- (c) Employees will inform their Supervisor by October 31st of their intent to take the hours banked in one [1] of two [2] ways listed in I] and ii] below, prior to the calendar year for which the choice is made:

4.03 Employees called in and performing work not continuous with their regular work period, will be paid for the hours so worked at the applicable overtime rate, or a minimum of two [2] hours at double time, whichever is the greater. Employees reporting for work and not needed for the full hours will be paid as above, unless failure to supply work is due to conditions beyond the control of the Company, or the employee has been previously notified by message left at the employee's residence or otherwise, not to report for work.

4.04 The provisions of stand-off time/pay are applicable only to day workers, scheduled to work days, save and except statutory holidays, weekends, vacations.

Day workers, scheduled to work days, who are called in to perform work between the hours of 12:00 midnight and 4:00 a.m., shall not, except in cases of abnormal operational difficulties, be required to report for their normal scheduled hours of work within eight hours of finishing such work. Employees will be entitled to make up time at straight time by agreement with their Supervisor.

If the job is not completed by 06:30 a.m., the employee shall not be required to report for the remainder of their normal scheduled hours of work, with no loss of pay.

For critical priority jobs that require efficient business operation for the Company, scheduled assigned overtime will be for the duration of the job, however consideration will be given to employees wishing to be excused from such overtime.

These calculations exclude the employee who is being averaged.

- 3) When an employee is unavailable for more than 21 days for any reason other than vacation, the employee will be credited with the average total overtime hours the employee qualified for during the absence. Laboratory employees will be ranked lowest to highest according to total overtime hours worked. Ties will be broken by ranking the last person that worked higher on the list.

2. The Laboratory Technician[s] will request each person in turn, from the daily signup list, from the lowest to the highest ranked and continuing in that order as the overtime opportunities arise. An employee who accepts an overtime opportunity will be bypassed for other opportunities for that workday.
3. When an employee is temporarily moved up to replace a Supervisor, they will be eligible to work overtime after the list has been exhausted. This is effective from the start of the first day worked on the temporary assignment to the start of the first day back on their regular schedule.

MISSISSAUGA LUBRICANTS CENTRE

PRINCIPLES: PERFORMANCE BASED PROGRESSION PROGRAM IN PRODUCTION – MAINTENANCE – LABORATORY

This Program shall be continuously updated. Specific job details, abilities, tasks, skills and knowledge will evolve and change over time, and will be incorporated into this Program as needed to ensure a competitive position. Progression is dependent upon demonstrated performance of the capabilities.

Details of the program are as follows:

Current employees are those hourly employees regularly assigned as Production Operators, Maintenance Mechanic 1's (excluding Lubeplex) or as Laboratory Technicians as of March 20th, 2000.

CAPABILITY

The demonstrated ability to apply skills and knowledge, on the job, in the desired way and achieve the desired outcome. All employees will perform all work they are trained in and qualified to perform, safely and as required.

GENERAL

Progression will require that employees demonstrate the necessary capabilities. The acquisition and demonstration of those skills having been verified over a period of time per level through the completion of one of the following (for current Maintenance employees, that period of time will be as per Table 2):

1. A Competency checklist.
2. Successfully completed training (training records system) and is regularly performing the work to Company standards.

3. Has a Certificate of Qualifications from a Company recognized institution or training facility.

Employees are expected to continue demonstrating capabilities on the job on an ongoing basis. Rotation of tasks, within the capabilities of employees, will begin at that point.

EMPLOYEES AFFECTED

All employees in Production Areas including White Oils, Phoenix, Pumping & Shipping and Utilities.

All employees in Maintenance (excludes Lubplex).

All employees in the Laboratory.

PRINCIPLES

Participation in the Progression Program shall be mandatory and employees are required to complete phases within specified timeframes in the respective progression program. Each phase must be successfully completed before the employee may move to the next phase.

An extension may be granted in extenuating circumstances. In such cases, an action plan will be developed to enable the employee to meet the expected level of qualification.

