practice of permitting physically handicapped employees the privilege of early clock out at all its facilities, where justified, to be determined by the Company doctor, and his/her decision will not be overruled by the Company.

8. **POSTING OF NIGHT SHIFT NOTICES**

The Company will post such notices on the Monday preceding the week the changes take place. It is recognized that there could be the odd situation or change that might affect the posting.

9. **PRESIDENT OF LOCAL 112**

It is agreed that whenever the President of Local 112 is on Leave of Absence paid by the Union, he/she will have access to all plants of the Company's operation covered by this Agreement. He/she shall first notify the Director of Industrial Relations or his/her designee before proceeding into the plants.

10. **RECOGNITION OF UNION OFFICERS**

- (i) In the application of Article XXVI, the parties agree that Committeepersons shall be the first to be recalled if surplus or on layoff during their term of office, as soon as work becomes available that they are entitled to under Article XXVI in the zone in which they hold representation.

When a Committeeperson ceases to hold office he/she will be permitted to exercise his/her seniority into the classification he/she previously declined during his/her term of office in order to remain as a Union Officer.

- (ii) In the application of Article XXVI, the Union Officers covered by this Article shall head the seniority list during their term of office in their zone of representation.

11. **SAFETY**

1. All accidents of a serious nature to be investigated by both Union Safety Chair and Safety Supervisor at time of accident.

2. Monthly inspection of all plants by Union Safety Chair and Safety Supervisor.
3. When measures or samples of the occupational environment are being taken, the Union Safety Chair shall have the right to participate in and observe the measurements or sampling.
4. National Union professional health and safety staff shall, with reasonable advance notice, have access to all Company facilities where Union members are employed, for purposes of health and safety inspections and surveys.
5. The Company agrees to supply all new Production Process Standards (P.P.S.) related to the use of chemicals, compounds and materials used in the Company's operations on the production of plastic processes, to the Chair of the Union Safety Committee during, or at the time of the Union/Management Safety Committee meeting. It further agrees to supply P.P.S. related to the above which were issued prior to the signing of the Agreement, upon request.
6. Upon request by the Union, the Company will provide available safety information concerning hazardous materials and will review such information with the Union Safety Chair and ensure that necessary precautionary procedures are established.
7. Company will continue to provide, maintain and have available competent staff and medical facilities and provide, without cost to the employee, medical services, physical examinations and other appropriate tests at a frequency and extent necessary to determine whether the health of employees is being adversely affected by exposure to harmful physical agents or toxic materials.

This should also include a complete work profile and medical record of every worker. This record should be kept strictly confidential and should be made available to worker and/or, with his/her written permission only, to any of his/her designated representatives.

12. **SENIORITY AND BUMPING - CLEANER-SWEEPER & LABOUR GROUPS**

Cleaner Sweepers or Labouring personnel who are successful on promotion to a higher rated job on another flow chart, relinquish their right of return to the cleaner-sweeper or labourer's classifications in the event they are surplus to requirements.

Personnel having accepted employment as cleaner-sweepers or labourers and subsequently promoted to jobs within Clearance Pools 2 and 3 would retain the right to return to cleaner-sweeper and/or labourer if surplus to requirements.

Bumping into the cleaner-sweeper and/or labouring classifications is restricted to personnel other than those classifications contained on Flow Charts No. 11 and No. 16, in addition the conditions as covered under Article 24 of the Agreement.

13. **SIGNING OFF JOB**

If an employee is interviewed for the purpose of signing away his/her rights to a job, the Plant Chair or his/her designee will be present at such interview.

15. **SKILLED TRADES**

With regard to Skilled Trades, employees in the categories of Machine Tool Operator, All-round Group II and Special Tool Milling Operator Group II, the provisions of Schedule "D" Clause 1.10 of the Agreement will apply.

16. **SOURCE INSPECTION**

If the Company determines that outside inspection work is to be performed by Machine Parts Inspectors, Tool Inspectors, Materials Inspectors or any Inspectors working in the Receiving Department, the Company agrees to equalize such work among the employees who normally perform such work subject to:

- (i) continuing satisfactory deportment and performance of inspectors so assigned and,
- (ii) completion of individual project assignment by the inspectors initially assigned.

Employees who perform inspection work outside the Plant on a daily basis shall be compensated for their travel and meals.

Should they be required to be away from home overnight they shall be compensated at the rate outlined in Clause 12.07 Schedule "B".

17. **JOB SECURITY AND WORK OWNERSHIP - SKILLED TRADES**

Sub Contracting - Maintenance and Tooling, i.e, S.301, S.204, S.309, S.208, S.104, S.105, S.103 are on layoff, and the Company agrees that the work of the particular laid off trade shall be performed within the Bargaining Unit except in cases of:

- i) short completion time requirements and the immediate unavailability of the required Tradespersons on staff for the work to be performed, or
- ii) unavailability of space or of the required equipment, or
- iii) short duration jobs for which it is not practicable to recall the appropriate Tradesmen.

The Company agrees to notify the Skilled Trades Committeeperson in advance and to provide an explanation of the sub contracting of the work of the particular trade when that trade is on layoff.

Full Utilization

- 1) Planning
Plant management shall meet, semi-annually to review with CAW Skilled Trades representatives' projected work loads regarding the installation, construction, maintenance, repair, service and warranty work of existing or new equipment, facilities and the fabrication of tools, dies, jigs, patterns and fixtures.
- 2) Information
Advance notice of outside contract activities will be provided in situations other than emergencies, at least 10 days in advance to permit meaningful discussion and a careful analysis of the Company's workforce capabilities in connection with the subject work. This written notice will provide the Union with all available information on the nature of the work, including plans and the number of trades persons required to perform the work.
- 3) Full Utilization
It is the policy of the Company to fully utilize its own employees in maintenance and tooling in the performance of maintenance, construction work and tooling. For the purpose of this clause,

Full Utilization shall mean a minimum of six days at eight hours per day. When such work is required to be performed, skilled trades employees will be given first priority to do such work provided they are capable of performing such work.

Contracting and its effect on the Machinist group,
i.e., S.209, S.202, S.107, S.108, S.215, S.303

It is understood that the company shall notify the union 30 days prior to a layoff of any of the above trades or classifications. There will be a full disclosure and discussion as to contracts and the parties shall make arrangements to bring the work in-house prior to any layoff. These discussions will be on the basis of the ability to perform the contract work in the machining group taking into account:

- i. ability to perform the work based on costs
- ii. short completion time requirements and the immediate unavailability of the required Tradesperson on staff for the work to be performed, or
- iii. unavailability of space or of the required equipment, or
- iv. short duration jobs for which it is not practicable to recall the appropriate Tradesperson.

Short Recall

In the event the Company recalls an employee for a period that it estimates will not exceed twelve (12) weeks in duration, hereinafter referred to as a "temporary recall", the employee will have the right to waive the temporary recall without loss of seniority or recall rights if the employee provides proof satisfactory to the Company that:

- 1) the employee is presently working at another job; or
- 2) the employee attending school; or
- 3) the employee is attending a training program and provided:
 - i. the employee advised the Company's Employment Department within two (2) working days of being contacted by phone, or being in receipt of the certified notice of recall; and
 - ii. there is another employee the Company may recall to fill their needs, and such employee accepts the recall.

Should the employee desire to be recalled for a subsequent temporary recall he/she will advise the Company's Employment Department of such.