New entries (a person choosing to bid into a department or area) will be treated as new employees and are required to progress to a Technician/Maintenance Technician 1. All earned theory and enhanced skills will be portable.

Production

All current employees must progress to Technician 3 as a minimum. In Utilities, all current employees must progress to Technician 2 to relieve shift lead position and be paid Technician 2 rate at all times. In Utilities, employees must hold a valid Second Class Stationary Engineer Certificate to progress to Technician 1. Employees in Utilities with a Second Class Stationary Engineer Certificate will not be required to do the API pilots with the exception of fire fighting and distillation.

All Production employees will spend time at each level in the progression as described in Table 1:

Table 1

	MINIMUM	MAXIMUM
Technician 8	0	8 months
Technician 7	0	8 months
Technician 6	0	8 months
Technician 5	0	12 months
Technician 4	0	12 months
Technician 3	0	12 months
Technician 2	0	12 months

Employees in Utilities who have reached the Technician 3 level, and have successfully completed the First Class Stationary Engineer Certificate, (and provide said documentation to the Company), will be paid at a Technician 1 rate. However, if they wish to maintain the Technician 1 rate they will be required to progress to Technician 1, within the prescribed time frame. Should the current employee not complete this progression, their salary will be adjusted to their verified level.

Should an employee, having been displaced from their area and subsequently successfully bids back into their pre-displaced area, (with a time limit of 4 years from the date of displacement to the date of bidding), will be awarded their last verified level of their pre- displaced area.

Maintenance

All current Craftspersons must progress to Maintenance Technician 2 as a minimum.

Laboratory

All new Laboratory Technicians must progress to Laboratory Technician 1. Employees who have been bumped or displaced from the Laboratory and re-enter the Laboratory will not be required to possess a Community College diploma. New entries and new hires will have a Community College diploma.

DEVELOPING/ MAINTAINING AND APPLYING SKILLS

Each individual is responsible to ensure that all acquired capabilities are maintained and/or enhanced and that any/all deficiencies are reviewed with the immediate Supervisor for remedial action.

Production/Laboratory

Rotation will be set up, with Supervisory approval, taking into consideration the training, experience, and qualifications of the team members and particular circumstances for their respective team and/or the Technicians on Shift.

If rotation is not being accomplished by a respective team, that meets the above principles, then Management will implement a rotation schedule.

TEMPORARY MOVE-UP

Production

All Technician 1's, having volunteered, who are deemed qualified and have been selected to temporarily move up to Supervisory positions, will be required to move up.

Special assignment rate will only be paid to the selected candidate(s) who temporarily move up to supervisory positions. Individuals currently acting in the roles of supervisory staff will continue to do so.

Maintenance

All Maintenance Technician 1's, having volunteered, who are qualified and have been selected will temporarily move up to Maintenance Co-ordinator and Supervisor.

SPECIAL ASSIGNMENTS

Employees given the responsibility of the following positions shall receive a premium of 15% of their current base rate of pay whilst so engaged:

Operations Shutdown Coordinator, Shutdown Supervisor; Laboratory Supervisors, Shift Supervisors; Operations coordinators; Maintenance Coordinators; and Supervisor.

Employees given the responsibility of Safety Coordinator shall receive a premium of 12% of their current base rate of pay whilst so engaged.

IMPLEMENTATION

Production

All current employees must progress to Technician 3. Limited accommodation of current employees is possible after attainment of Technician 5 (10% or no more than one person on any shift).

Once current employees reach the position of Technician 3, they must declare that they do not wish to progress further by way of written notice. Upon such written notice, the employee must remain a Technician 3 for a minimum period of 12 months. After the 12-month period has expired, the employee can give notice in writing that they wish to progress to a higher level as a Technician.

It is mandatory for all existing Master Operators, and those currently qualifying as Master Operators, to progress to Technician 1.