In the application of this section the Company shall bear no responsibility, financially or otherwise, to any employee if its estimate of any recall period is in error, provided the Company acted in good faith. The Company's estimate of the recall period shall not constitute a guarantee of the amount of work available.

In the application of this provision, no employee shall be displaced by an employee with greater seniority who has previously waived recall.

Notwithstanding any other provision of the Collective Agreement, an employee who has waived recall shall have no further entitlement under the SUB Plan or any other benefit plan for the duration of such layoff.

18. **SUPPER BREAK FOR EMPLOYEES WORKING OVERTIME**

The following procedure has been agreed concerning meal periods in connection with overtime:-

- (a) For overtime of up to two hours being a continuation of the employee's regular shift hours - no supper break.
- (b) For overtime scheduled to exceed two hours being a continuation of the employee's regular shift - a supper break shall be recognized from 4:30 p.m. to 5:00 p.m.

19. **TOOL AND DIE MAKERS**

In the application of Appendix I the following understanding applies to the work assignment of the Tool and Die Makers:-

- (i) Duties involved in the installation of primary services to test rigs will not be the responsibility of the Tool & Die Maker but will be the responsibility of the appropriate skilled trade.
- (ii) The manufacture, attaching or application of pick-up pads or pick-up points on test piece sections or components will not be the responsibility of the Tool & Die Maker.
- (iii) Conducting of static and stress tests will not be conducted or performed by the Tool & Die Maker.

- (iv) The making, construction or manufacture of wood or plastic parts or sections of the model shall not be the responsibility of the Tool & Die Maker but will be the responsibility of Job No. S-302, Model and Mock-up Patternmaker, and/or Job No. 630, Production Plastic Mechanic.
- (v) The making, construction or manufacture in the Development Shop of sheet metal parts or sections of the model shall not be the responsibility of the Tool and Die Maker

In addition to the above, should rework be required to be done at the wind tunnel on the part of the model built by the Tool and Die Maker, he/she will perform this work at the wind tunnel or at the plant should the model be returned for rework.

Tool and Die Makers will be responsible for the making, assembling, installing, modifying and adjusting whiffletrees.

The Company will continue to assign the development mechanic to the work covered by items (2), (3) and (5).

20. **TRAINING PROGRAM- PRODUCTION CLASSIFICATIONS**

PURPOSE

The purpose of this Training Program is to make certain that extreme care is exercised in the selection of young trainees and that the methods of training are uniform and sound, with the result that they will be equipped for profitable employment, and to further the assurance to the Company of proficient workers at the conclusion of the training period.

COMMITTEE

"Committee" shall mean the Joint Training Program Committee. The Committee shall be composed of two members appointed by the Company and two members from the Bargaining Committee as selected by Local 112.

RESPONSIBILITIES OF COMMITTEE

The Committee shall be responsible for the establishment of the training schedules, wage rates, number of trainees in a classification, credits for previous experience, standards, selection of trainees and the method of administering, monitoring and modifying the program as required.

The application for the positions of trainees will be through the job posting procedure.

21. **WORK PARTIES**

Every ninety days, the Company will post for five days, a list of the Job Classifications it anticipates will be required for Work Parties. Any employee who at the time is assigned to the Job Classifications listed and who is willing to accept any such Work Party assignment, may submit his/her name for inclusion on the Work Party assignment list on the form provided. An employee must submit a new request each ninety (90) days in order to remain eligible for Work Party assignments. An employee may request at any time that his/her name be removed from the Work Party assignment list and he/she thereafter, will not be eligible for such assignments until he/she re-submits his/her name in accordance with these procedures.

In forming a particular Work Party, the Company will select the members from among those employees who have submitted their names as herein provided, according to the Job Classifications that are required in compliance with the Collective Agreement. The Company will, whenever practicable, select members from among senior employees although it is recognized that a senior employee while qualified may not be suitable for assignment on a particular Work Party. Any employee who has submitted his/her name for the Work Party assignment list who refuses a particular Work Party will be removed from the list and thereafter will not be eligible for Work Party assignments until he/she re-submits his/her name in accordance with these procedures. Employees who are absent from work when the Work Party is formed will not be eligible for selection but such absence will not be considered as a refusal of a particular Work Party assignment.

In the event there is a surplus or layoff within a Job Classification in which there is an employee on a Work Party assignment, such employee shall be retained on the Work Party. Upon cessation of the Work Party, the employee will be subject to any surplus or layoff action which would have occurred if the employee had not been on a Work Party at the time of the surplus or layoff action and any senior employee laid off shall be recalled.

In the formation of each Work Party, the Company will meet with the employees and Union to discuss conditions of the Work party, per diem, hotel, fares, etc.

22. **PROGRAMMABLE MACHINES**

The Company shall promote and encourage the elevation of existing skills to match the technological advances made to the control equipment on the machine.

Where established control programmes are available, they shall be used by the operator to control the operation of the machine.

Where such programmes are not available, the operator will produce any required programme up to the level the machine permits, utilizing the programming equipment at the machine. The operator will not alter the Data Base or Supplied programmes even if the programming equipment on the machine becomes part of a distributed control system. In addition, he/she will operate the machine to produce the required item.

23. **TRUCK AND FORK LIFT DRIVERS**

Truck and Fork Lift Drivers 550-11 will be permitted up to four (4) hours paid time off for testing per calendar year in order to maintain the licenses required to perform the duties of the job.

24. **EMPLOYEE PERSONNEL HISTORY FILE**

An employee will be permitted to inspect his/her own personnel history file once a year under the following conditions:

- (a) an employee may inspect only his/her own file;
- (b) such an inspection will be conducted on the employee's own time and by prior written application on a form provided by the Company;
- (c) the application will be submitted to the Human Resources Records Department;
- (d) notes may be made of the records, but no copies of the records shall be made;
- (e) the employee will not change, obliterate, mark, remove or add to the record;
- (f) a maximum of 15 minutes will be spent by an employee inspecting his/her Personnel history file.

25. **TRANSFER OF EMPLOYEES**

It is agreed and understood that contained within the meaning and intent of the Transfer Clause, the Company has the ability to transfer from Bay to Bay the most knowledgeable employee whether the need for the knowledge is in the losing or receiving area.

It is further agreed and understood that no employee will be transferred for punitive or capricious reasons.

26. **JOB CLASSIFICATIONS**

As stated and agreed during the 1987 Negotiations, all Job Classifications combined shall be considered as one (1) job description with all duties being performed by the single classification.

In addition, an employee, while performing his/her assignment, may perform work of another Job Classification provided such work is incidental to assembly.

27. **SUB-CONTRACT - PRODUCTION CLASSIFICATIONS**

The parties agree that prior to initiating any sub-contracting of work normally performed by bargaining unit employees which would result in a direct layoff of a bargaining unit employee, discussion with the Union will be held.

28. **OVERTIME - BREAK PERIOD**

The following policy will be followed when employees are scheduled to work two hours overtime after completing the employee's regularly scheduled eight hour shift.