New employees and New entries (persons choosing to bid into a department or area) after March 20th, 2000 must progress to a Technician 1.

Maintenance

All current Mechanic 1's are required to progress to Maintenance Technician 2, as a minimum.

Current employees assigned to the Mechanic 1 classification must maintain the minimum mandatory Maintenance Technician 4. Limited accommodation of current employees is possible up to a Maintenance Technician 2 (no more than 10% per trade].

Progression beyond Maintenance Technician 2 is voluntary for current employees and is in accordance with the Maintenance Matrix. Should the employee not be able to successfully complete the requisite skills and training for Maintenance Technician 1, the Company will reclassify the employee to Maintenance Technician 2 with corresponding pay.

New employees and New entries [persons choosing to bid into a department or area] after March 20, 2000 must progress to a Maintenance Technician 1.

New hires into the department without certification in the trade hired for, will be assigned by the Company to a Technician level that reflects their qualification at entry.

All Maintenance employees will spend time at each level in the progression as described in Table 2:

Table 2

	MINIMUM	MAXIMUM
Technician 8	12 months	12 months
Technician 7	12 months	12 months
Technician 6	12 months	12 months
Technician 5	12 months	24 months
Technician 4*	0	12 months
Technician 3	0	12 months
Technician 2	0	12 months

* *certified trades person*

In the event that the Company chooses not to hire below the Technician 4 level, all employees below a Technician 4 level shall be allowed to complete their certification within the designated timeline. This provision does not preclude layoffs under Article 10.

Laboratory

All current Laboratory Technicians must progress to Laboratory Technician 2. Limited accommodation of current employees is possible after obtaining Laboratory Technician 2.

New employees and New entries [persons choosing to bid into a department or area] after March 20th, 2000 must progress to a Laboratory Technician 1.

PERFORMANCE REVIEWS

All employees will have an annual performance review with their respective Supervisors.

ONGOING VERIFICATION

Employees will undergo ongoing verification of their capabilities. Verification methods shall be consistent. This is not intended as a re-test of all aspects of the program. Individuals may be expected, however, to use their capabilities to demonstrate proficiency in procedures, critical tasks, and other aspects of the job. Employees will be given advance notice as to timing and content prior to undergoing any review.

PROGRESSION

The Company will include the capabilities in the Training Program on the understanding that it shall be modified over time where required. Specific job details and tasks will evolve and change over time and will be incorporated into the training program and capability requirements for all positions as needed to ensure a competitive position.

PHASE PROGRESSION DEVELOPMENT

The Union will be given the opportunity for input into the design and development for the respective programs.

REDEPLOYMENT/RECLASSIFICATION/ACCOMMODATION

If an employee is unable to obtain and/or maintain the capabilities required within the Program, the Company may deploy or reclassify the employee to a position compatible with their capabilities at the appropriate rate for the job. Employees must achieve and maintain the minimum mandated progression stage for continued employment.

LETTER OF AGREEMENT [1]

SETTLEMENT OF MAINTENANCE ISSUES

The Mississauga complement of maintenance personnel, as of January 31, 2001 is eighty-eight [88].

Effective, February 1, 2001, the complement number referenced above shall be reduced by one for each employee that leaves the Maintenance Department. Any employees hired into the Maintenance Department after February 1st, 2001 will not result in an increase to the Maintenance Complement.

Reductions to the Maintenance Department complement will be managed through attrition, voluntary retirement, such voluntary severance opportunities as may be offered by the Company or other methods until the complement reaches sixty-one [61].

The Company and the Union agree to work together to identify initiatives to assign existing, active maintenance employees above the complement of sixty-one [61] to work that will utilize their skills. All employees will retain their departmental seniority.

LETTER OF AGREEMENT [2]

EMPLOYMENT SECURITY

Performance of work for the Company by contractors at this location will not serve to alter any right an employee has under the terms of this Agreement nor cause the lay-off of any employee in the Bargaining Unit.