- (1) the employee will be given a ten minute paid break which will commence five minutes prior to the end of the regular scheduled shift.
- (2) the employee will be given the 5 minutes wash-up period prior to the end of the completion of the overtime period in place of the regular 5 minute wash-up period. (Schedule B - Article 5)

29. **S & A / MATERNITY**

If an employee returns from an approved maternity leave and is laid off before she has been able to restore all of the weeks of EI entitlement she used during such leave, the Company will pay such employee an amount equal to the EI maximum weekly benefit for each week during such layoff in which the employee does not receive EI benefit for reason only that she has used up weeks of entitlement during the maternity leave and has not had an opportunity to restore them.

The Company's obligation under this paragraph will not exceed fifteen (15) weeks. During such weeks, regular EI premiums will be paid.

30. **ELECTRICAL MECHANIC**

It is agreed that the operations necessary to mock up, develop, test and fabricate prototype installations of electrical, radio or radar wiring harnesses, equipment and systems including drawing and computer recording and retrieval of results will be performed by the Electrical Mechanic 614-2.

32. **OVERTIME GUIDELINES**

The parties agree to the following guidelines in satisfaction of the overtime equalization principle set out in the collective agreement.

A. General

1. Consistent with the requirements in Section 10.05 of Schedule "B", overtime is to be equalized among employees in a Supervisor's area who are employed in the same Job Classification. It is understood that it will not be possible to offer employees who work permanent shifts equalized overtime with employees who rotate between shifts. However, the Union may bring any particular problem regarding inequitable distribution to permanent off-shift employees to the attention of the Manager of the employee's work area and the parties will endeavour to find a satisfactory solution.
2. Whenever possible, employees will be asked in advance to allow maximum notification.

3. Overtime hours are to be cumulative to June 22, 2001, 2002, 2003 and zeroed out at the completion of each contract year set out above.
4. All overtime hours are to be marked on a posted overtime list whether worked or refused (if refused, mark with an R). The hours are to be marked as a running total. Sundays and Statutory Holidays will be marked as 1.5 times hours offered to reflect the difference in overtime bonus.
For example: Monday and Saturday: 8 hours offered - 8 hours added.
Sunday and Statutory Holidays: 8 hours offered - 12 hours added.
5. For weekends, overtime will be offered to employees without regard to the shift worked during the previous week.
6. On transfer, an employee will be given the average of the overtime hours of those who usually perform the work at the time of transfer.
7. In the following circumstances, an employee will be given the average overtime hours worked during the absence:
 - (i) return from group insurance
 - (ii) return from workers' compensation
 - (iii) return from leave of absence
8. (a) Employees returning from a temporary reassignment will have their overtime hours worked marked on the original list.
(b) When employees are temporarily reassigned the employee usually performing the work will receive preference for the overtime.
9. Employees on vacation will not have their overtime hours adjusted whatsoever.
10. New starts will be given the average of the overtime hours offered on completion of their probationary period.
11. Employees absent for reasons other than set out in paragraph 7 when overtime is being scheduled are not to be charged for overtime hours.

B. Sunday Overtime

First, the requirement to equalize overtime over a reasonable time period should be considered, recognizing that a refusal to work overtime is logged in the same manner as actual hours worked.

It is recognized that for certain jobs continuity of work is to be considered with the result that certain Sunday assignments should ideally be given to those employees who performed that assignment on the Saturday.

Employees on other overtime lists within their classification should not be asked to work until the Supervisor's crew has been given the opportunity to work Saturday and/or Sunday. Any such overtime shall be recorded on the employee's normal crew list.

In addition, employees in the area who usually perform the work on the off-shift will be offered the overtime opportunity prior to employees on another overtime list.

C. Averaging Procedure

When an employee moves from one overtime scheduling group to another, the following shall apply with respect to overtime hours. It is understood that, when the movement results from a transfer per Schedule "E", page 100 of the Local 112 Collective Agreement, the transferred employee's overtime hours will be considered to be equal to the average overtime hours of his/her new overtime scheduling group. In all other cases, the employee will retain the accumulated overtime hours to his/her credit at that time.

33. VACATION PLANNING

In those years when there is no Plant shutdown for vacation purposes, the parties agree that the following guidelines will be used to determine employees' vacation period.

1. The Company will issue vacations forms to all employees no later than February 1.
2. Employees are required to submit vacation request forms no later than March 1.
3. Vacation Planners are to be completed and copies of approval request forms are to be returned to employees by April 1.
4. Requests will be granted based on seniority and classification. It is recognized there may be exceptions necessitated by work requirements which will be reviewed on a case by case basis.
5. Vacation Planning will be done by area manager where possible.
6. In order to allow as many employees as possible vacation time during the summer months, no more than three weeks of

- vacation will be granted during July and August, unless the additional entitlement falls within condition #10.
7. Employees who change jobs by choice (i.e. Job Posting) should discuss their approved vacation time with their new supervisor. Vacation time may be altered to maintain continuous production.
 8. Division initiated moves will not affect an employee's scheduled vacation time.
 9. Employees on Workers' Compensation or Group Insurance Benefits during their approved vacation period, must submit for approval, a revised Vacation Plan Request Form upon returning to work.
 10. Fifteen percent (15%) of the employees in an area will be granted vacation at a given time. However, this will not apply in Final Assembly due to critical delivery requirements. Exceptions will be reviewed on a case by case basis.

34. **AMALGAMATION**

The following shall apply to all amalgamations of job classifications from the date of signing of the Collective Agreement.

1. Seniority
All seniority of employees within the amalgamated classifications shall be integrated.
2. Recall Rights
All employees with seniority in the amalgamated classifications shall be recalled as openings occur within the new classification in accordance to their newly integrated seniority.
3. Bumping Rights
 - a. All employees will retain bumping rights as per the prior Collective Agreement.
 - b. Bumping rights are extended to any amalgamated group in which the employee previously had bumping rights to one or more of the former classifications, subject to Article 22.01., including lateral and upward bumping for employees with vested rights to lower classifications which were amalgamated with higher classifications.
 - c. The following additional bumping rights may be exercised on a one time basis, up to June 22, 2003:
 - i. Employees who had bumping rights to jobs which were reclassified to same or higher wage levels will

retain those bumping rights held prior to the reclassifications.

4. Training

It is further understood that training will be extended to all employees affected by the classifications amalgamation including those employees who exercise a bump into an amalgamated job he/she had previously vested rights. The total cost of in-plant training shall be borne by the Company.

5. Red Circling

Existing employees that are amalgamated into lower classifications will remain at their existing wage rate until the new job rate reaches their job rate at time of amalgamation. Employees entering the amalgamated classification will receive the appropriate wage rate in accordance with Schedule "A" of the Collective Agreement.

35. **JOB CLASSIFICATIONS**

During negotiations leading to the renewal of our current Collective Agreement, the revision of flowcharts, amalgamation of classifications and reassignment of duties was discussed and certain changes were incorporated into the Collective Agreement.

In an effort to further improve these areas, the parties also agree to continue to analyze the current job classification and flowchart structure and recommend appropriate changes for implementation during the agreement. The Committee will conduct its business in a manner consistent with the principles discussed during the negotiations.

36. **SUPPLIERS/PARTNERS/CUSTOMERS FLEXIBILITY**

It is essential that our suppliers, partners and customers be able to perform necessary elements of their work at the Company's location in order to conform to and meet the requirements of their contract.

The Union agrees that the performance of such work by suppliers, partners and customers will not constitute a violation of the Collective Agreement.

This letter shall also permit the supplier and/or its carrier to deliver its goods to the point of use on Company premises as required.

The Union has expressed concern regarding the Company's suppliers/partners who have contracted local companies to work at de Havilland.

It is recognized that it is not the most desirable situation to have the supplier/partner contract a third party to complete their work on schedule.

It is agreed that the Company will continue its current practice of working with the suppliers/partners to minimize the use of third party contractors.

In the event of layoff, the Company agrees to work with the supplier/partner in giving serious consideration to eliminate or minimize the use of third party contractors.

37. **TRANSFERS**

During the 2000 negotiations the parties discussed the transfer language and its impact on employees as well as the Company's ability to operate effectively in a changing work environment.

It is agreed that during the life of the agreement the parties will review the transfer language in light of the many changes in the plant layout, new programs and increase in production levels.

It is the intention of the parties to continue working in the same cooperative fashion as in the past year to facilitate the transfer of employees when required.

38. **MACHINE SHOP**

During negotiations leading to the renewal of the 1997 and 2000 Collective Agreement, the parties discussed the assignment of work among the employees within the machine shop. This will confirm the understanding reached as follows:

1. All new positions created in the Machine Shop will be S-202 positions.
2. Upon ratification of the 2000 collective agreement, all current S-107 and S-108 will be offered an opportunity to become S-202 during the life of the Collective Agreement.
3. It is recognized that employees classified as S-202 may be assigned to any machine in the shop.
4. For the purposes of Schedule "B", section 10.05, overtime will be equalized among employees in each work zone, which work

zones currently encompass Conventional, Numeric Control and Gantry machines.

5. The temporary movement of any employees between the different work zones in the Machine Shop will be made as required without being considered a transfer under the collective agreement. After 15 days, such temporary move will be discussed between the parties. If overtime is required in the work zone to which an employee has been temporarily moved, he/she shall only be offered such after all employees who normally work in that zone have been offered the work. If such employee does perform overtime work in this zone, it will be charged against his/her overtime usage in his/her normal work zone.
6. The movement of employees between work zones in the Machine Shop for other reasons will be done in accordance with the Collective Agreement provisions, with the exception of Trade Groups I and II that form normally performing groups will be separated for transfer purposes.

39. **JOB CLASSIFICATION AND JOB DESCRIPTIONS**

The parties agree that during the life of the 2000 Collective Agreement a committee composed of an equal number of representatives of the Company and the Union will review all job classifications with a view to determining which classifications have become redundant or obsolete. These classifications will then be removed from the collective agreement at the time of its next renewal.

Further, the committee will examine the job descriptions for all classifications in the bargaining unit with a view to amending same, where appropriate, to reflect the current job requirements and duties.

40. **LETTER OF INTENT: OFFICES AND COMPUTERS**

During the 2000 negotiations, it was agreed that the Company would look at the possibility of relocating union offices, taking into consideration space availability and cost restraints.

Prior to initiating any office relocations, the Company will have discussions with the union.

The Company agrees to provide the union with one computer in the first year of the agreement, and a second computer in the second year.

41. **UPGRADED CLASSIFICATIONS - 802, 804, 806, 870**

The parties agree that all current incumbents at the time of ratification in classifications 802, 804, 806, 870 will be re-classified to 922, 924, 926, 970 respectively.

LETTERS OF UNDERSTANDING

1. ARBITRATION - SKILLED TRADES

The Company and Union agree that an arbitrator will be selected to hear any grievance processed into arbitration by the Skilled Trades Group.

2. COVERALLS

Both parties agreed in Negotiations that the subject of furnishing coveralls for employees working in certain areas would be left to the mutual agreement of the Health and Safety Committee.

3. HAZARDOUS MATERIALS

Upon request by the Union, the Company will obtain available safety information concerning hazardous materials and will review such information with the Union Safety Committee Chair and ensure that necessary precautionary procedures are established.

4. HOLDING DEPARTMENT

In order to process the orderly return to work of employees who have been absent on extended sickness, ie. a period in excess of four (4) weeks, the following procedure has been established.

- (a) At the expiry of four (4) weeks the employee is notified by mail that he has been transferred to the Holding Department.
- (b) When cleared by his physician to return to work, he is required to:
- (c) Contact the Human Resources Department (633-7310, Ext. 2973); this should be at least four (4) days prior to the date of return as stated by his physician and the employee is required to have a written proof of his clearance to return to work.
- (d) Human Resources Department will arrange a date and time for him to visit the Health Centre for clearance by the Company physician.
- (e) If because of physical restrictions, the Company physician cannot confirm the employee's physician's clearance for return, the employee will be asked to report to the Human Resources

Department where he will be given necessary forms for continuation of Weekly Indemnity.

- (f) If his satisfactory physical condition is confirmed, the Human Resources Department will arrange for his immediate return to work.
- (g) The employee is required to report to the Human Resources Department at the commencement of the shift on the day of his return to collect his Data Collection Badge and will be directed to his Department.

5. NIGHT SHIFT - UNION REPRESENTATION

It was understood and agreed in Negotiations that the Night Shift Committeeperson, if he/she is the only Committeeperson on Night Shift, may have an alternate Committeeperson replace him/her if absent to participate in an arbitration hearing or negotiations.

6. ORIENTATION PROGRAM

As was discussed in Negotiation, the Company plans to establish an Orientation Program for new employees and the Union will be given an opportunity to participate in this Program.

7. PAID EDUCATION LEAVE

Effective the first pay period beginning on or after the date of ratification, the Company agrees to pay into a special fund three (3) cents per hour per employee for all compensated hours for the purpose of providing paid education leave. One (1) cent will be directed to Aerospace PEL. Said paid education leave will be for the purpose of upgrading the employee's skills in all aspects of Trade Union functions. Such monies to be paid on a quarterly basis into a trust fund established by the National Union CAW, and sent by he/she Company to the Canadian Region CAW Headquarters at 205 Placer Court, Willowdale, Ontario M2H 3H9.

The Company further agrees that members of the bargaining unit, selected by the Union to attend such courses, will be granted a leave of absence without pay for twenty (20) days of class time, plus travel time where necessary, said leave of absence to be intermittent over a 12-month period from the first day of leave.

Employees on paid leave of absence will continue to accrue seniority and benefits during such leave.

8. **MATERNITY LEAVE**

In recognition of the amendment to Schedule C, Article 3.01 concerning the impact of Maternity Leave on Vacation Pay, the parties agree to a retroactive adjustment in vacation pay for all current employees who have been on approved maternity leave in the period since January 1, 1984. Such adjustment will be determined using the principles set out in the amended Article 3.01 above but using the pay rates applicable to the years in question.

9. **PRODUCTION CONTROL**

The purpose of this Letter of Understanding is to ensure that the lines of demarcation between Locals 112 and 673 are returned to the status of the pre-1994 collective agreement.

During the 1994-1997 collective agreement the company assigned group 595 Production Control duties to the Local 673 Work and Material Planner classification (s). The company agrees that Local 112 (as prior to the 1994 collective agreement) will expedite all work orders pertinent to the Legacy system and also all open orders pertinent to the B.M.S. system. The responsibility for expediting the progression of launched orders and parts (normal or expedited flow) is the duty of Production Control. Production Control is responsible for obtaining committed completion dates for launched orders and providing these dates to Work & Material Planners. It is not the function of the Work & Material Planner to obtain committed completion dates from Production Supervisors. To establish this commitment raw material or vendor parts may be required. These dates will be obtained from the Work & Material Planners. Local 112 will expedite all shortages whether prior to or after the work order has been released (launched). The company agrees to return such work e.g., expediting shortages, etc., to Local 112 group 595 Production Control.