The Company is prepared to give the Union the assurance that prior to sending work outside the Plant, preference will be given to assigning this work to qualified and available Bargaining Unit employees dependent upon maintaining operating efficiencies and the availability of equipment and machinery necessary to do the work.

In the event of a Plant closure, partial Plant closure or change of methods or facilities which will involve a permanent workforce reduction of employees covered under this Agreement, the Company shall train or retrain employees subject to lay-off for job vacancies which exist at that time within the Company, provided the employees have the basic qualifications and aptitude required for the job vacancy. Employees who are placed in lower paying jobs as a result of being declared surplus will receive the base rate of pay for the job which they held immediately prior to notification of such surplus.

In the case of an employee who does not qualify for a job vacancy as stated above or in the event that no job vacancy exists, the Company will participate in every reasonable way possible with the Union and the Government in training and retraining any employee for outside employment opportunity. Provision of this training for outside employment will occur only when an employee's recall rights have expired or they have waived their recall rights and accepted severance payment. The Company will reimburse an employee for training and/or moving costs incurred within two years of termination to a maximum of two thousand dollars, provided such expense is for the purpose of outside employment opportunity less any other training or moving subsidy available to the employee. Training costs will include registration and tuition fees, books and examination fees.

The Company and the Union agree to assist the employee in identifying outside subsidies that may exist and assist the employee in qualifying for such subsidies.

LETTER OF AGREEMENT [3]
SAFETY, HEALTH AND INDUSTRIAL RELATIONS
TRAINING FUND

As part of the current wage settlement, the Company agrees to remit three cents per hour for each full-time employee's regular hours of work to a Safety, Health and Industrial Relations Training Fund. Payments are to be made to the Safety, Health and Industrial Relations Training Fund of the C.E.P.U. on a quarterly basis.

The Union agrees that the sole purpose of this fund will be to provide training to its members primarily those from Petro-Canada in the areas specified above. The Union further agrees that the content of the Safety and Health Programs will be consistent with current Safety and Health Programs endorsed by the Company, i.e. Five Star Program. The Union also agrees to furnish the Company, on an annual basis, a listing of the courses to be presented.

The Union agrees to provide a fund audit as requested.

Leave(s) of absence provisions in local agreements will apply to leave requested pursuant to this Memorandum of Agreement.

This Memorandum will be included as part of all local collective agreements and unless cancelled by either party within thirty days prior to the end of the current collective agreement all terms and conditions will continue to apply.

LETTER OF AGREEMENT [4]

WSIB BENEFIT LEVEL

In the event that the level of WSIB benefits is reduced, the Company commits to continue the practice of topping up these benefits to 100% of an employee's base earnings for 52 weeks.

LETTER OF AGREEMENT [5]

WORKFORCE ADJUSTMENT

Should any workforce adjustment initiatives lead to a reduction in the workforce, the Company and the Union agree to explore the following methods, where possible, taking into account the qualifications of the employees to be affected:

- Reductions in contractors regularly performing Bargaining Unit work will take place provided qualified Petro-Canada employees demonstrate a willingness and desire to perform the work in question in an efficient and competitive manner.
- Voluntary retirement will be offered to selected, eligible employees.
- Voluntary termination will be offered to selected employees.
- Where possible, redeployment, of employees, within the Company.

Should, these methods still not provide sufficient workforce reduction required, the Union and the Company, agree that layoffs may be necessary and this will be done in conjunction with the terms of the Collective Agreement.

LETTER OF AGREEMENT [6]

ACCOMMODATION OF DISABLED WORKER

The Company and the Union recognize their joint obligation to cooperate in accommodating disabled employees and, where possible, facilitating their return to work in the bargaining unit.

Upon scheduling a return-to-work meeting with a bargaining unit member, the Company will advise the Union Chairperson. A Union representative may attend at the worker's option.

The parties agree that the Company shall retain the right to make the final assessment as to whether or not and how a disabled worker's needs can be accommodated, subject to the right of the Union to file a grievance.