The Company further commits to work with the union and return all duties performed by Local 673 Work and Material Planner classification (s) that were previously performed by Local 112 Production Control as defined in the Local 112 collective agreement effective June 23, 1990 and return same by October 31, 1997.

The parties agree that when the work described above is returned to Local 112 that all grievances filed during 1994-1997 relating to the

performance of Production Control work by Local 673 employees will hereby be withdrawn.

10. **PERMANENT OFF-SHIFTS**

This letter confirms the agreement reached during recent contract negotiations between Bombardier Aerospace, Toronto, and the Canadian National Automobile, Aerospace Transportation and General Workers Union of Canada (CAW Canada), and its Local 112, Toronto, Ontario, concerning the implementation of a Stores Management System in Superstores.

In order to ensure the successful implementation of an automated Stores Management System, the parties agree that senior employees will be given preference to the Picking function within Superstores. If no such volunteers can be found within Superstores, the canvass will expand throughout the classification. Once they volunteer, employees will be required to work on permanent off-shift(s) for a minimum period of one (1) year. If after the one (1) year period, the employee no longer wishes to work on the permanent off-shift, he/she can move to the day shift within Superstores.

Employees working on the permanent off-shifts will receive a special off-shift premium of sixty (\$60.00) dollars per week in addition to the off-shift premium outlined in Schedule "B", article 9.01.

11. **WOMAN'S ADVOCACY**

It was addressed by the parties and recognized that female employees may sometimes need to discuss with another woman matters such as violence or abuse at home or workplace harassment. They may also need to find out about specialized resources in the community such as the Company's Employees Assistance Program (EAP), other counselors, or women's shelters to assist them in dealing with these other issues.

For this reason the parties agree to establish the role of a Woman's Advocate, which will be filled by a CAW female member of the local site. The Woman's Advocate will meet with female employees as required, to discuss problems with them and refer them to the appropriate external agency or resource when necessary. The Woman's Advocate will develop appropriate communications to inform female employees about the advocacy role. The Advocate will be provided four (4) hours of paid time per week in this role.

The Woman's Advocate will not leave her normal work duties without obtaining permission from her supervisor. Such permission will not be unreasonably withheld.

The company agrees to provide the Woman's Advocate with a personal pager that female employees can use to contact her. The Company will provide access to a private conference room so that confidentiality can be maintained when a female employee is meeting with the Woman's Advocate, however it is the responsibility of the Woman's Advocate to locate and reserve the conference room.

The Company agrees that a Woman's Advocate will be identified by the Union. Further, the Company agrees to cover lost time for the purpose of training once every three (3) years for the Woman's Advocate.

12. **WORKPLACE HARASSMENT**

The Company and the CAW are committed to providing a harassment-free workplace. Harassment is defined as a "course of vexatious comment or conduct that is known or ought reasonably to be known to be unwelcome", that denies individual dignity and respect on the basis of the grounds such as: gender, disability, race, colour, sexual orientation or other prohibited grounds, as stated in the provincial Human Rights Code. All employees are expected to treat others with courtesy and consideration and to discourage harassment.

The workplace is defined as any Company facility and includes areas such as offices, shop floors, rest rooms, cafeterias, lockers, conference rooms and parking lots.

Harassment may take many forms: verbal, physical or visual. It may involve a threat or an implied threat or be perceived as a condition of employment. The following examples could be considered as harassment but are not meant to cover all potential incidents:

- (a) Unwelcome remarks, jokes, innuendos, gestures or taunting about a person's body, disability, attire or gender, racial or ethnic backgrounds, colour, place of birth, sexual orientation, citizenship or ancestry;
- (b) Practical jokes, pushing, shoving, etc., which cause awkwardness or embarrassment;
- (c) Posting or circulation of offensive photos or visual materials;

- (d) Refusal to work or converse with an employee because of their racial background or gender, etc;
- (e) Unwanted physical conduct such as touching, patting, pinching, etc;
- (f) Condescension or paternalism which undermines self-respect;
- (g) Backlash or retaliation for the lodging of a complaint or participation in an investigation.

Harassment is not:

Harassment is in no way to be construed as properly discharged supervisory responsibilities, including the delegation of work assignments, the assessment of discipline or any conduct that does not undermine the dignity of the individual. Neither is this policy meant to inhibit free speech or interfere with normal social relations.

Filing a complaint:

If an employee believes he/she has been harassed and/or discriminated against on the basis of any prohibited ground of discrimination, there are specific actions that may be taken to put a stop to it:

- (a) Request a stop of the unwanted behaviour;
- (b) Inform the individual that is doing the harassing or the discriminating against you that the behaviour is unwanted and unwelcome;
- (c) Document the events, complete with times, dates, location, witnesses and details;
- (d) Report the incident to Supervisor/Committee person;

However, it is also understood that some victims of discrimination or harassment are reluctant to confront their harasser, or they may fear reprisals, lack of support from their work group, or disbelief by their supervisor or others. In this event, the victim may seek assistance by reporting the incident to any Union representative/Company official or, Human Resources.

Investigation:

Prior to the receipt of the complaint the Union shall have the right to attempt to informally resolve co-worker complaints. Upon receipt

of the formal complaint, the Supervisor/Committee person contacted will immediately inform their Union or Company counterpart and together they will then interview the employee and advise the employee if the complaint can be resolved immediately or if the complaint should be formalized in writing. Properly completed copies of this complaint will be forwarded to the Human Resources Manager and the Union Chairperson.

A formal investigation of the complaint will then begin by the Chairperson and Human Resources Manager or their designates, interviewing the alleged harasser, witnesses and other persons named in the complaint. Any related documents may also be reviewed. Should the complaint involve sexual harassment/discrimination, the process will include a woman.

Resolution:

The Chairperson and Human Resources Manager or their designates will then complete a report on the findings of the investigation. The Chairperson and Human Resources Manager will make a determination on an appropriate resolution, in an attempt to resolve within ten (10) days and ensure the resolution is fair and consistent with the intent of the Company policy and National CAW policy regarding discrimination and harassment in the workplace.

At the conclusion of this step, the complaint, if unresolved, will be dealt with through the grievance procedure. It may be appealed to arbitration in accordance with the provisions of the Collective Agreement. The parties agree that this procedure is an alternative complaint procedure and as such, complaints should not be pursued through both the grievance procedure and the Human Rights Complaint procedure.

The pursuit of frivolous allegations through the Human Rights Complaint procedure has a detrimental effect on the spirit and intent for which this policy was rightfully developed and should be discouraged.

All employees have the right to file a complaint with the provincial Human Rights Commission and to seek redress under the Human Rights Code.

Copies of documentation will be maintained and secured by the Human Resources professional, the Chairperson, and the Committee person involved in the investigation.

Training:

In consultation with the National Union, three-day anti-harassment training will be developed for all union representatives. In addition, the CAW and management will jointly develop and mutually agree on a four-hour training program that will be delivered to all employees over the life of the Collective Agreement. It is the intent of the parties that the training roll-out be a joint effort.

Letter of Understanding

CAW Social Justice Fund

June 24, 2000

Mr. Buzz Hargrove
National President, CAW
205 Placer Court
Toronto, Ontario
M3H 3H9

Dear Mr. Hargrove:

The Company agrees to contribute a total of twenty five thousand dollars (\$25,000) in each of the three (3) years of the 2000 Collective Agreement to the CAW Social Justice Fund.

Sincerely,

Bernard Cormier
Vice President, Human Resources
Bombardier Aerospace, de Havilland

LETTER OF UNDERSTANDING

Disability Review Committee

June 24, 2000

Notwithstanding the provisions of the Grievance procedure, the Company and the Union agree to the following resolution vehicle regarding extended group insurance disability benefits:

- A Disability Review Committee will be formed consisting of:
 - Director, Industrial Relations, Compensation
 - Plant HR Representative(s) as appropriate
 - Company Medical Doctor
 - Insurance Carrier Representative
 - CAW National Representative(s) as appropriate
 - Plant and office CAW Benefit Representative
 - Plant Chairpersons (or designates) – Local 112 & 673

The Review Committee will meet as required to review any issues related to the administration of the disability plans in general, and deal specifically with any case in which an employee:

- a) has applied for disability benefits, the claim has not been approved, and the decision challenged, or;
- b) has received disability benefits and the claim is being reconsidered.

The Company will endeavour to provide the Union with copies of correspondence to employees that suggests benefits may be suspended at least one week in advance of the possible date of suspension.

In reviewing such cases the objective of the Review Committee will be to:

- Ensure that all members understand the relevant facts that relate to the disability and original adjudication of the claim;
- Explore the feasibility of modified work;
- Explore the feasibility of other rehabilitative approaches/programs;

- Make every reasonable effort to develop a plan that is responsible to the employee's circumstances and that retains the integrity of the disability insurance plan terms and conditions.

It is agreed and understood that should the Committee fail to reach a mutually satisfactory resolution, the matter may be processed through the Grievance and Arbitration procedure, and that the discussions of the Review Committee will be conducted on a without prejudice and precedent basis.

LETTER OF UNDERSTANDING

Mr. R. White
Director for Canada
United Automobile, Aerospace & Agricultural
Implement Workers of America (UAW)
205 Placer Court
Willowdale, Ontario

Dear Mr. O'Neil:

Re: UAW LOCAL 112/673 NON-CONTRIBUTORY PENSION PLANS

This letter will confirm our understanding covering the Pension Plans for UAW members in the event the Plans are terminated.

In the event the Pension Plans for members of UAW Local 112 and/or Local 673 are terminated pensions earned to date of termination for Active Employees will be guaranteed by the Company.

In addition, this understanding will also extend to pensions in payment for Retirees, Suspended Plan members entitled to a pension, Surviving Spouse pension entitlements, and those former Employees entitled to a Deferred Pension at retirement. It is further understood, that should the pension fund be insufficient to provide for pensions earned to date of termination the Company will deposit into the Pension Plan sufficient funds to cover the cost of providing pension benefits for those entitled up to date of termination.

It is further understood that eligibility and amounts payable for early retirement shall be provided in the same manner as if the pension plan and member's participation in the plan had not been terminated.

Yours truly,
THE DE HAVILLAND AIRCRAFT OF CANADA, LIMITED

L. Reid,
Director, Industrial Relations

/pa

LETTER OF UNDERSTANDING

June 28, 1994

Mr. B. Hargrove,
President
C.A.W.

Dear Mr. Hargrove:

As we discussed, subject to a ratification by the membership by Sunday, July 3, 1994 and a continued cooperative relationship with the de Havilland workforce, it is our intention to have a final assembly line for the Global Express aircraft at Downsview. Under the same conditions, if it proves feasible from a business perspective to launch the Dash 8, Series 400, it is our intention to have a final assembly line for this aircraft at Downsview.

Yours sincerely,

Robert E. Brown,
President

MEMORANDUM OF UNDERSTANDING

1. For the purpose of vacation and pension credits, those employees who went on strike as at February 22, 1985, shall not lose such service.

For the purpose of vacation and pension credits, those employees who went on strike as at June 23, 1987, shall not lose such service.

APPENDIX II

de HAVILLAND INC. AND BOMBARDIER REGIONAL AIRCRAFT DIVISION AND LOCAL 112 CAW

AIRCRAFT TRADES TRAINING PROGRAM

AIRCRAFT TRADES TRAINING

These training programs will be called "Aircraft Trades Apprenticeships" and referred to in this Agreement as "Apprenticeships" for the purpose of allowing the graduate trainee to receive registered papers from the Department of Labour. The term Aircraft Trades Apprenticeship is not to be confused with the C.A.W. Indentured Skilled Trades program.

TRAINING PROGRAM - PRODUCTION CLASSIFICATIONS

Purpose:

The purpose of this Training Program is to make certain that extreme care is exercised in the selection of applicants and that the methods of training are uniform and sound, with the result that they will be equipped for profitable employment, and to further the assurance to the Company of proficient workers at the conclusion of the training period.

Committee:

Committee shall mean the Joint Training Program Committee. The Committee shall be composed of two members appointed by the Company and two members from the Bargaining Committee as selected by Local 112.

Responsibilities of Committee:

The Committee shall be responsible for the establishment of the training schedules, credits for previous experience, standards, selection of trainees, and the method of administering, monitoring and modifying the program as required.

Applications:

The application for the positions of trainees will be through the job posting procedure. All qualified applicants (see eligibility requirements) will be tested for acceptability by the Committee. Applications of successful applicants will be submitted to the Committee for selection review.

ELIGIBILITY REQUIREMENT

To be eligible for an aircraft trades apprenticeship the applicant must:

- (a) Have a minimum of 12 months in a Group 5 classification in the flow chart of the trade to be apprenticed in or have an acceptable level of prior work and/or institutional experience.
- (b) Pass a mathematics aptitude test as determined by the Committee.
- (c) Show a competent level of dexterity on mechanical aptitude test.
- (d) Not presently, or have been, an apprentice/trainee in the last year.
- (e) Must pass a "Basic Job Knowledge Test" to establish that the student has the required theoretical knowledge to apply himself to the training curriculum.

Exceptions to these requirements will be made by the Company upon recommendation of the Committee.

WAGES

Wages are based on the job rate of the classification the apprentice is training for. The apprentice will also receive cost of living and any improvement factors.

Group A-6

- Level 1 - 1st 1,000 hours - not less than 80% of the mechanic's wage rate.
- Level 2 - 2nd 1,000 hours - not less than 85% of the mechanic's wage rate.

Level 3 - 3rd 1,000 hours - not less than 95% of the mechanic's wage rate.

Wage rates adjusted to the first full day of next level.

SENIORITY

The apprentices will exercise seniority in their own group. For example, if there are four apprentices in the trade such as "Sheet Metal" and a reduction in this number is required due to lack of work, the first hired or classified as an apprentice shall be the last laid off and the last laid off shall be the first to be reinstated.

- At the end of the program, the apprentice will maintain normal plant seniority and will be classified in the trade for which he/she apprenticed.
- During apprenticeship, if apprentice is laid off due to lack of work, he/she will be permitted to move back into his/her previous flow chart with accumulated plant seniority while on apprentice training.
- An apprentice laid off will maintain recall rights to his/her apprenticeship program for a period of 2 years.

The ratio of apprentices to mechanics shall not exceed one (1) apprentice to each twelve (12) mechanics in the trade in which they are apprenticed. If layoffs become necessary, apprentices shall be laid off to maintain the same ratio. Upon recommendation by the Committee, the ratio may be varied to accommodate trades without sufficient mechanics to accommodate the number of apprentices required.

DISCIPLINE

The Company may take disciplinary action but must notify the Committee. The Committee shall have the authority to recommend discipline and/or cancellation of the apprenticeship agreement of the apprentice to the Company at any time for cause such as:

- (a) inability to learn;
- (b) unreliability;
- (c) unsatisfactory work;
- (d) lack of interest in his/her work or education;

- (e) improper conduct;
- (f) failure to attend classroom instruction regularly.

ACADEMIC TRAINING

- (a) Each will be required to attend scheduled training. This will be, (1) on Company Premises/Night School, (2) Inhouse training conducted on Company time with full wages, or (3) night school, the cost of which will be paid by the Company, no wages will be paid unless it occurs during his/her normal shift.
- (b) Ninety percent (90%) school attendance must be maintained. If attendance is less than ninety (90%) due to illness and the apprentice is able to pass all tests, the Committee may recommend he/she continue in the program.
- (c) If test is required, a mark of sixty-five percent (65%) is deemed a pass unless the Committee deems a lower mark is acceptable. (The Committee cannot deem a mark of less than fifty-five percent (55%) a pass.)

COURSE OUTLINE

- (a) The apprentice shall work the normal shop hours and be subject to off shifts.
- (b) Apprentices may work overtime provided the ratio is maintained. Only actual hours worked will be credited to their apprenticeship.
- (c) All Level 6 apprenticeship programs shall be 3,000 hours in duration.
- (d) The first 300 hours will be a probation period.
- (e) During the apprentice's time in each shop, he/she may be assigned to work with a mechanic for a portion of each work week.
- (f) Each apprentice will be given a training curriculum of each function to be covered in their training.
- (g) The curriculum for each related occupation as designated by the Committee will outline all the functions that must be performed to be able to do the job in that classification.
- (h) The Committee may substitute time from one training function to another based on performance as long as all the related occupations curriculum have been met, and passed.
- (i) Oral and written proficiency tests prescribed by the Committee must be passed with sixty-five percent (65%) standing. The

test will be based on the training curriculum. Failure to finish all functions and/or sixty-five percent (65%) in verbal and written test may result in termination of the apprentice from the program.

- (j) A test may be required at the end of each training stage.

CREDIT

If the apprentice has served in more than the one related classification or proven related academic or job experience, the apprentice can be given up to a 1,000 hour (6 months) credit by the Committee. This credit is to be evaluated in the apprentice's second term.

PROGRAM ADMINISTRATION

The Supervisor of Apprentices in agreement with the Committee, shall prepare adequate record forms to be filled in by the Supervisor of the area where the apprentice is being trained. The reports will be submitted to the Supervisor of Apprentices on the work and progress of the apprentices under their supervision. These reports shall be submitted to the Committee for review.

Apprentices shall be under the general direction of the Supervisor of Apprentices and under the immediate direction of the Supervisor of the department to which they are assigned. The Supervisor of Apprentices is authorized to move apprentices from one department to another, in accordance with the pre-determined schedule of work training. Where an apprentice is retained unavoidably on a scheduled work process for a period longer than the maximum time scheduled for such work process, an explanation shall be sent to the Supervisor of Apprentices who will place it before the Committee for their approval at the next meeting.

APPRENTICESHIP AGREEMENT

"Apprenticeship Agreement" shall mean a written agreement between the Company and the person employed as an apprentice and his/her parent or guardian (if he/she is a minor), which agreement shall be approved by the Supervisor of Apprentices and registered with the Registration Agencies.

The following shall receive copies of the Agreement:

1. The Apprentice
2. The Company
3. The Committee
4. The Registration Agencies
5. The Local Union

CERTIFICATE OF COMPLETION OF APPRENTICESHIP

Upon completion of the apprenticeship under these Apprenticeship Standards, the Supervisor of Apprentices will recommend to the Industrial Training Branch, Ontario Department of Labour that a certificate, signifying completion of the apprenticeship, be issued to the apprentice. No certificates will be issued by the Apprenticeship Branch, Ontario Department of Labour unless recommended by the Committee.

AGREEMENT REVIEW

In order to facilitate the purpose of this program, amendments may be proposed by the Committee, the Company or the Local 112 C.A.W. Any misunderstandings or non-agreement of the Committee on any issues not clarified in this Agreement will be submitted to Labour Relations and the Union Bargaining Committee for resolution.

AIRCRAFT TRADES TRAINING PROGRAM II

AIRCRAFT TRADES TRAINING

These training programs will be called "Aircraft Trades Apprenticeships" and referred to in this Agreement as "Apprenticeships" for the purpose of allowing the graduate trainee to receive registered papers from the Department of Labour. The term Aircraft Trades Apprenticeship is not to be confused with the National C.A.W. Indentured Skilled Trades program.

TRAINING PROGRAM - PRODUCTION CLASSIFICATIONS

Purpose:

The purpose of this Training Program is to make certain that extreme care is exercised in the selection of applicants and that the methods of training are uniform and sound, with the result that they will be equipped for profitable employment, and to further the assurance to the Company of proficient workers at the conclusion of the training period.

Committee:

Committee shall mean the Joint Training Program Committee. The Committee shall be composed of two members appointed by the Company and two members from the Bargaining Committee as selected by Local 112.

Responsibilities of Committee:

The Committee shall be responsible for the establishment of the training schedules, credits for previous experience, standards, selection of trainees and the method of administering, monitoring and modifying the program as required.

Application:

The application for the positions of trainees will be through the job posting procedure. All qualified applicants (see eligibility requirement) will be tested for acceptability by the Committee. Applications of successful applicants will be submitted to the Committee for selection review.

ELIGIBILITY REQUIREMENTS

To be eligible for an aircraft trades apprenticeship the applicant must:

- (a) Have a minimum of 12 months in a Group 5 classification in the flow chart of the trade to be apprenticed in or have an acceptable level of prior work and/or institutional experience.
- (b) Pass a mathematics aptitude test as determined by the Committee.
- (c) Show a competent level of dexterity on mechanical aptitude test.
- (d) Not presently, or have been an apprentice/trainee in the last year.
- (e) Must pass a "Basic Job Knowledge Test" to establish that the student has the required theoretical knowledge to apply him/herself to the training curriculum.

Exceptions to these requirements will be made by the Company upon recommendation of the Committee.

WAGES

Wages are based on the job rate of the classification the apprentice is training for. The apprentice will also receive cost of living and any improvement factors.

Group A-7 & Group A-8

- Level 1 - 1st 500 hours - not less than 80% of the wage rate for the trade apprenticed in.
- Level 2 - 2nd 500 hours - not less than 85% of the wage rate for the trade apprenticed in.
- Level 3 - 3rd 500 hours - not less than 95% of the wage rate for the trade apprenticed in.

Group A-6/8

- Level 1 - 1st 1,000 hours - not less than 75% of the wage rate for the trade apprenticed in.
- Level 2 - 2nd 1,000 hours - not less than 80% of the wage rate for the trade apprenticed in.

Level 3 - 3rd 1,000 hours - not less than 90% of the wage rate for the trade apprenticed in.

Wage rates adjusted to the first full day of next level.

SENIORITY

- (a) The apprentices will exercise seniority in their own group. For example, if there are four apprentices in the trade such as "FLIGHT SERVICE" and a reduction in this number is required due to lack of work, the first hired or classified as an apprentice shall be the last laid off and the last laid off shall be the first to be reinstated.
- (b) At the end of the program, the apprentice will maintain normal plant seniority and will be classified in the trade for which he/she apprenticed.
- (c) During apprenticeship, if apprentice is laid off due to lack of work, he/she will be permitted to move back into his/her previous flow chart with accumulated plant seniority while on apprentice training.
- (d) An apprentice laid off will maintain recall rights to his/her apprenticeship program for a period of two (2) years.
- (e) The ratio of apprentices to the trade shall not exceed one apprentice to each twelve (12) employees in the trade in which they are apprenticed. If layoffs become necessary, apprentices shall be laid off to maintain the same ratio. Upon recommendation by the Committee, the ratio may be varied to accommodate trades without sufficient employees to accommodate the number of apprentices required.

DISCIPLINE

The Company may take disciplinary action but must notify the Committee. The Committee shall have the authority to recommend discipline and/or cancellation of the apprenticeship agreement of the apprentice to the Company at any time for cause such as:

- (a) inability to learn;
- (b) unreliability;
- (c) unsatisfactory work;
- (d) lack of interest in his/her work or education;

- (e) improper conduct;
- (f) failure to attend classroom instruction regularly.

ACADEMIC TRAINING

- (a) Each will be required to attend scheduled training. This will be (1) on Company premises/Night School, (2) inhouse training conducted on Company time with full wages, or (3) Night school, the cost of which will be paid by the Company; no wages will be paid unless it occurs during his/her normal shift.
- (b) Ninety percent (90%) school attendance must be maintained. If attendance is less than ninety percent (90%) due to illness and the apprentice is able to pass all tests, the Committee may recommend he/she continue in the program.
- (c) If test is required, a mark of sixty-five percent (65%) is deemed a pass unless the Committee deems a lower mark is acceptable. (The Committee cannot deem a mark of less than fifty-five percent (55%) a pass.)

COURSE OUTLINE

- (a) The apprentice shall work the normal shop hours and be subject to off shifts.
- (b) Apprentices may work overtime provided the ratio is maintained. Only actual hours worked will be credited to their apprenticeship.
- (c) Level 6 to Level 7 Apprenticeship Programs shall be 1500 hours. (Group A-7).
- (d) Level 7 to Level 8 Apprenticeship Programs shall be 1500 hours. (Group A-8)
- (e) Programs advancing a Level 6 directly to a Level 8 shall be 3000 hours. (A-6/8)
- (f) The first 300 hours will be a probation period.
- (g) During the apprentice's time in each shop, he/she may be assigned to work with an employee in the trade for a portion of each work week.
- (h) Each apprentice will be given a training curriculum of each function to be covered in their training.
- (i) The curriculum for each related occupation as designated by the Committee will outline all the functions that must be performed to be able to do the job in that classification.

- (j) The Committee may substitute time from one training function to another based on performance as long as all the related occupations curriculum have been met, and passed.
- (k) Oral and written proficiency tests prescribed by the Committee must be passed with sixty-five percent (65%) standing. The test will be based on the training curriculum. Failure to finish all functions and/or sixty-five percent (65%) in verbal and written test may result in termination of the apprentice from the program.
- (l) A test may be required at the end of each training stage.

CREDIT

If the apprentice has served in more than the one related classification or proven related academic or job experience, the apprentice can be given up to a 1,000 hour (6 months) credit by the Committee. This credit is to be evaluated in the apprentice's second term.

PROGRAM ADMINISTRATION

The Supervisor of Apprentices in agreement with the Committee, shall prepare adequate record forms to be filled in by the Supervisor of the area where the apprentice is being trained. The reports will be submitted to the Supervisor of Apprentices on the work and progress of the apprentices under their supervision. These reports shall be submitted to the Committee for review.

Apprentices shall be under the general direction of the Supervisor of Apprentices and under the immediate direction of the Supervisor of the department to which they are assigned. The Supervisor of Apprentices is authorized to move apprentices from one department to another, in accordance with the pre-determined schedule of work training. Where an apprentice is retained unavoidably on a scheduled work process for a period longer than the maximum time scheduled for such work process, an explanation shall be sent to the Supervisor of Apprentices who will place it before the Committee for their approval at the next meeting.

APPRENTICESHIP AGREEMENT

"Apprenticeship Agreement" shall mean a written agreement between the Company and the person employed as an apprentice

and his/her parent or guardian (if he/she is a minor) which agreement shall be approved by the Supervisor of Apprentices and registered with the Registration Agencies.

The following shall receive copies of the Agreement:

1. The Apprentice
2. The Company
3. The Committee
4. The Registration Agencies
5. The Local Union.

CERTIFICATE OF COMPLETION OF APPRENTICESHIP

Upon completion of the apprenticeship under these Apprenticeship Standards, the Supervisor of Apprentices will recommend to the Industrial Training Branch, Ontario Department of Labour that a certificate, signifying completion of the apprenticeship, be issued to the apprentice. No certificates will be issued by the Apprenticeship Branch, Ontario Department of Labour unless recommended by the Committee.

AGREEMENT REVIEW

In order to facilitate the purpose of this program, amendments may be proposed by the Committee, the Company or the Local 112 C.A.W. Any misunderstandings or non-agreement of the Committee on any issues not clarified in this Agreement will be submitted to Labour Relations and the Union Bargaining Committee for resolution.

APPENDIX III

TRAINING PROVISION

The success of the Company to compete in global markets and provide satisfying employment and career growth opportunities will to a significant extent depend on our ability to increase productivity, adapt to new and changing technologies and broaden individual employee skills. This in turn will depend on our joint efforts to have in place programs to upgrade and expand employee job skills. For these reasons the Company has undertaken to improve its own approaches to training and development. The Company will commit the necessary resources to achieve the above through a process that will involve the Union in training needs assessment and training program development.

The training objective will be to enable employees at all levels and with due respect for their service credits and seniority, to acquire a wider range of skills in order to improve their job security and become more productive in their current jobs.

It is the Company's long term goal to cross train all employees within a job classification so as to enable them to perform all of the normal functions and duties required of that classification. It is recognized that one of the benefits of such cross training is to expand the pool of employees who would be available and able to perform required work within their work area. The parties will meet periodically to discuss the ongoing cross training.

He/she will develop objectives and procedures consistent with the scope of this Appendix.

The Union will be involved a Joint Training Committee to identify:

- a) Training needs and
- b) Training program designs

and make recommendations to Management and employees for the improvement of employee skills and qualifications.

The composition of the Joint Training Committee will be determined locally by the Union(s) Executive and Management and will be in place not later than three months following ratification.

Training could include:

- ✓ Academic Upgrading
- ✓ Multiskilling
- ✓ Occupational Health and Safety
- ✓ Apprenticeship
- ✓ Development of New Skills
- ✓ Laid Off Employee Training to enhance employment opportunities

Programs could include:

- ✓ WHMIS
- ✓ Job Instruction Training

Joint Committee members who require time from their regular schedule to attend approved Joint Committee activities will be paid for time so spent.
